Loan Activity For: Jul, 2011

Average Consumer Outstanding Balance (Thousands \$) 44,751

Average Consumer Outstanding Balance Key

Includes loans for personal, family, and household uses including residential mortgages, home equity loans and lines of credit, auto, boat, lot, and other consumer loans.

Average Consumer Outstanding Balance Comment

Home equity lending is once again very weak, even in the summer remodelling season. The bank continues to sell most mortgages, but occasionally keeps loans in portfolio once a threshold is met. We are starting to see a slight pickup in home purchase activity, and the consumer economy in Southeast Alaska is stable, with two new national retail franchises opening in Juneau.

Average Commercial Outstanding Balance (Thousands\$) 103,716

Average Commercial Outstanding Balance Key

Includes loans for commercial and industrial purposes to sole proprietorships, partnerships, and corporations, and other business enterprises, whether secured or unsecured, single-payment or installment. Also includes construction and land loans for commercial and residential development by builders and developers.

Average Commercial Outstanding Balance Comment

Alaska Pacific Bank has recently stepped up its commercial loan marketing effort and is seeing some results in refinancing commercial estate. The construction market, for both residential and commercial, is very depressed, but there are five residential construction loans in the pipeline and one commercial loan in the pipeline.

Total Outstanding Balance Comment

The opening of the Kensington gold mine occurred in mid-2010, and in general, Alaska's economy is in better condition than the national economy, with an overall unemployment rate of just over 7% (May 2011), and the Southeast Alaska economy, though a little stressed in tourism, has an unemployment rate of less than 7.0% (5.2% in the Juneau borough, where the bank does most of its business). There are very few mortgage foreclosures in Southeast Alaska. Most of the state's long-term economic forecast revolves around oil production and oil prices, and there is some concern that the Alaska pipeline will not be able to operate economically unless it increases its throughput. However, there is still movement in the legislature to cut oil company taxes in order to stimulate exploration and production.

We provide a broad range of consumer loans to customers, including personal lines of credit, home equity loans and automobile loans. Since we are primarily a commercial bank, these loans are typically an accommodation to service the banking relationship of both the commercial business and its owners or management. This reporting is based on the Company's internal definition of consumer loans and does not necessarily agree to the call report definitions.

Average consumer loans decreased \$7.7 million during July 2011 (as compared to June 2011). The decrease was primarily attributable to decreases in average 1-4 family residential mortgage loans and average home equity loans of \$10.4 million and \$2.5 million, respectively, due primarily to loan payments, charge-offs and foreclosures on nonperforming credit relationships, partially offset by an increase in average loans held for

sale of \$5.7 million due to an increase in volume in the Company's mortgage division. The average balance of commercial loans decreased \$72.6 million during July 2011 (as compared to June 2011). The primary reasons for the decrease in the overall average balance of commercial loans were declines in the average balance of First Bank's C&I, CRE, and Real Estate Construction and Land Development loan portfolios of \$30.8 million, \$29.3 million, and \$12.8 million, respectively, primarily resulting from loan payments, charge-offs and foreclosures on nonperforming credit relationships.

Average Consumer Outstanding Balance Comment

Consumer loan volume remains at a steady pace and is largely driven by auto financing. However, volume is not enough to grow our portfolio. Home equity financing is slow. Residential mortgage and mortgage warehouse volumes still remain well below 2010 levels. Purchase activity remains weak, refinance activity has slowly started to pick up with the recent drop in long term mortgage rates. We expect activity to pick up during the quarter with home sales increasing during the summer months. Approximately 40% of home sales are foreclosure and short sales, to capture this business Horizon applied and has been approved as a Fannie Mae HomePath lender.

Average Commercial Outstanding Balance Comment

Commercial and industrial loan demand showing some signs of improvement. Still mostly refinance opportunities. Requests for equipment and plant expansion are still very modest. Commercial Real Estate loan demand is still weak for purchase money mortgages. However, refinance requests still dominate.

General Market Commentary Unemployment rates remain above the national average. Small businesses still seem reluctant to expand. New loan activity is mostly for lines of credit to finance inventory and accounts receivable. The purchase housing market continues to be weak with declining appraised values contributing to the slow down, refinance activity has slowly increased as a result of another decrease in long term mortgage rates.

