The Troubled Asset Relief Program (TARP) was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). More than three and a half years after the establishment of the TARP, we are making substantial progress in winding down the extraordinary assistance that had to be provided during the crisis. Treasury has moved quickly to reduce the dependence of the financial system on emergency assistance and replace public support with private capital. To date, taxpayers have recovered over \$264 billion from TARP's bank programs through repayments, dividends, interest, and other income – approximately \$19 billion more than the \$245 billion invested in banks.

By any objective standards, the Troubled Asset Relief Program has worked: it helped stop widespread financial panic, it helped prevent what could have been a devastating collapse of our financial system, and it did so at a cost that is far less than what most people expected at the time the law was passed.

Where are the TARP Funds?¹

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

Figure 1: Daily TARP Update (DTU)

The first chart shows for each TARP program the amount of funds obligated, the amount disbursed, repayments, income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. The Daily Tarp Update (DTU) is updated after every business day and is available at: <http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/tarp-daily-summary-report/Pages/default.aspx>.

This month, the Office of Financial Stability (OFS) updated the format of the DTU. The updated format is designed to make it easier to understand some of the transactions that have occurred in the TARP program. The major changes are highlighted in the following document, using the DTU for July 2, 2012, located in the appendix and at: http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/tarp-daily-summary-report/TARP%20Cash%20Summary/DTU_Update_Crosswalk_07.02.2012.pdf.

Figure 2: Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG separate and apart from the TARP investment.

¹Numbers in text and tables in this report may not add because of rounding.

This chart utilizes the methodology that TARP has consistently used to estimate lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future. It also includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

Notes to Daily TARP Update

- 1/ This row represents the portion of CPP repayments that were received from refinancing to the Small Business Lending Fund (SBLF), which is not a TARP program. The law creating the SBLF provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments. This amount is included in total repayments and therefore, this column is not used to calculate the "Outstanding" amount.
- 2/ This column represents non-cash exchanges out of CPP into CDCI. A total of 28 CPP banks, representing \$355.7 million, converted from CPP to CDCI. The total amount exchanged into CDCI, with converted warrants, was \$363.3 million.
- 3/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4/ Amount of "Warrants Sold" reflects net cash receipts.
- 5/ "Other Income (Expenses)" includes gains on sales, investment income, fees collected, and disposition expenses. "Other Income (Expenses)" does not include the Citigroup AGP receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 6/ This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which are detailed in Figure 2.
- 7/ Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- 8/ Allocation of Public-Private Investment Program (PPIP) Equity receipts between repayments and income are subject to reclassification.
- 9/ Treasury's investment in AIG common shares consists of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG (non-TARP shares). Treasury manages the TARP shares and non-TARP shares together, and disposes of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the "Write-offs & Realized Losses" column shows a loss based on Treasury's cost basis of \$43.53 in the TARP shares alone. The non-TARP shares are shown at the bottom of the page after the TARP Total under "Additional AIG Common Shares Held by Treasury." A gain in the "Other Income (Expenses)" column is shown for the non-TARP shares because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per share. Treasury currently holds a total of 1.06 billion AIG common shares, consisting of 699,247,745 TARP shares and 360,369,076 non-TARP shares.
- 10/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (\$43.52 per common share) for such shares. Treasury currently holds 500,065,254 in remaining shares of GM common stock.
- 11/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Notes to Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget:

- 1/ Lifetime cost information is as of February 29, 2012.
- 2/ Estimated lifetime cost figures shown above are currently updated quarterly in conjunction with the Office of Management and Budget. The value of outstanding investments in publicly-traded securities is calculated by using the aggregate value of the investments at market prices as of June 30, 2012. The following common stock value information is provided for the convenience of the reader to show the increase or decrease in the aggregate value of the shares outstanding as of February 29, 2012, compared to the aggregate value of shares outstanding as of June 30, 2012. For AIG, the June 30, 2012 aggregate value includes the market value of the outstanding AIG shares on June 30 and the proceeds from the sale of the AIG common stock in March and May.

Outstanding Investment	02/29/2012 Market Value	06/30/2012 Market Value	Increase (Decrease) in Cost
	In billions		
AIG Common Stock	\$ 28.06	\$ 30.19	\$ (2.13)
GM Common Stock	\$ 13.01	\$ 9.86	\$ 3.15
Additional AIG Common Shares	\$ 14.46	\$ 15.56	\$ (1.10)

Note: For the period ending February 29, 2012, the share price for AIG was \$29.22 and for GM was \$26.02. For the period ending June 30, 2012, the share price for AIG was \$32.09 and for GM was \$19.72.

