### Average Consumer Outstanding Balance Key

Includes loans for personal, family, and household uses including residential mortgages, home equity loans and lines of credit, auto, boat, lot, and other consumer loans.

### Average Consumer Outstanding Balance Comment

Consumer and mortgage loans are both experiencing some slowdown in demand, though the pipeline has stayed relatively constant. Many consumers are paying down debt, home equity loan demand is almost non-existent, but boat loans are continuing their season summer season increase. Since the bank sells almost all of its mortgages, 1-4 family residential mortgages will continue to decline.

### Average Commercial Outstanding Balance Key

Includes loans for commercial and industrial purposes to sole proprietorships, partnerships, and corporations, and other business enterprises, whether secured or unsecured, single-payment or installment. Also includes construction and land loans for commercial and residential development by builders and developers.

### Average Commercial Outstanding Balance Comment

Commercial demand has been improving of late, though almost entirely for existing (non-construction) commercial assets. The Juneau economy, while less recession-prone than the rest of Alaska, still has growth challenges, but the Kensington mine has begun operations and is scheduled to produce over 100,000 ounces of gold per year for at least 10 years.

## General Market Commentary

The opening of the Kensington gold mine has happened, and in general, Alaska's economy is in better condition than the national economy, with an overall unemployment rate of 7.7% (July 2010), and the Southeast Alaska economy, though a little stressed in tourism, has an unemployment rate of less than 7.0% (5.2% in the Juneau borough, where the bank does most of its business). Alaska is one of only three states in the US that had more jobs in 2010 (through June) than they did in 2008, when the US recession began.

We experienced strong net pay-offs in the commercial loan portfolio in July 2010 as we are carefully monitoring our exposure to commercial real-estate. Overall, commercial loan demand remains weak. The recent drop in mortgage rates has stimulated increased residential mortgage refinance and purchase activity in our market.

A. - Loans in this classification include home equity, installment, and residential mortgage loans. Since receiving the CPP funds, \$4.9 billion of secondary market loans were closed. B. - The makeup of commercial loans presented are approximately as follows: commercial, financial, and agricultural 40%, commercial real estate 47%, and real estate construction 13%. Real estate related loans are not attractive in this market and C&I loan demand is weak in this economic environment. Associated has made new commercial loans totaling \$7.8 billion since receiving the CPP funds. Associated Bank was named the No. 1 SBA lender in Wisconsin for the fifth consecutive year in fiscal 2009.

The bank has been fortunate to have good volume of re-financing of mortgages going on at the present time as the rates continue to fall. Consumer loan demand is extremely soft. ### Average Commercial Outstanding Balance Comment

The modest slow down felt at the end of the 2nd quarter remains in play at this time. Small businesses are reporting much less activity in both orders at manufacturers and retail sales. Home building is really slow with even the start home activity which has been carrying the local market having decreased considerably. There is deep concern that we are going into another slow down and our customers would not have a need to borrow except for the lost working capital from the earlier slowdown.

### General Market Commentary

The second quarter end with considerable concerns as housing and manufacturing in our area both have seen a slow down in recent weeks. Small businesses are struggling to keep busy. Retail sales are soft. Agricultural in our area is weak due to low dairy prices although cattle and feed prices are aiding the

situation. Everybody remains very cautious.

Consumer loans, which consist primarily of indirect auto lending loans, continues to decline. ## General Market Commentary

Comment 1 : The information and averages utilized for the average outstanding in each category was derived from our system generated general ledger report, which provides average outstanding balances for consumer and commercial loans. This report will be utilized going forward to ensure consistent reporting.

Comment 2 : Average consumer loans declined slightly, however, demand remains constant. Loan demand remains healthy. Management expects the demand to continue in upcoming months. Management has also initiated a Loan initiative which includes credit card and residential mortgage lending.

Comment 3 : Commercial loans declined slightly from the previous month, which is attributed to the high amount of "loan repayments". Loan demand has picked up slightly from previous months, although the amount of funds requested are significantly smaller. Bank expects the repayments to outpace new loan closings in the next

few months, although this paradigm is shifting. Included in the totals are Letters of Credit in the amount of \$2,483. General Comments : The general economy for the Southeast is experiencing continued high unemployment. The Georgia unemployment rate (CTB trade market includes Atlanta MSA, Columbus, and Birmingham, AL) in June 2010 was approximately 10%. The outlook is for continued high unemployment rates for the next several months. CTB has launched a loan promotion, for consumer loans (residential and credit card) that should provide continued inquiries and loan production. In addition, CTB continues to seek small business loans through SBA and conventional financing.