General Market Commentary

The demand for CRE loans in support of new projects remains very light. There is a ready market (demand) to refinance CRE projects, however, these projects do not have desirable credit characteristics. Demand for working capital financing has decreased during 2011 year to date. Demand for equipment debt continues to improve and is increasing slightly month over month.

NewBridge Bank (the "Bank") extends credit to facilitate economic activity in support of communities, businesses and consumers in our footprint. In July 2011 the Bank originated \$18.2 million of loans, and has now originated \$169.3 million in loans year to date.

As of July 31, 2011, the Bank held outstanding loans of \$1.24 billion, which is a decrease of \$98.8 million, or 7.4%, from December 31, 2010. The decrease in outstanding loans from December 2010 is primarily the result of the sale of the Bank's operations in Harrisonburg, Virginia in May, which included the sale of \$72.5 million in loans.

The Bank continues to make credit available to consumers and businesses in its market areas. During the month of July 2011, the Bank originated \$5.1 million in commercial and small business purpose loans, \$1.8 million in home equity lines of credit, and \$0.6 million in consumer installment credit.

During the month of July 2011, the Bank originated \$10.7 million in residential loans to be sold in the secondary market or retained. All residential builders who are customers of the Bank have been contacted and provided information regarding specialized financing (rate of 4% fixed for 5 years; up to 95% financing; ¼% fee, no private mortgage insurance required) for consumers who are purchasing new construction homes which the builder has financed with the Bank. Forty loans totaling \$8.9 million have been closed under this program.

The Bank has been able to achieve these results although its state and local economies continue to exhibit stress. As of June 30, 2011, preliminary unemployment rates in several of the Bank's significant operating markets exceed the national unemployment rate of 9.2%. This includes Davidson County with 11.5%, Guilford County with 10.9% and Rockingham County with 11.5%.

General Market Commentary

As a bankers' bank, we are focused on providing services to the community banking industry, which in turn provides loans to millions of consumers and small businesses throughout the country. PCBB provides our customer banks with products and services that allow these banks to offer competitive products and services to their end customers that they would otherwise not be able to offer. PCBB provides community banks the ability to make larger loans through its loan participation program, enhance liquidity management through our overnight cash investment and increase borrowing by providing facilities for community banks. PCBB also

provides other products and services to support community banking activities. As a result of our focus on the community banking industry, the TARP capital investment in PCBB has a multiplicative impact in that it facilitates lending activities through hundreds of community banks, indirectly or directly to the community bank's customers, as well. In addition, PCBB extended credit in the form of overnight lending facilities to Community Banks totaling \$76 million during the month.

Park National Corporation experienced a decrease in the average balance of loans of \$36.3 million for the month of July, compared to the month of June. The average balance of consumer loans decreased by \$4.5 million, and the average balance of commercial loans decreased by \$31.8 million. Park is going to start retaining 15 year fixed rate residential mortgage loans on its balance sheet in the month of August. We expect to see an increase in consumer loans over the next couple of months. The pipeline for commercial loans continues to be a little weak. Our commercial lenders are actively calling on potential customers to see if we can improve the amount of future commercial loan originations.

Commercial loan demand continues to be soft in the Bank's market. The Bank currently has approximately \$50 million in cash that it would like to use for new loan originations as quickly as demand will allow in the Bank's market. Our strategic plan is to fully leverage the additional capital from TARP through originations of new commercial and consumer loans in the Bank's market.

General Market Commentary

During the month of July we provided 20 new consumer loans with total commitments of \$2,614,800, renewed 11 consumer loans with total commitments of \$3,457,834, and provided 50 mortgage loans with commitments of \$8,521,248 that were sold in the secondary market. We also granted 23 new commercial loans with total commitments of \$5,171,910 and renewed 52 commercial loans with commitments of \$35,843,291. Our total outstanding loans continue to decline due to payoffs and as a result of our efforts to reduce our concentrations in construction and non-owner occupied real estate and reductions in non-performing assets.