- 3/ The law creating the Small Business Lending Fund (SBLF) provided that banks could refinance securities issued under the CPP and CDCI programs with securities issued under the SBLF. A total of 137 CPP banks refinanced under the SBLF resulting in repayments of \$2.21 billion in CPP investments.
- 4/ Estimated lifetime costs for AGP includes \$276 million for the termination fee Bank of America paid Treasury-OFS for the value received from the announcement of the negotiations on the guarantee and share losses on a pool of assets.
- 5/ As discussed in note 9 to the Daily TARP Update, Treasury's investment in AIG common shares consists of shares acquired in exchange for preferred stock purchased with TARP funds (TARP shares) and shares received from the trust created by the FRBNY for the benefit of Treasury as a result of its loan to AIG. Treasury manages the TARP shares and non-TARP shares together, and disposes of them pro-rata in proportion to its holdings. Only the TARP shares are included under "Other Programs—AIG" and the lifetime cost estimate shows a loss based on Treasury's cost basis in the TARP shares alone. However, a gain is shown for the non-TARP shares in the line entitled "Additional AIG Common Shares Held by Treasury" because Treasury's cost basis in such shares is deemed to be zero. When the TARP shares and non-TARP shares are considered together, Treasury's cost on a cash basis is \$28.73 per shares and there is currently an estimated loss of \$1.19 billion overall, which reflects proceeds of sales to date (at an average price of \$29.47 per share), the closing price of AIG common shares on February 29, 2012 of \$29.22, and the financing costs associated with Treasury borrowings from the time of initial investment through the reporting period.

Program Updates

Bank Support Programs

In early October 2008, Treasury launched a series of programs to stabilize the nation’s banking institutions. A total of \$245 billion was invested in banking institutions, and as of March 31, 2011, Treasury had recovered more than 100% of that amount through repayments, dividends, interest, and other income. Treasury continues to recover additional funds and estimates that the bank programs will result in a lifetime positive return for taxpayers of more than \$20 billion (see Figure 2).

Capital Purchase Program (CPP)

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. Figure 3 shows the cumulative Capital Purchase Program activity since program inception. Every additional dollar recovered from CPP participants represents a positive return for taxpayers.

In June 2012, Treasury sent a letter to approximately 200 community banks whose CPP investments remain outstanding. The letter informed them that Treasury is considering including its investment in one of a series of pooled auctions to begin this fall. The pooled auctions will be another important part of winding down the CPP. For more information on how Treasury intends to wind down its remaining bank investments under the Capital Purchase Program see: <http://www.treasury.gov/connect/blog/Pages/Winding-Down-TARPs-Bank-Programs.aspx>.

Repayments

In June, seven institutions repurchased all or part of their outstanding CPP preferred shares or subordinated debentures from Treasury's investments in those institutions for total proceeds of \$223 million.

- Beach Business Bank; Mercantile Bank Corporation; Pinnacle Financial Partners, Inc.; and BBCN Bancorp, Inc. repaid all of the outstanding CPP investment in those institutions for a total of \$205.3 million.
- River Valley Bancorporation; Guaranty Federal Bancshares, Inc.; and Blackridge Financial, Inc. made partial repayments of each institution's outstanding CPP investment for a total of \$17.8 million, resulting in a total of \$19.3 million in outstanding CPP investments remaining among each institution.

Sales & Dispositions

- On June 14, Treasury sold its preferred stock in seven institutions through a modified Dutch auction (Taylor Capital Group, Inc.; Ameris Bancorp; First Defiance Financial Corp.; Farmers Capital Bank Corp.; LNB Bancorp Inc.; First Capital Bancorp, Inc.; and United Bancorp, Inc.) for a total of approximately \$245 million in proceeds. More information can be found in Treasury's press release here: <http://www.treasury.gov/press-center/press-releases/Pages/tq1613.aspx>
- On June 28, Treasury sold its preferred stock in seven institutions through a modified Dutch auction (Fidelity Southern Corporation; Firstbank Corporation; First Citizens Banc Corp; MetroCorp Bancshares, Inc.; Peoples Bancorp of North Carolina, Inc.; Pulaski Financial Corp.; and Southern First Bancshares, Inc.) for a total of approximately \$204 million in proceeds. More information can be found in Treasury's press release here: <http://www.treasury.gov/press-center/press-releases/Pages/tq1626.aspx>
- Treasury plans to announce additional auctions in the near future.