Average consumer loans decreased \$5.5 million during July 2010 (as compared to June 2010). The decrease was primarily attributable to decreases in average 1-4 family residential mortgage loans, average home equity loans and average consumer and other loans of \$15.5 million, \$800,000 and \$389,000, respectively, due primarily to loan payments and charge-offs and foreclosures on nonperforming credit relationships,

offset by an increase in loans held for sale of \$11.3 million. First Bank sold \$25.8 million of 1-4 family residential mortgage loans into the secondary market during the month of July 2010. During the seven months ended July 31, 2010, First Bank originated and closed \$157.3 million of 1-4 family residential mortgage loans and sold \$152.3 million of 1-4 family residential mortgage loans into the secondary market. The average balance of commercial loans decreased \$259.3 million during July 2010 (as compared to June 2010). The primary reasons for the decrease in the overall average balance of commercial loans were declines in the average balance of First Bank's Real Estate Construction and Land Development, C&I and CRE loan portfolios of \$110.6 million, \$109.2 million and \$38.6 million, respectively, primarily resulting from loan payments and charge-offs and foreclosures on nonperforming credit relationships. ? ? ? ? ?

This captures all loans and gives a fair representation of our mix of consumer and commercial loan mix. However, there will be some crossover in some of the categories.

General Market Commentary

Lending Demand is very soft right now. Maybe it is the oppressive heat and drought we are having, but it is just slow. Consumer loans have been more stable lately, however. There is a little economic activity in our region, so hopefully it will fuel an uptick in other activity and create some jobs.

We continue to generate new loans, which totaled \$9.1 million for the month of July as well as \$14.5 million in renewals for the month of July. New loan requests continue to be slow and the market is soft. Year to date new loan production continues to lag behind the same period for 2009. The Bank has campaigned favorable rates and terms, but results have not been successful. Although the Bank actively seeks new loan opportunities, current and prospective customers remain cautious and scarce.

1-4 family residential mortgages which includes held for sale, mortgage warehouse, home equity lines of credit, and other consumer loans (auto, gross overdrafts, personal)

### Average Consumer Outstanding Balance Comment

Consumer auto loan volume is slightly higher in the third quarter compared to the second quarter. Demand for home equity loans, however, continues to be low. In the third quarter we are running a home equity loan campaign in all of our markets that offers an attractive rate and extended terms. We have seen a noticeable increase in loan volume in our branches. The residential mortgage and mortgage warehouse average balances increased by \$13.8 million from last month. Origination volume has been strong and is expected to continue at this pace throughout the summer with mortgage rates hovering at all time lows. In addition, we are offering a new 10 year jumbo portfolio mortgage product to provide an alternative to Jumbo buyers who have limited financing options. We continue to increase originations by expanding our origination staff, we have hired three new Mortgage Originators during 2010 and plan to hire two more before year end.

### Average Commercial Outstanding Balance Comment

Commercial and industrial loan demand is still very soft. New loan opportunities are sparse. Commercial Real Estate demand is very low. Delinquencies are on the rise. However, we hired five loan officers in the Kalamazoo market to expand the Bank's foot print and generate new loan volume.

## General Market Commentary

There has been no change to the general market conditions since our last report. Unemployment rates are above the national average. In our consumer loan portfolio, personal bankruptcies in 2009 were up 73% over 2008. However, in Indiana, 1st quarter filings were up 6.0% over the 4th quarter. First quarter 2010 bankruptcies were higher than 2009, but the rate of increase year over year was less than the rate of increase from 2008 to 2009. This is an encouraging sign. The purchase housing market is very slow, and the refinance activity has decreased due to increased interest rates and declining appraised values.

Since May 31, 2009, the bank has made \$896.1 million in total loans consisting of \$133.8 million of new loans and \$762.3 million in renewals of existing loans. In Many cases, the CPP funds have allowed the company to pursue loan modifications and restructure debt in lieu of foreclosure/collateral liquidation.

General Market Commentary

The demand for CRE loans in support of new projects remains very light. There is a ready market (demand) to refinance CRE projects, however, these projects do not have desirable credit characteristics. Demand for working capital financing is flat compared to prior months. Demand for equipment debt remains very weak as capacity exists in the vast majority of industries served in this market.

## General Market Commentary

NewBridge Bank (the "Bank") continues to extend credit to facilitate economic activity in support of communities, businesses and consumers in our footprint. In July 2010 the Bank originated \$24.3 million of loans, and has now originated \$187.9 million year to date. As of July 31, 2010, the Bank held outstanding loans of \$1.40 billion, which is a decrease of \$65.2 million, or 4.5%, from December 31, 2009. The small decrease in outstanding loans from December 2009 is primarily the result of loan payoffs and pay downs of existing loans in the normal course of business. The Bank continues to make credit available to consumers and businesses in its market areas. During the month of July 2010, the Bank originated \$7.5 million in commercial and small business purpose loans, \$2.4 million in home equity lines of credit, and \$0.5 million in consumer installment credit. During the month of July 2010, the Bank originated \$13.9 million in residential

loans to be sold in the secondary market or retained. The Bank's acquisition of the operations of Bradford Mortgage Company on December 31, 2009 has led to an increase in mortgage loan originations. All residential builders who are customers of the Bank have been contacted and provided information regarding specialized financing (rate of 4% fixed for 5 years; up to 95% financing; ¼% fee, no private mortgage insurance required) for consumers that are purchasing new construction homes which the builder has financed with the Bank. Thirty-one loans totaling \$7.2 million have been closed under this program. The Bank has been able to achieve these results although its state and local economies continue to exhibit substantial stress. As of June 2010, unemployment rates in several of the Bank's significant operating markets exceed the national unemployment rate of 9.6%. This includes Davidson County with 12.0%, Guilford County with 10.9%, Pender County with 10.1% and Rockingham County with 12.1%.

