The opening of the Kensington gold mine has happened, and in general, Alaska's economy is in better

condition than the national economy, with an overall unemployment rate of 7.7% (July 2010), and the Southeast Alaska economy, though a little stressed in tourism, has an unemployment rate of less than 7.0% (5.2% in the Juneau borough, where the bank does most of its business). A. - Loans in this classification include home equity, installment, and residential mortgage loans. Since receiving the CPP funds, \$5.6 billion of secondary market loans were closed.

B. - The makeup of commercial loans presented are approximately as follows: commercial, financial, and agricultural 42%, commercial real estate 48%, and real estate construction 10%. Real estate related loans are not attractive in this market and C&I loan demand is weak in this economic environment. Associated has made new commercial loans totaling \$9.0 billion since receiving the CPP funds. Associated Bank was named the No. 1 SBA lender in Wisconsin for the fifth consecutive year in fiscal 2009.

The bank has stopped making indirect auto loans due to very low rates offered by the major lenders in the Chicagoland area. Business and commercial loans are the main focus of the bank. We are searching for good quality loans but have found few good opportunities. It is our understanding that most other banks in Chicago are facing a similar problem in sourcing good loans.

Slowing of residential sales being experienced now in the Colorado Springs/ Pueblo area as well as the Northern Mountain Front Range. Denver metro area continues to see good sales and prices on housing holding steady. Commercial Real Estate is slow to move through out the Colorado regions. The plains communities and the area farmers and ranchers are looking at one of the best crop and cattle prices in recent history. Crop conditions for 2011 are dry throughout the Eastern Plains and Western Kansas. Sales tax receipts in Eastern Colorado above 2009 however it appears people are holding off purchasing large ticket items. Businesses are not hiring or expanding until some economic light at the end of this recession is realized.

Total loans had a net increase of \$974k from September to October. This is the second consecutive month of growth in consumer and commercial loan portfolios. Both consumer loans and commercial loans increased. Consumer loans increased 426k and commercial loans increased \$548k. We continue with the tightened underwriting requirements, however loan demand seems to be improving which is reflected in the increased totals. Total new & renewed loan volume for October was \$2,574k.

Average consumer loans decreased \$24.6 million during October 2010 (as compared to September 2010). The decrease was primarily attributable to decreases in average 1-4 family residential mortgage loans, average consumer and other loans and average home equity loans of \$19.0 million, \$1.2 million and \$4.7 million, respectively, due primarily to loan payments, charge-offs and foreclosures on nonperforming credit relationships and the sale of approximately \$18.6 million of consumer loans in our Northern Illinois Region on

September 10, 2010 to another financial institution. First Bank originated and closed \$49.7 million of 1-4 family residential mortgage loans and sold \$42.6 million of 1-4 family residential mortgage loans into the secondary market during the month of October 2010. During the ten months ended October 31, 2010, First Bank originated and closed \$295.5 million of 1-4 family residential mortgage loans and sold \$273.4 million of 1-4 family residential mortgage loans into the secondary market. The average balance of commercial loans decreased \$173.0 million during October 2010 (as compared to September 2010). The primary reasons for the decrease in the overall average balance of commercial loans were declines in the average balance of First Bank's C&I, CRE and Real Estate Construction and Land Development loan portfolios of \$53.3 million, \$83.6 million and \$33.2 million, respectively, primarily resulting from loan payments, charge-offs and foreclosures on nonperforming credit relationships and the sale of C&I and CRE loans of approximately \$15.3 million and \$83.1 million, respectively, in our Northern Illinois Region on September 10, 2010 to another financial institution.

We continue to generate new loans, which totaled \$7.6 million for the month of October as well as \$30.7 million in renewals for the month of October.

New loan requests continue to be slow and the market is soft. Total loan production for October 2010 was comparable to the same period last year. A gap in production is attributable to consumer and single family residential loans. Moreover, commercial loan production continues to be anemic, which is comparable to the same period 2009. Although the Bank actively seeks new loan opportunities, current and prospective customers remain cautious and scarce.

1-4 family residential mortgages which includes held for sale, mortgage warehouse, home equity lines of credit, and other consumer loans (auto, gross overdrafts, personal)

Average Consumer Outstanding Balance Comment

Consumer loan volume was consistent with the previous month. Demand for home equity loans has picked up due, in part, from our home equity loan campaign that offers an attractive rate and extended terms. We have seen a noticeable increase in loan volume

Commercial and industrial loan demand is still very soft, however, our new Kalamazoo, Michigan LPO is generating good loan volume. Commercial Real Estate loan demand is still weak.