Warrant Repurchases/Dispositions

In June, Treasury disposed of its warrant positions in two institutions that were received in consideration for investments made under the CPP. Treasury disposed of its warrant position in Wilshire Bancorp for proceeds of \$0.76 million and its warrant preferred position in Beach Business Bank for proceeds of \$0.30 million. These proceeds provided an additional return to the American taxpayer from Treasury's investments in banks beyond any dividend or interest payments.

Dividends and Interest

In June, Treasury received dividends and interest income from CPP investments of approximately \$2.9 million. Cumulative dividends, interest and fee income received from Capital Purchase Program investments is approximately \$11.7 billion.

Capital Purchase Program Density Maps and Regional Snapshots

Following is a detailed breakdown of remaining institutions with outstanding investments under the Capital Purchase Program. The locations of remaining institutions' headquarters are mapped nationwide and regionally to provide a visual overview of outstanding investments. The maps and regional snapshots will provide monthly overviews of outstanding CPP investments as TARP continues to wind down its investments.

The regional maps are shown with a list of the Top 15 largest outstanding investments in that region, and a state by state snapshot is provided for further detail. The regional maps also indicate which of the top 15 institutions in each region have outstanding payments due to Treasury. A full list of remaining CPP investments, including more detail about those banks with outstanding payments including the number of payments they have missed, is contained in the appendix to this report. This information is also available in the Dividends and Interest Report published monthly at <http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/dividends-interest/Pages/default.aspx>.

Credit Market Programs**Term Asset-Backed Securities Loan Facility (TALF)**

The Term Asset-Backed Securities Loan Facility (TALF) is a joint Federal Reserve-Treasury program that was designed to restart the asset-backed securitization markets (ABS) that had ground to a virtual standstill during the early months of the financial crisis. Under the TALF, the Federal Reserve Bank of New York (FRBNY) provided non-recourse funding to any qualified borrower that owned eligible collateral. TALF supported the origination of nearly three million auto loans, more than one million student loans, nearly 900,000 loans to small businesses, 150,000 other business loans, and millions of credit card loans.

Treasury originally committed to provide credit protection of up to \$20 billion in its subordinated loan to TALF, LLC to support up to \$200 billion of lending from the FRBNY. Treasury's commitment was reduced to \$4.3 billion in June 2010 when the program closed to new lending.

In June 2012, the Federal Reserve Board and Treasury agreed that it was now appropriate to further reduce the credit protection Treasury provides the TALF, LLC to \$1.4 billion from \$4.3 billion. To date, the program has experienced no losses and Treasury and the Federal Reserve Board do not expect there to be any cost to the taxpayers from the program.

Investment in American International Group, Inc. (AIG)

In June, additional progress was made in repaying the investments made by the government to assist AIG during the financial crisis. On June 14, 2012, the remaining loan by the Federal Reserve Bank of New York (FRBNY) to Maiden Lane III (ML III) was fully repaid with interest. ML III was one of two special purpose entities created as part of the assistance provided to AIG during the financial crisis. FRBNY made loans to the entity, which were used to purchase assets from AIG, and those assets are gradually being sold. This marks the retirement of the last remaining debts owed to the FRBNY from its intervention in AIG.

During the financial crisis, overall support for AIG through Treasury and the FRBNY totaled approximately \$182 billion. With the June 14th repayment of the FRBNY's loan to ML III, the government's overall commitment to AIG has been reduced to only Treasury's remaining \$30 billion investment, which consists of approximately 1.06 billion shares of AIG common stock (approximately 699 million TARP shares and 360 million non-TARP shares)², representing approximately 61 percent of AIG's outstanding shares of common stock.

²As described in footnote 9 on page 3.

