Treasury is pleased to present the Monthly 105(a) Report for December 2010 for the Troubled Asset Relief Program, or TARP.

TARP Enactment and End of Authority

The TARP was established pursuant to the Emergency Economic Stabilization Act of 2008 or EESA. This law was adopted on October 3, 2008 in response to the worst financial crisis since the Great Depression. Treasury has used the TARP authority to make investments that have helped to stabilize the financial system, restore confidence in the strength of our financial institutions, restart markets that are critical to financing American households and businesses, help prevent avoidable foreclosures and protect homeownership.

The second anniversary of the TARP in October 2010 marked the end of the authority to make new financial commitments.

The TARP was, and is, an enormous commitment of taxpayer money. And it has been unpopular for good reason—no one likes using tax dollars to rescue financial institutions. However, by objective standards, TARP worked. It helped stop the widespread financial panic we faced in the fall of 2008 and helped prevent what could have been a devastating collapse of our financial system. Moreover, it did so at a cost that is far less than what most people expected at the time the law was passed. Of course, TARP was not the answer to all of America's challenges, and we have many still ahead. The U.S. economy is healing but at a slower pace than we need. Millions of Americans are still out of work and at risk of losing their homes. We still have much work to do to repair the damage from this crisis.

Going forward, our focus is to manage the TARP investments prudently while working to recover as much of the taxpayers' funds as possible. We will also continue our efforts to help distressed homeowners. And we will take these steps while maintaining comprehensive accountability and transparency standards. Treasury aims to dispose of its investments as quickly as practicable, in a timely and orderly manner consistent with the duty to protect financial stability and protect taxpayers' interests.

The ultimate cost of TARP will depend on how financial markets and the economy perform in the future.¹ If financial and economic conditions deteriorate, prospects for outstanding TARP investments will also deteriorate. Our most recent analysis of the potential lifetime cost of TARP suggests that the total cost of TARP could be \$45.9 billion, assuming the American International Group, Inc (AIG) restructuring is completed and when measured at the October 1, 2010 market price. In addition, using the same assumptions, we estimate that the combined cost of TARP programs and other Treasury interests in AIG will be about \$30 billion. This is a notable decline from earlier estimates.²

Treasury provided a detailed explanation of the projected costs for TARP, as of September 30, 2010, in the Financial Report for Fiscal Year 2010 for the Troubled Asset Relief Program, which was released in November. This report provides information on financial results relating to the TARP as required by the Emergency Economic Stabilization Act and other laws. For the second consecutive year, the Office of Financial Stability has earned unqualified or "clean" opinions on its financial statements and its internal control over financial reporting from the Government Accountability Office, with no material weaknesses.

¹ The Congressional Budget Office, in its November 2010 report on the TARP (www.cbo.gov/ftpdocs/119xx/doc11980/11-29-TARP.pdf), recently estimated the cost of TARP to the federal government will amount to \$25 billion.

² Numbers in text and tables in this report may not add up because of rounding.

Program Updates

Completion of Citigroup Common Stock Sales

- In December, Treasury completed the sale of all remaining shares of common stock in Citigroup, Inc. (Citigroup). Approximately 7.7 billion shares were acquired under TARP in exchange for the \$25 billion in preferred stock investment made under the Capital Purchase Program at a price of \$3.25 per share.
- The final sale of approximately 2.4 billion shares was made pursuant to an underwritten offering. Proceeds were \$10.5 billion, at a price per share of \$4.35. Treasury had previously sold 5.3 billion shares at an average price of \$4.04 under four trading plans.
- The average selling price for all 7.7 billion shares was \$4.14 per share compared to a cost of \$3.25 per share.

Capital Purchase Program

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Treasury estimates the program will result in a positive return for taxpayers.⁴

c/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized interest. Subject to the fulfillment by First BanCorp of certain conditions, including those related to its capital plan, the MCP may be converted to common stock.

d/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP). Sterling fulfilled the conversion conditions, including those related to its capital plan, and Treasury’s MCP was converted into 378,750,000 shares of common stock.

e/ See page 9 on the proposed merger of Whitney Holding Corporation.

f/ Treasury exchanged its preferred stock for mandatorily convertible preferred stock (MCP) with capitalized dividends. Pacific Capital fulfilled the conversion conditions and Treasury’s MCP was converted into 360,833,250 shares of common stock.