General Market Commentary

There has been no change to the general market conditions since our last report. Unemployment rates are above the national average. Small businesses still seem reluctant to expand and retail sales levels (at least on the local level) are flat. The purchase housing market continues to be weak with declining appraised values contributing to the slow down. However, refinance activity is strong with mortgage interest rates at all time

lows.

The demand for CRE loans in support of new projects remains very light. There is a ready market (demand) to refinance CRE projects, however, these projects do not have desirable credit characteristics. Demand for working capital financing continues to decline. NewBridge Bank (the "Bank") extends credit to facilitate economic activity in support of communities, businesses and consumers in our footprint. In October 2010 the Bank originated \$36.6 million of loans, and has now originated \$294.1 million year to date.

As of October 31, 2010, the Bank held outstanding loans of \$1.36 billion, which is a decrease of \$103.3 million, or 7.1%, from December 31, 2009. The decrease in outstanding loans from December 2009 is primarily the result of loan payoffs and pay downs of existing loans in the normal course of business.

The Bank continues to make credit available to consumers and businesses in its market areas. During the

month of October 2010, the Bank originated \$8.5 million in commercial and small business purpose loans, \$0.8 million in home equity lines of credit, and \$0.7 million in consumer installment credit.

During the month of October 2010, the Bank originated \$26.6 million in residential loans to be sold in the secondary market or retained. All residential builders who are customers of the Bank have been contacted and provided information regarding specialized financing (rate of 4% fixed for 5 years; up to 95% financing; ¼% fee, no private mortgage insurance required) for consumers who are purchasing new construction homes which the builder has financed with the Bank. Thirty-three loans totaling \$7.5 million have been closed under this program.

The Bank has been able to achieve these results although its state and local economies continue to exhibit substantial stress. As of September 30, 2010, unemployment rates in several of the Bank's significant operating markets exceed the national unemployment rate of 9.6%. This includes Davidson County with 10.8%, Guilford County with 9.8% and Rockingham County with 10.8%.

As a bankers' bank, we are focused on providing services to the community banking industry, which in turn provides loans to millions of consumers and small businesses throughout the country. PCBB provides our customer banks with products and services that allow these banks to offer competitive products and services to their end customers that they would otherwise not be able to offer. PCBB provides community banks the ability to make larger loans through its loan participation program, enhance liquidity management through our overnight cash investment and increase borrowing by providing facilities for community banks. PCBB also

provides other products and services to support community banking activities. As a result of our focus on the community banking industry, the TARP capital investment in PCBB has a multiplicative impact in that it facilitates lending activities through hundreds of community banks, indirectly or directly to the community bank's customers, as well. In addition, PCBB extended credit in the form of overnight lending facilities to Community Banks totaling \$165 million during the month.

Commercial loan demand continues to be soft in the Bank's market. The Bank currently has approximately \$30 million in cash that it would like to use for new loan originations as quickly as demand will allow in the Bank's market. Our strategic plan is to fully leverage the additional capital from TARP through originations of new commercial and consumer loans in the Bank's market.

General Market Commentary

Unemployment continues to be at historically high levels in all markets. Residential real estate values have declined and are now below levels generally indicated by natural long-term growth rates (1994-2009). Residential sales activity continues to be driven by sales of foreclosed properties within all markets. New commercial loan requests have been minimal. Commercial real estate continues to be under stress in all markets. There is concern that CRE fundamentals - occupancy, rental rates, cap rates - may continue to be stressed through 2011.

During the month of October 2010 we provided 19 new consumer loans totaling \$3,170,584 in commitments and we renewed 17 consumer loans totaling \$1,460,000 in commitments. In addition, we funded 113 mortgage loans totaling \$22,151,920 that will be sold in the secondary market. We also provided 28 new commercial loans totaling \$18,096,531 in commitments and renewed 63 commercial loans totaling \$66,203,365 in commitments during October. We do expect to see loan growth decline during the month of November due to the expected payoff of two hotel loans totaling \$40,000,000 in outstanding balances. These loans were paid off due to the sale of the hotels by the borrower.

Syringa bank has managed sustained balances in consumer loan totals, which requires generating a fair amount of business just to offset principal pay-down, maturity, and refinance activity. Much of the commercial loan decrease has come in the construction and development portfolio, which has experienced very little demand to replace maturing and non-performing loan reductions.

General Market Commentary

Overall, both of our primary markets continue to remain soft. Unemployment levels in California remain high. There has been some increase in home sales, but it has leveled off in the last couple of months. We anticipate some improvement in the California marketplace as we move into the winter months and seasonal residents arrive. There is increased demand for mortgages as interest rates continue at very low levels. The economy in Utah is better than California. Utah has had some modest job growth.