Housing Programs

Making Home Affordable Program Performance Report

On July 6, 2012, the U.S. Department of the Treasury released the **Making Home Affordable (MHA) Program Performance Report through May 2012**: <http://www.treasury.gov/initiatives/financial-stability/results/MHA-Reports/Pages/default.aspx>. Highlights from this month include:

- More than 1,000,000 homeowners have been granted permanent modifications since the start of the program. Approximately 18,000 new permanent modifications and 18,000 trial modification starts have been reported since the April report.
- In total, nearly 1.2 million homeowner assistance actions have been granted through MHA, consisting of first and second lien permanent modifications, Home Affordable Foreclosure Alternatives (HAFA) transactions, and Unemployment Program (UP) forbearance plans.
- To date, homeowners in permanent modifications have saved an estimated \$13.3 billion in monthly mortgage payments. Homeowners in active first lien permanent modifications are currently saving a median of \$536 per month – more than one-third of their median before-modification payment.
- Eighty-six percent of eligible homeowners entering a HAMP trial modification since June 1, 2010 have received a permanent modification with an average trial period of 3.5 months.

2MP and HAFA Program Results

- The Second Lien Modification Program (2MP) enables homeowners in a permanent first lien modification under HAMP to modify eligible second lien mortgages serviced by a participating servicer. Homeowners in 2MP with an active permanent modification save a median of \$159 per month on their second mortgage, resulting in a median total first and second lien payment reduction of 41%. Homeowners who receive a full extinguishment of their second lien receive a median total first and second lien payment reduction of 53%. To date, nearly 84,000 homeowners in a permanent first lien modification under HAMP have received assistance through 2MP. Since homeowners with permanent first lien modifications under HAMP become automatically eligible when their second lien servicer participates in 2MP, this number will likely continue to grow. More than 50% of homeowners in 2MP reside in 3 states -- California (36%), Florida (9%) and New York (6%).
- Nearly 74,000 homeowners have reached agreements with their servicer to exit their home and transition to a more affordable living situation under the HAFA Program through a short sale or deed-in-lieu of foreclosure. Nearly 51,000 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides \$3,000 for relocation assistance after a homeowner exits the home.

Hardest Hit Fund

The Hardest Hit Fund provides \$7.6 billion to 18 states and the District of Columbia to provide assistance to struggling homeowners through locally-tailored programs administered by each respective Housing Finance Agency (HFA). These areas were chosen because they have experienced steep home price declines or severe unemployment in the economic downturn. States are experimenting with a number of different programs to help homeowners, including principal reduction, reinstatement, short sale/transition assistance, modification assistance, loan purchase and mortgage payment programs.

- There are now 56 programs across the 19 HFAs. Approximately 70 percent of total program funds are being targeted to help unemployed borrowers, primarily through reinstatement and programs that help homeowners pay their mortgage while looking for work.
- All 19 HFAs have created extensive infrastructures to operate these programs, including selecting and training networks of housing counselors to assist with applications, creating homeowner portals to aid homeowners in applying for assistance, and hiring of underwriters and other staff to review and approve applications.
- The five largest servicers (Bank of America, GMAC, JPMorgan Chase, Citibank, and Wells Fargo) are participating in all states, primarily in mortgage payment assistance and reinstatement programs; several states have more than one hundred participating servicers.
- All HFAs are up and fully operational. Although states take time to refine processes and build volume, a number of states that have been up and running for longer periods of time are starting to show substantial growth in the number of borrowers assisted (e.g. California, Florida, Illinois, Michigan, North Carolina, Ohio and South Carolina). Treasury is working to identify best practices, share lessons learned between states and provide additional assistance and oversight to struggling HFAs.
- Treasury recently approved program changes in Alabama, Michigan and Nevada. The changes to these programs are designed to make them more flexible, expand the eligible population of homeowners, and offer deeper levels of assistance to enable particularly hard hit homeowners to recover from unemployment or achieve a more sustainable mortgage payment. Arizona, California and Nevada are all working on unmatched principal reduction programs that should be able to reach GSE borrowers.
- Six HFAs drew a total of \$130.5 million in June; over the life of the program, a total of \$1.07 billion has been drawn down by the 18 states and the District of Columbia. Each HFA draws down funds as they are needed. (See Figure 6) HFAs have until December 31, 2017 to expend funds, and must have no more than 5 percent of their allocation on hand before they can draw down additional funds.
- Each state submits a quarterly report on the progress of its programs. Direct links to each state's most recent performance report can be found at <http://www.treasury.gov/initiatives/financial-stability/programs/housing-programs/hhf/Pages/default.aspx> and below in Figure 5.