Exchanges and Sales

In limited cases, in order to protect the taxpayers’ interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or sell the preferred stock. Treasury evaluates whether to participate on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

- On December 3, Treasury completed the sale to The Bank of Currituck (“Currituck”) for an aggregate repurchase price of \$1,742,850 of all preferred stock which Currituck had issued to Treasury in February 2009 for an aggregate purchase price of \$4,021,000. Completion of the

sale was subject to the fulfillment of certain closing conditions, including the closing of the sale to TowneBank, a Virginia chartered bank, of all of Currituck's branches and certain other assets.

Other

In December, public filings were made with respect to two Capital Purchase Program banks:

- Hancock Holding Company, parent company of Hancock Bank, and Whitney Holding Corporation announced that they have entered into a definitive agreement for Whitney to merge into Hancock in a stock-for-stock transaction. Subject to the receipt of requisite approvals, Hancock expects to purchase from Treasury all of Whitney's TARP preferred stock and warrants.
- BMO Financial Group, parent company of The Bank of Montreal (BMO), and Marshall & Ilsley Corporation (M&I) announced that they have entered into a definitive agreement for M&I to merge into BMO in a stock-for-stock transaction. Subject to the receipt of requisite approvals, BMO expects to purchase from Treasury all of M&I's TARP preferred stock and warrants.

Automotive Industry Financing Program (AIFP)***Ally Financial (GMAC)***

On December 30, Treasury converted \$5.50 billion of preferred stock in Ally Financial into common stock – a move designed to accelerate Treasury's ability to exit its investment in the company.

- The conversion did not involve any new investment. Instead, Treasury converted a portion of the \$11.44 billion in mandatorily convertible preferred stock already received, which is designed to be converted into common stock in certain circumstances, including at the election of Treasury. The conversion increased Treasury's common equity stake in Ally Financial from 56 percent to 74 percent of total common shares outstanding. Treasury converted its preferred stock at 1.0 times the book value of tangible common equity balance as of September 30, 2010, subject to certain adjustments.
- After the conversion, Treasury holds \$5.94 billion of mandatory convertible preferred stock in Ally Financial, as well as \$2.67 billion of trust preferred securities. Ally Financial also agreed to assist Treasury in the sale or sales of its holdings of TruPs on terms acceptable to Treasury and Ally Financial as soon as practical subject to certain conditions.

Treasury Investment	Before 12/30/2010	After 12/30/2010
8% Trust Preferred Securities	\$2.67	\$2.67
9% Mandatory Convertible Preferred Stock	\$11.44	\$5.94
Common Equity Ownership	56%	74%
Cumulative GMAC Income	\$1.94	\$2.00

General Motors

- In December, General Motors (GM) completed the repurchase of all GM preferred stock held by Treasury for total proceeds of \$2.14 billion. GM purchased Treasury’s 83,898,305 Series A shares at a price per share of \$25.50, equal to 102 percent of the liquidation preference.
- Taxpayers have now received a total of \$23.33 billion from GM through repayments, interest, and dividends since the company emerged from bankruptcy in July 2009. Treasury’s remaining investment in GM consists of 500,065,254 shares of common stock.

American International Group (AIG)

In December, AIG entered into a Master Transaction Agreement with Treasury, the Federal Reserve Bank of New York (FRBNY), certain special purpose vehicles (SPVs) controlled by AIG⁵, and the trustees of the AIG Credit Facility Trust (the Trust) regarding a series of integrated transactions (the Recapitalization), for the purpose of accelerating the repayment of U.S taxpayer funds and facilitating AIG’s transition from a majority government owned and supported entity to a financially sound and independent entity.⁶

Completion of the Recapitalization is expected to take place in early 2011, subject to a number of conditions, including obtaining regulatory approvals, the availability of sufficient third-party liquidity for AIG and satisfactory rating profiles from rating agencies (the Closing). At that time, the Federal Reserve loan will be paid off with no expected losses and Treasury’s existing preferred stock investment will be converted to common shares. Treasury can then sell those shares publicly in order to recover taxpayer funds over time. Acting Assistant Secretary for Financial Stability Timothy Massad said:

“[The Recapitalization] is a milestone in the government’s long-stated efforts to exit our investments in private companies as soon as practical while protecting taxpayers. When all is said and done, we believe taxpayers will recover every dollar invested in AIG and stand a good chance of making a profit.”