As a bankers' bank, we are focused on providing services to the community banking industry, which in turn provides loans to millions of consumers and small businesses throughout the country. PCBB provides our customer banks with products and services that allow these banks to offer competitive products and services to their end customers that they would otherwise not be able to offer. PCBB provides community banks the ability to make larger loans through its loan participation program, enhance liquidity management through our overnight cash investment and increase borrowing by providing facilities for community banks. PCBB also provides other products and services to support community banking activities. As a result of our focus on the

community banking industry, the TARP capital investment in PCBB has a multiplicative impact in that it facilitates lending activities through hundreds of community banks, indirectly or directly to the community bank's customers, as well. In addition, PCBB extended credit in the form of overnight lending facilities to Community Banks totaling \$233 million during the month.

Commercial loan demand continues to be soft in the Bank's market. The Bank currently has approximately \$50 million in cash that it would like to use for new loan originations as quickly as demand will allow in the Bank's market. Our strategic plan is to fully leverage the additional capital from TARP through originations of new commercial and consumer loans in the Bank's market.

### General Market Commentary

Unemployment continues to be at historically high levels in all markets. Residential real estate values have declined and are now below levels generally indicated by natural long-term growth rates (1994-2009). Residential sales activity continues to be driven by sales of foreclosed properties within all markets. New commercial loan requests have been minimal. Commercial real estate continues to be under stress in all markets. There is concern that CRE fundamentals - occupancy, rental rates, cap rates - may continue to be stressed through 2011.

Syringa bank has managed sustained balances in consumer loan totals, which requires generating a fair amount of business just to offset principal pay-down, maturity, and refinance activity. Much of the commercial loan decrease has come in the construction and development portfolio, which has experienced very little demand to replace maturing and non-performing loan reductions.

The Company primarily focuses its resources on all aspects of serving the banking needs of closely held, small and mid size companies in its defined market. Given the Bank's relatively small number of branches (9), we are not competitive in the mass retail banking market. The Bank began the operation of a residential mortgage origination unit during the first quarter of 2010, which should increase the volume of consumer loan originated. During July 2010, this unit originated \$50.9 million of mortgage loans, and year-to-date originations totaled \$132.4 million. These loans will not be held in the Bank's portfolio but rather sold after origination. The July average balance for these loans held on balance sheet awaiting sale was \$49.0 million.

## Average Commercial Outstanding Balance Key

Includes commercial and industrial loans, loans secured by commercial real estate and loans for commercial and residential construction and land development.

## Average Commercial Outstanding Balance Comment

The Company continues to originate new commercial loans and develop new customer relationships. During July 2010, total commercial loan production was \$19.5 million, with \$15.5 million representing actual loan fundings and a resulting increase in loan balances outstanding, and the remaining \$3.9 million representing unfunded or unused loan commitments. On a year-to-date basis, total commercial loan production totaled \$397.1 million, with \$200.6 million representing actual loan fundings and the remaining \$196.6 million representing unfunded or unused loan commitments.

Consumer loans include indirect and direct lending, lot loans, home equity lines and loans as well as 1-4 family mortgage loans.

### Average Commercial Outstanding Balance Key

Commercial loans include real estate construction, acquisition & development, corporate lending (including shared national credit facilities) and C&I lending.

### Average Commercial Outstanding Balance Comment

Decline in average commercial loans represents continued strategic reduction of non-core loans through loan sales and through the problem loan resolution process, as well as lower loan originations within the Core portfolio.

### General Market Commentary

The South Financial Group, Inc. and its wholly-owned banking subsidiary, Carolina First, has divided its loan portfolio along its primary strategic focus. The designation of "Core" and "Non Core" is meant to distinguish between those lending products for which little or no customer relationship exists and those that fit within the Company's primary strategic focus of relationship banking. The Non Core portfolio includes indirect auto

loans, shared national credit facilities, lot loans and certain other real estate related products, primarily residential construction related, for which there is little or no customer relationship other than the credit facility itself. ¶¶ In May 2010, TSFG announced that it entered into an agreement to merge with TD Bank. The merger subject to regulatory and shareholder approval and is expected to close in September 2010.

**CONSUMER LOANS:** Consumer loans reflect activity in our residential loan portfolio and mortgage banking operations, our indirect auto financing and direct consumer lending. We originated \$8.9 million of residential mortgages in July and sold \$4.4 million of those loans in the secondary market. We originated \$1.2 million of indirect auto loans and \$236,439 of direct consumer loans. **COMMERCIAL LOANS:** We originated 7 commercial loans totalling \$3.9 million of commitments and funded \$3.7 million of these commitments. The decrease in average commercial loans was primarily due to the sale of one large commercial loan.