Daily TARP Update

July 2, 2012

The Office of Financial Stability (OFS) has updated the format of the Daily TARP Update (DTU) report. These changes are identified below. The updated format is designed to make the report easier to read and better represent some of the transactions that have occurred in the TARP program. The major changes are highlighted below using a copy of each version of the DTU for the same day. Transaction-level detail is available at: <http://www.treasury.gov/initiatives/financial-stability/briefing-room/reports/tarp-transactions/Pages/default.aspx>.

Write-offs and realized losses have been combined. Disposition expenses are no longer included in realized losses – they were moved to the [Other Income (Expenses)] column.

[CPP Exchanges Into CDCI] column added to show non-cash repayments from exchanges out of CPP, into CDCI. Disbursements for exchanges into CDCI from CPP are represented as negative numbers in this column.

Disposition expenses are included in [Other Income (Expenses)], reducing the previous amount in all three columns by these expenses.

[Outstanding] = [Disbursed] - [Repayments] - [Exchanges] - [Write-offs & Realized Losses]

[Other Income (Expenses)] includes gains on sales, investment income, fees collected, and disposition expenses.

1. Payment amount does not include accrued and unpaid interest on a debt obligation, which must be paid at the time of principal repayment.
2. Treasury committed to lend General Motors Corporation up to \$1,000,000,000. The ultimate funding was dependent upon the level of investor participation in GMAC LLC's rights offering. The amount has been updated to reflect the final level of funding.
3. Pursuant to its rights under the loan agreement with Old GM reported on 12/29/2008, Treasury exchanged its \$884 million loan to Old GM for a portion of Old GM's common equity interest in GMAC. Treasury held a 35.4% common equity interest in GMAC until the transactions reported on 12/30/2009. (See transactions marked by orange line in the table above and footnote 22.)
4. This transaction is an amendment to Treasury's 12/31/2008 agreement with Old GM (the "Old GM Loan"), which brought the total loan amount to \$15,400,000,000.
5. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,400,000,000.
6. This transaction was a further amendment to the Old GM Loan, which brought the total loan amount to \$19,760,624,198. The \$360,624,198 loan was used to capitalize GM Warranty LLC, a special purpose vehicle created by Old GM. On 7/10/2009, the principal amount was included in the \$7.07 billion of debt assumed by the new GM, as explained in footnote 10.
7. On 7/10/2009, the principal amount outstanding under the Old GM Loan and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM. (See green lines in the table above.)
8. Under the terms of the \$33.3 billion debtor-in-possession credit agreement dated 6/3/2009 with Old GM (the "GM DIP Loan"), Treasury's commitment amount was \$30.1 billion. The remaining \$2.2 billion of the financing was provided by Canadian government entities. As of 7/09/2009, \$30.1 billion of funds had been disbursed by Treasury.
9. On 7/10/2009, Treasury and Old GM amended the GM DIP Loan, and the principal amount and interest accrued thereunder were extinguished and exchanged for privately placed preferred and common equity in New GM, except for (i) \$7.07 billion, which was assumed by New GM as a new obligation under the terms of a separate credit agreement between Treasury and New GM (see transactions marked by green lines in table above) and (ii) \$986 million, which remained a debt obligation of Old GM.
10. In total, for the exchange of the Old GM Loan and the GM DIP Loan (other than as explained in footnote 9), Treasury received \$2.1 billion in preferred shares and 60.8% of the common shares of New GM. (See transactions marked by green lines in the table above.)
11. Pursuant to a corporate reorganization completed on or about 10/19/2009, the shareholders of New GM, including with respect to Treasury's preferred and common stock, became shareholders of General Motors Holding Company (the ultimate parent company of New GM), which was renamed "General Motors Company" on an equal basis to their shareholdings in New GM, and New GM was converted to "General Motors LLC". General Motors LLC is a wholly owned subsidiary of General Motors Holdings LLC, and General Motors Holdings LLC is a wholly owned subsidiary of General Motors Company.
12. Pursuant to a corporate reorganization completed on 10/19/2009, Treasury's loan with New GM was assigned and assumed by General Motors Holdings LLC.
13. The loan was funded through Chrysler LB Receivables Trust, a special purpose vehicle created by Chrysler FinCo. The amount of \$1,500,000,000 represents the maximum loan amount. The loan was incrementally funded until it reached the maximum amount of \$1.5 billion on 4/9/2009.
14. This transaction was an amendment to Treasury's 1/2/2009 agreement with Chrysler Holding. As of 4/30/2009, Treasury's obligation to lend any funds committed under this amendment had terminated. No funds were disbursed.
15. The loan was used to capitalize Chrysler Warranty SPV LLC, a special purpose vehicle created by Old Chrysler.
16. This transaction was set forth in a credit agreement with Old Chrysler fully executed on 5/5/2009 following a term sheet executed on 5/1/2009 and made effective on 4/30/2009. Treasury's commitment was \$3.04 billion of the total \$4.1 billion debtor-in-possession credit facility (the "Chrysler DIP Loan"). As of 6/30/2009, Treasury's commitment to lend under the Chrysler DIP Loan had terminated. The remaining principal amount reflects the final amount of funds disbursed under the Chrysler DIP Loan.
17. This transaction was an amendment to Treasury's commitment under the Chrysler DIP Loan, which increased Treasury's commitment by an amount \$756,857,000 to a total of \$3.8 billion under the Chrysler DIP Loan. As of 6/30/2009, Treasury's obligation to lend funds committed under the Chrysler DIP Loan had terminated.