⁵ In December 2009, the FRBNY received preferred equity interests in two SPVs formed to hold the outstanding stock of AIG’s largest foreign insurance subsidiaries, AIA and ALICO, in exchange for a \$25 billion reduction in the balance outstanding and maximum credit available under AIG’s credit facility with the FRBNY.

⁶ The Master Transaction Agreement supersedes and implements the agreement-in-principle signed among the parties in September 2010.

Key elements of the Recapitalization include:

- **Repayment and termination of the FRBNY credit facility**

At the Closing, AIG will repay the FRBNY in cash all amounts owing under the credit facility between AIG and the FRBNY. The total repayment amount under the FRBNY Credit Facility is estimated to be \$21 billion at Closing. The funds for repayment are to come from the net cash proceeds from the sale in the initial public offering of 67 percent of AIA Group Limited (AIA) ordinary shares in October and the sale of American Life Insurance Company (ALICO) in November. The FRBNY holds preferred interests in two AIG-related special purpose vehicles (SPVs). The remaining net cash proceeds of approximately \$6 billion will be distributed by the SPVs to the FRBNY, in accordance with the terms of the SPVs' limited liability company agreements.

- **Repurchase and exchange of the SPV preferred interests**

AIG currently has the right to draw down approximately \$22.3 billion pursuant to the agreement from April 2009 between AIG and Treasury relating to the Series F preferred stock (the Series F Treasury Department Commitment).⁷ AIG will designate up to \$2 billion of the Series F Treasury Department Commitment to be available for general corporate purposes under a new Series G preferred stock. At the Closing, AIG will:

- Draw down the full amount of the Series F Treasury Department Commitment, less the approximately \$2 billion to remain available for the new Series G preferred stock.
- Use the drawn amounts to repurchase the FRBNY's SPV preferred interests and then transfer the SPV preferred interests to Treasury in exchange for the Series F preferred stock that Treasury received pursuant to the draw.

Over time, AIG will repay the SPV preferred interests from monetization of the non-cash assets of the SPVs such as sales of AIG Star Life Insurance and AIG Edison Life Insurance, the remaining equity stake in AIA, the MetLife equity securities received from the ALICO sale, and certain other designated assets. The aggregate value of the assets underlying the preferred interests in the SPVs significantly exceeds the liquidation preference of the preferred interests. Treasury does not currently anticipate incurring any loss from its purchase of the SPV preferred interests.

- **Issuance of Series G preferred stock**

AIG and Treasury will amend and restate the Series F agreement to provide for the issuance of \$2 billion of Series G preferred stock by AIG to Treasury at the Closing. The right of AIG to draw on the Series F Treasury Department Commitment will be terminated, and Treasury will exchange all of the outstanding shares of Series F preferred stock as described below.

⁷ As of December 31, 2010, AIG had drawn down approximately \$7.5 billion from the Series F equity capital facility.

- **Exchange of Series C, E and F preferred stock for AIG common stock**

After the Closing, Treasury will hold 1,655,037,962 shares of newly issued AIG common stock, representing ownership of approximately 92.1 percent of the AIG common stock then outstanding.

- The Trust will exchange its Series C preferred stock for 562,868,096 shares of AIG common stock. The Trust will then distribute these common shares to be held by the Treasury Department. After the Recapitalization is completed, the Trust will terminate.
- Treasury will exchange its Series E preferred stock for 924,546,133 shares of AIG common stock.
- Treasury will exchange its Series F preferred stock for (i) the transferred SPV preferred interests, (ii) newly issued shares of the Series G preferred stock, and (iii) 167,623,733 shares of AIG common stock.

- **Registration Rights (to facilitate the sale of Treasury's shares)**

AIG will enter into a Registration Rights Agreement that grants Treasury certain rights to facilitate its sale of common shares including participation in any public registered offering of common stock by AIG and causing AIG to facilitate underwritten and at-the-market offerings of Treasury's common shares.

- **Treasury's outstanding warrants**

The warrants currently held by the Treasury Department will remain outstanding but no adjustment will be made to the terms of the warrants as a result of the Recapitalization.⁸

Housing Programs

HUD Housing Scorecard and Servicer Performance Report

In December, the U.S. Department of Housing and Urban Development (HUD) and Treasury released the Housing Scorecard (www.HUD.gov/scorecard) on the nation's housing market. Each month, the scorecard incorporates key housing market indicators and highlights the impact of housing recovery efforts, including assistance to homeowners through the Federal Housing Administration (FHA) and the TARP Home Affordable Modification Program (HAMP). The scorecard also incorporates the Making Home Affordable (MHA) Servicer Performance Report Through November 2010, which is available at <http://www.FinancialStability.gov/docs/Nov%202010%20MHA%20Report.pdf>.

⁸ AIG will issue to its shareholders, by means of a dividend, 10-year warrants to purchase up to 75 million shares of AIG Common Stock in the aggregate at an exercise price of \$45.00 per share. None of the Trust, the Treasury Department or the FRBNY will receive such warrants.

Key data on the health of the housing market presented in the scorecard includes:

- As expected with the expiration of the Homebuyer Tax Credit, new and existing home sales have remained below levels seen in the first half of 2010. At the same time, home prices remained level in the past year after 33 straight months of decline and homeowners added \$95 billion in home equity in the second quarter.
- More than 3.9 million loss mitigation actions were started between April 2009 and the end of October 2010 – more than double the number of foreclosure completions (1.7 million) during that time. These actions included over 1.4 million HAMP trial modification starts, more than 600,000 FHA loss mitigation and early delinquency interventions, and nearly 1.8 million proprietary modifications under HOPE Now.
- Data in the scorecard also show that the recovery in the housing market continues to remain fragile. While the recovery will take place over time, the Administration remains committed to its efforts to prevent avoidable foreclosures and stabilize the housing market.

Highlights from the Servicer Performance Report Through November 2010 include:

Nearly 550,000 Homeowners Granted Permanent Modifications

- Nearly 30,000 new permanent modifications reported in November.
- More than 650,000 homeowners are currently receiving payment relief through active HAMP trial modifications and permanent modifications.
- For homeowners in permanent modifications, their median first-lien housing expense fell from 45% of their monthly income to 31%.
- As servicers continue to work through the backlog of trials lasting six months or more, the number of these aged trials has fallen below 50,000.

Quarterly Results of Compliance Second-Look Reviews

- Making Home Affordable-Compliance (MHA-C), a separate division of Freddie Mac created to serve as Treasury's Compliance Agent for HAMP, conducts Second Look reviews based on a statistical sample of homeowner loan files that are not in HAMP modifications to assess servicer processes for the evaluation of eligible homeowners.
- MHA-C disagreed with servicer decisions an average of 2.4% of the time in the 2nd quarter of 2010, lowering the year-to-date average to 2.9%.

- During this quarter, MHA-C was unable to determine whether the loan was properly evaluated for HAMP on average 15% of the time for the servicers included in the MHA Monthly report, which is above the year-to-date average of 10%. As a result, MHA-C will be conducting targeted follow-up activities to understand the cause(s) of this increase so that Treasury may determine appropriate remedial actions.
- MHA-C performs follow-up activities on loans where MHA-C disagrees with servicer decisions or is unable to determine the appropriateness of the disposition of the loan. To date, upon receipt of additional documentation, MHA-C has come to agree with 41% of those decisions with which it had previously disagreed.

HAMP Foreclosure Fact Sheet

In the release of the December Housing Scorecard, Acting Assistant Secretary for Financial Stability Timothy Massad said "the recent reports of problems in the foreclosure process underscore the importance of helping responsible homeowners avoid the pain of foreclosure. As we implement additional program enhancements to reach more homeowners, we continue to stress to mortgage servicers the importance of making every effort to enroll eligible homeowners in HAMP and provide meaningful alternatives to avoidable foreclosures."

HAMP includes a number of safeguards to help homeowners avoid foreclosure. Servicers may not proceed to foreclosure sale unless and until they have tried these alternatives first. Servicers must issue a written certification to their foreclosure attorney or trustee stating that "all available loss mitigation alternatives have been exhausted and a non-foreclosure option could not be reached."