18. This transaction, first reported based on a term sheet fully executed on 5/27/2009 for an amount up to \$6.943 billion, was set forth in a credit agreement with New Chrysler fully executed on 6/10/2009. Under the terms of the credit agreement, Treasury made a new commitment to New Chrysler of up to \$6.642 billion. The total loan amount is up to \$7.142 billion including \$500 million of debt assumed on 6/10/2009 from Chrysler Holding originally incurred under Treasury's 1/2/2009 credit agreement with Chrysler Holding. The debt obligations are secured by a first priority lien on the assets of New Chrysler. When the sale to new Chrysler was completed, Treasury acquired the rights to 9.85% of the common equity in new Chrysler.
19. Pursuant to the agreement explained in footnote 18, \$500 million of this debt obligation was assumed by New Chrysler.
20. Under loan agreement, as amended on 7/23/2009, Treasury was entitled to proceeds Chrysler Holdco received from Chrysler FinCo equal to the greater of \$1.375 billion or 40% of the equity value of Chrysler FinCo. Pursuant to a termination agreement dated 5/14/2010, Treasury agreed to accept a settlement payment of \$1.9 billion as satisfaction in full of all existing debt obligations (including additional notes and accrued and unpaid interest) of Chrysler Holdco, and upon receipt of such payment to terminate all such obligations.
21. Amount of the Treasury investment exchange includes the exercised warrants from Treasury's initial investments.
22. Under the terms of an agreement dated 12/30/2009, the convertible preferred shares will mandatorily convert to common stock under the conditions and the conversion price as set forth in the terms of the agreement.
23. On April 30, 2010, the Plan of Liquidation for the debtors of Old Chrysler approved by the respective bankruptcy court became effective (the "Liquidation Plan"). Under the Liquidation Plan, the loan Treasury had provided to Old Chrysler was extinguished without repayment, and all assets of Old Chrysler were transferred to a liquidation trust. Treasury retained the right to recover the proceeds from the liquidation from time to time of the specified collateral security attached to such loan.
24. On October 27, 2010, Treasury accepted an offer by General Motors Company (GM) to repurchase all of the approximately \$2.1 billion preferred stock at a price per share of \$25.50, which is equal to 102% of the liquidation preference, subject to the closing of the proposed initial public offering of GM's common stock. The repurchase was completed on 12/15/2010.
25. On 11/17/2010, Treasury agreed to sell 358,546,795 shares of common stock at \$32.7525 per share (which represents the \$33 public sale price less underwriting discounts and fees) pursuant to an underwriting agreement. Following settlement, the net proceeds to Treasury were \$11,743,303,903. On 11/26/2010, the underwriters exercised their option to purchase an additional 53,782,019 shares of common stock from Treasury at the same purchase price resulting in additional proceeds of \$1,761,495,577. Treasury's aggregate net proceeds from the sale of common stock pursuant to the underwriting agreement total \$13,504,799,480.
26. On 12/30/2010, Treasury converted \$5,500,000,000 of the total convertible preferred stock then outstanding and held by Treasury (including exercised warrants) into 531,850 shares of common stock of Ally. Following this conversion, Treasury holds \$5,937,500,000 of convertible preferred stock.
27. On 3/1/2011, Treasury entered into an agreement with Ally Financial, Inc. (Ally) and certain other parties to amend and restate the \$2,667,000,000 in aggregate liquidation preference of its Ally trust preferred securities so to facilitate a public underwritten offering. At the time of amendment and restatement, Treasury received all outstanding accrued and unpaid dividends and a distribution fee of \$28,170,000.
28. On 3/2/2011, Treasury entered into an underwritten offering for all of its Ally trust preferred securities, the proceeds of which were \$2,638,830,000, which together with the distribution fee referred to in footnote 27, provided total disposition proceeds to Treasury of \$2,667,000,000. This amount does not include the accumulated and unpaid dividends on the trust preferred securities from the date of the amendment and restatement through but excluding the closing date that Treasury will receive separately at settlement.
29. On March 31, 2011, the Plan of Liquidation for Motors Liquidation Company (Old GM) became effective, Treasury's \$986 million loan to Old GM was converted to an administrative claim and the assets remaining with Old GM, including Treasury's liens on certain collateral and other rights attached to the loan, were transferred to liquidation trusts. On December 15, 2011, Old GM was dissolved, as required by the Plan of Liquidation. Treasury retained the right to recover additional proceeds; however, any additional recovery is dependent on actual liquidation proceeds and pending litigation.
30. In June 2009, Treasury provided a \$6.6 billion loan commitment to Chrysler Group LLC and received a 9.9 percent equity ownership in Chrysler Group LLC (Chrysler). In January and April 2011, Chrysler met the first and second of three performance related milestones. As a result, Fiat's ownership automatically increased from 20% to 30%, and Treasury's ownership was reduced to 8.6%. On May 24, 2011, Fiat, through the exercise of an equity call option, purchased an incremental 16% fully diluted ownership interest in Chrysler for \$1.268 billion, reducing Treasury's ownership to 6.6% (or 6.0% on a fully diluted basis). On July 21, 2011, Fiat, through the exercise of an equity call option, purchased Treasury's ownership interest for \$500 million. In addition, Fiat paid \$60 million to Treasury for its rights under an agreement with the UAW retirement trust pertaining to the trust's shares in Chrysler.
31. On May 24, 2011, Chrysler Group LLC terminated its ability to draw on the remaining \$2.066 billion outstanding under this loan facility.
32. On November 1, 2011, Treasury received a \$201,345.42 pro-rata tax distribution on its common stock from Ally Financial, Inc. pursuant to the terms of the Sixth Amended and Restated Limited Liability Company Operating Agreement of GMAC LLC dated May 22, 2009.