MHA Supplemental Directive 10-01 became effective on June 1, 2010 and requires participating servicers of non-GSE loans to:

- Proactively reach out to all recently delinquent homeowners and evaluate them for HAMP modifications before referring them to foreclosure;
 - The focus of this outreach effort is on early intervention. Servicers must attempt to contact all potentially eligible borrowers when they are only two months delinquent and there is still a viable opportunity to save the loan.
- Suspend foreclosure sales against homeowners who have applied for HAMP modifications, while their applications are pending;
- Stop all pending foreclosure actions when a borrower makes the first payment on a fully verified trial plan (applies to all HAMP trial modifications after June 1, 2010);
- Evaluate whether homeowners who do not qualify for HAMP (or who have fallen out of HAMP) qualify for alternative loss mitigation programs (which may include a short sale or deed-in-lieu of foreclosure) or private modification programs; and
- Provide a written explanation using plain language denial explanations to any borrower who is not eligible for modification and delay foreclosure for at least 30 days to give the homeowner time to appeal.

Servicers may not proceed to foreclosure sale unless and until they have tried to implement these safeguards. Additionally, participating servicers may not conduct a foreclosure sale until they have issued a written certification to their foreclosure attorney or trustee stating that “all available loss mitigation alternatives have been exhausted and a non-foreclosure option could not be reached.” On October 6, 2010, Treasury reminded participating servicers in writing of this pre-foreclosure certification requirement.

Treasury also recently instructed MHA-C to increase compliance reviews of the internal policies and procedures developed by the ten largest servicers for completing the written pre-foreclosure certifications. Though the results of these reviews are not yet available, if incidents of non-compliance with the certification requirement are found, Treasury will insist that servicers take appropriate corrective action, which may include suspending or reversing foreclosure proceedings and re-evaluating the affected homeowners for HAMP.

On November 3, 2010 Treasury issued guidance to servicers designed to enhance servicer responsiveness to borrowers who have inquiries or disputes related to MHA. Among the new requirements, servicers must:

- Establish in-house MHA case escalation teams staffed with individuals who are independent of the original underwriting decision-makers;
- Provide to borrowers a response within 30 calendar days;
- Fully cooperate with representatives of Treasury’s borrower support centers so that disagreements can be resolved; and
- Suspend scheduled foreclosure sales until an escalated case is resolved.

If homeowners believe that they have been inappropriately denied a HAMP modification or wrongly placed in foreclosure while participating in an MHA program, Treasury, through the HOPE Hotline and MHA Help call centers, provides free foreclosure prevention resources. Homeowners are encouraged to call the 24-hour HOPE Hotline at 1-888-995-HOPE (4673) and ask to escalate their case with a specialist at MHA Help. The MHA Help call center has trained housing counselors dedicated to working exclusively with homeowners and servicers to resolve escalated cases. Additionally, our MakingHomeAffordable.gov website contains overviews of our modification programs, FAQs, links to counseling organizations, contact information for HAMP servicers, and other resources in both English and Spanish for homeowners who may be in need of assistance.

Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

Treasury's Office of Financial Stability (OFS) is inserting a table into this report that it intends to update periodically. The table will reflect the OFS estimate of the lifetime cost of the TARP investment programs. This table utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by the Emergency Economic Stabilization Act of 2008 (EESA) for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The OFS methodology adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

*Chart amended as of January 24, 2011 to reflect actual disbursements for AIG post-Recapitalization.

¹ All information is as of November 30, 2010 except for Citigroup (see note 2) and AIG (see note 4). Estimated lifetime costs are preliminary and subject to change.

² Outstanding balance gives effect to the sale of the remaining shares of Citigroup common stock on December 10, 2010.

³ Estimated lifetime costs for AGP includes the Treasury-OFS portion of \$276 million for the termination fee Bank of America paid government parties for the value they received from the announcement of the negotiations with government parties to guarantee and share losses on a pool of assets.

⁴ All AIG information gives effect to the closing of the restructuring transaction entered into on December 8, 2010 and the AIG Recapitalization on January 14, 2010, at which time: (i) the outstanding preferred stock investment was exchanged for 1.1 billion shares of AIG common stock (which is valued for purposes of this table at \$35.84 per share, which is the November 30, 2010 market price less an adjustment for the estimated value of additional AIG warrants to be distributed to shareholders other than Treasury), and (ii) \$20.29 billion previously an undrawn commitment was disbursed. Treasury estimates that it will not incur any loss on this disbursement because the aggregate value of the assets underlying the preferred interests in the Special Purpose Vehicles that Treasury received for the disbursement exceeds the liquidation preference of the preferred interests. In addition, market prices will change which will result in changes to the cost estimate over time. If the restructuring was not completed, estimated lifetime costs of AIG would have been \$36.1 billion at November 30, 2010.

⁵ All AIFP information is for all investments (including those in General Motors (GM), Chrysler and Ally), except that market value of outstanding common refers only to outstanding common stock investment in GM as of November 30, 2010. All information for GM gives effect to sale of \$13.5 billion of shares in initial public offering at \$33.00 per share, including exercise of overallotment option, in November 2010, and to receipt of \$2.1 billion from the repurchase by GM of preferred shares on December 15, 2010.

⁶ Represents additional 563 million shares of AIG common stock received from the trust created by the Federal Reserve Bank of New York for the benefit of Treasury pursuant to the restructuring. Although the shares were not acquired with TARP funds, the shares and any proceeds from their sales go to the U.S. Treasury and therefore are reflected in the table for informational purposes.

⁷ Includes the U.S. Treasury's beneficial interest in the AIG trust described in note 5.

⁸ Estimates include interest on reestimates, which result from changes from previous TARP cost estimates. Interest on reestimates is one component of the cost to Government of financing TARP programs, and is not a direct programmatic cost.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
10. In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
11. Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.
12. Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
13. The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1.5 billion on 4/9/2009.
14. This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
15. The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.
16. This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
17. This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
18. This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler.
19. Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
20. Under loan agreement, as amended on 7/23/2009, Treasury was entitled to proceeds Chrysler Holdco received from Chrysler FinCo equal to the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo. Pursuant to a termination agreement dated 5/14/2010, Treasury agreed to accept a settlement payment of \$1.9 billion as satisfaction in full of all existing debt obligations (including additional notes and accrued and unpaid interest) of Chrysler Holdco, and upon receipt of such payment to terminate all such obligations.
21. Amount of the Treasury investment exchange includes the exercised warrants from Treasury's initial investments.
22. Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.
23. On April 30, 2010, the Plan of Liquidation for the debtors of Old Chrysler approved by the respective bankruptcy court became effective (the "Liquidation Plan"). Under the Liquidation Plan, the loan Treasury had provided to Old Chrysler was extinguished without repayment, and all assets of Old Chrysler were transferred to a liquidation trust. Treasury retained the right to recover the proceeds from the liquidation from time to time of the specified collateral security attached to such loan.
24. On October 27, 2010, Treasury accepted an offer by General Motors Company (GM) to repurchase all of the approximately \$2.1 billion preferred stock at a price per share of \$25.50, which is equal to 102% of the liquidation preference, subject to the closing of the proposed initial public offering of GM's common stock. The repurchase was completed on 12/15/2010.
25. On 11/17/2010, Treasury agreed to sell 358,546,795 shares of common stock at \$32.7525 per share (which represents the \$33 public sale price less underwriting discounts and fees) pursuant to an underwriting agreement. Following settlement, the net proceeds to Treasury were \$11,743,303,903. On 11/26/2010, the underwriters exercised their option to purchase an additional 53,782,019 shares of common stock from Treasury at the same purchase price resulting in additional proceeds of \$1,761,495,577. Treasury's aggregate net proceeds from the sale of common stock pursuant to the underwriting agreement total \$13,504,799,480.
26. On 12/30/2010, Treasury converted \$5,500,000,000 of the total convertible preferred stock then outstanding and held by Treasury (including exercised warrants) into 531,850 shares of common stock of Ally. Following this conversion, Treasury holds \$5,937,500 of convertible preferred stock.

1/ On 4/17/2009, Treasury exchanged its Series D Fixed Rate Cumulative Preferred Shares for Series E Fixed Rate Non-Cumulative Preferred Shares with no change to Treasury's initial investment amount. In addition, in order for AIG to fully redeem the Series E Preferred Shares, it has an additional obligation to Treasury of \$1,604,576,000 to reflect the cumulative unpaid dividends for the Series D Preferred Shares due to Treasury through and including the exchange date.
 2/ The investment price reflects Treasury's commitment to invest up to \$30 billion less a reduction of \$165 million representing retention payments AIG Financial Products made to its employees in March 2009.
 3/ This transaction does not include AIG's commitment fee of an additional \$165 million scheduled to be paid from its operating income in three equal installments over the five-year life of the facility.

1/ The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

2/ Investment Amount is stated after giving effect to factor and, if applicable, the purchase of accrued principal and interest.

3/ If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

4/ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

5/ Disposition Amount is stated after giving effect, if applicable, to sale of accrued principal and interest.

1/ On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.