1/ The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

2/ Investment Amount is stated after applying the appropriate month's factor and includes accrued interest paid at settlement, if applicable.

3/ If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

4/ In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. Each Senior Security will (i) have an aggregate principal amount equal to the product of (A) 0.05% and (B) the Investment Amount (excluding accrued interest) paid by Treasury for the respective SBA 7a Security, and (ii) at the option of the respective seller, may be redeemed at par value immediately upon issuance, or remain outstanding with the terms and conditions as set forth in the Master Purchase Agreement.

5/ Disposition Amount is stated after applying the appropriate month's factor and includes accrued interest received at settlement, if applicable. If the disposition is listed as PMF, the disposition amount will be adjusted after publication of the applicable month's factor.

6/ If a disposition is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security is priced according to the prior-month's factor. The PMF disposition amount will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

7/ Total Program Proceeds To Date includes life-to-date disposition proceeds, life-to-date principal received, life-to-date interest received, and senior security proceeds (excluding accruals).

8/ The sum of Current Face Amount and Life-to-date Principal Received will equal Purchase Face Amount for CUSIPs that were originally purchased as TBAs only after the applicable month's factor has been published and trailing principal & interest payments have been received.

FINAL COMMITMENT AMOUNT \$ 21,856,403,574

TOTAL CAPITAL REPAYMENT AMOUNT \$ 4,409,958,040

TOTAL DISTRIBUTIONS⁹ \$ 80,468,989

1/ The equity amount may be incrementally funded. Commitment amount represents Treasury's maximum obligation if the limited partners other than Treasury fund their maximum equity capital obligations.

2/ The loan may be incrementally funded. Commitment amount represents Treasury's maximum obligation if Treasury and the limited partners other than Treasury fund 100% of their maximum equity obligations.

3/ Adjusted to show Treasury's maximum obligations to a fund.

4/ On 1/4/2010, Treasury and the fund manager entered into a Winding-Up and Liquidation Agreement.

5/ Distributions after capital repayments will be considered profit and are paid pro rata (subject to prior distribution of Contingent Proceeds to Treasury) to the fund's partners, including Treasury, in proportion to their membership interests. These figures exclude pro-rata distributions to Treasury of gross investment proceeds (reported on the Dividends & Interest report), which may be made from time to time in accordance with the terms of the fund's Limited Partnership Agreement.

6/ Following termination of the TCW fund, the \$3.33 billion of obligations have been reallocated to the remaining eight funds pursuant to consent letters from Treasury dated as of 3/22/2010. \$133 million of maximum equity capital obligation and \$267 million of maximum debt obligation were reallocated per fund, after adjustment for the \$17.6 million and \$26.9 million equity capital reallocations from private investors in the TCW fund to the Wellington fund and the AG GECC fund, respectively. The \$356 million of final investment in the TCW fund will remain a part of Treasury's total maximum S-PPIF investment amount.

7/ Amount adjusted to show Treasury's final capital commitment (membership interest) and the maximum amount of Treasury's debt obligation that may be drawn down in accordance with the Loan Agreement.

8/ On 09/26/2011, the General Partner notified Treasury that the Investment Period was terminated in accordance with the Limited Partnership Agreement. As a result, the Final Investment Amount, representing Treasury's debt obligation, has been reduced to the cumulative amount of debt funded.

9/ Cumulative capital drawn at end of the Investment Period.

10/ The Amount is adjusted to reflect pro-rata equity distributions that have been deemed to be capital repayments to Treasury.

1/ The Cap of Incentive Payments represents the potential total amount allocated to each servicer and includes the maximum amount allotted for all payments on behalf of borrowers and payments to servicers and lenders/investors.

The Cap is subject to adjustment based on the total amount allocated to the program and individual servicer usage for borrower modifications. Each adjustment to the Cap is reflected under Adjustment Details.

¹ This report is sourced from the Monthly Servicer Survey of select servicers participating in MHA under a Servicer Participation Agreement through May 31, 2012. All data present in this report reflects what is provided by servicers participating in the survey, and cannot be separately reviewed or validated by Treasury. In June 2012, a number of servicers informed Treasury that they needed to update their reporting methodology to more accurately reflect application activities as presented in this report. As a result, prior months' reporting may contain inaccuracies received from the reporting servicers. The surveyed servicers have since amended their reporting processes to correct any inaccuracies. These updates will be reflected in this report on a going forward basis, beginning with May 2012 reporting.

This survey is a cumulative survey, therefore, an estimate of monthly activity was calculated by taking the latest monthly survey and subtracting it from the previous month's survey. This calculation may at times result in negative numbers due to servicing transfers or servicer corrections to prior reporting methodology. Note that Requests Processed, Requests Approved, and Requests Denied in any given month may be related to Requests Received in prior months.

² "Requests Received" is the total number of HAMP mortgage modification requests received, calculated as the sum of the following from the Monthly Servicer Survey: Initial Packages Received and Being Evaluated; Packages Evaluated, Incomplete and Notice Sent; Packages Evaluated, Complete and Borrower Ineligible; and Packages Evaluated, Complete and Trial Offers Sent.

³ "Requests Processed" is the total number of the HAMP mortgage modifications approved or denied and communicated to the Borrower by the Servicer, calculated as the sum of the following from the Monthly Servicer Survey: Packages Evaluated, Complete and Borrower Ineligible; and Packages Evaluated, Complete and Trial Offers Sent. HAMP mortgage modification requests evaluated and denied due to insufficient documentation (Packages Evaluated, Incomplete and Notice Sent) are excluded.

⁴ "Requests Approved" is the total number of HAMP mortgage modification requests approved, calculated as Packages Evaluated, Complete, and Trial Offers Sent. Note that all "Requests Approved" do not become Active Trials because some borrowers do not accept the trial or fail to make the first trial payment.

⁵ "Requests Denied" is the total number of HAMP mortgage modification requests denied, calculated as Packages Evaluated, Complete and Borrower Ineligible. HAMP mortgage modification requests evaluated and denied due to insufficient documentation (Packages Evaluated, Incomplete and Notice Sent) are excluded.
