### TARP Reaches Milestone in Banking Programs

The Troubled Asset Relief Program was established pursuant to the Emergency Economic Stabilization Act of 2008 (EESA). This law was adopted on October 3, 2008 in response to the worst financial crisis since the Great Depression. Treasury has used the TARP authority to make investments that have helped to stabilize the financial system, restore confidence in the strength of our financial institutions, restart markets that are critical to financing American households and businesses, help prevent avoidable foreclosures and protect homeownership.

On March 30, the Troubled Asset Relief Program's (TARP) reached a milestone after three financial institutions repaid a total of \$7.4 billion in TARP funds to taxpayers. These repayments mean that taxpayers have now recovered \$251 billion from TARP's bank programs through repayments, dividends, interest, and other income. This amount exceeds the original investment Treasury made through those programs (\$245 billion) by nearly \$6 billion. Treasury currently estimates that the bank programs within TARP will ultimately provide a lifetime positive return of approximately \$20 billion to taxpayers.

#### Where are TARP Funds?<sup>1</sup>

This report contains two charts that provide a complete picture of how TARP funds have been used, the extent to which they have been returned, and how much the program will cost.

#### • Daily TARP Update

The first chart shows for each TARP program the amount of funds obligated, the amount actually disbursed, the repayments and income received and any losses. Thus, a reader can quickly see how much cash was disbursed under a particular program and how much cash has come back to Treasury. These amounts do not represent lifetime cost estimates, which are shown in the next chart. This chart is also available on FinancialStability.gov and is updated after every business day.

### • Treasury Estimates of the Impact of TARP Programs and Other Treasury Investment in AIG on the Federal Budget

The second chart provides for each program within TARP the amount obligated, the amount disbursed, the outstanding balance, and the estimated lifetime cost. Estimated lifetime cost represents Treasury's best estimate of what the program will ultimately cost the taxpayer. Estimated lifetime cost is calculated quarterly in accordance with federal budget rules and in conjunction with the Office of Management and Budget. Because some of the TARP investments are in publicly traded securities, we also provide

<sup>&</sup>lt;sup>1</sup> Numbers in text and tables in this report may not add up because of rounding.

additional information to help readers know the current value of those investments. This chart also shows the estimated lifetime cost of the additional investment by Treasury in AIG.

This chart utilizes the methodology that TARP has consistently used to estimate these lifetime costs including the requirement to use a discount rate that reflects market risk as required by EESA for future cash flows. Over time, market conditions and the performance of specific investments will be critical determinants of TARP's lifetime cost. The methodology used adheres to government budgeting guidance and includes investments and other disbursements expected to be made in the future and includes assumptions regarding future events, which are inherently uncertain. These estimates do not necessarily reflect official Administration budgetary estimates of the deficit impact of TARP and may differ from the official estimates presented in the President's Budget, the Midsession Review of the Budget, and the report required in 2013 under Section 134 of EESA.

#### Notes to Daily TARP Update as of April 1, 2011

- 1/ Amounts of "Realized Loss", "Gain / Other Income", and "Warrants Sold" reflect net cash receipts.
- 2/ For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 3/ This column represents the sum of repayments plus income/revenue. These amounts do not represent lifetime cost estimates, which OFS provides in a separate table.
- 4/ Outstanding reflects reduction based on exchanges out of CPP into CDCI (\$355.72 million). Warrants sold include gain on exchanges (\$7.57 million). Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in July 2009.
- 5/ Gain / Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- 6/ Disbursed reflects exchanges into CDCI from CPP (\$363.29 million).
- 7/ Treasury's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 8/ Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common shares in GM's initial public offering and the Treasury's cost basis (per common share) for such shares. This calculation is not a projection of current or expected losses with respect to dispositions of the remaining shares.
- 9/ Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.

Note: Expenditures under the housing programs are made incrementally over time and are not expected to be repaid.

## **Program Updates**

#### **Automotive Industry Financing Program**

Ally Financial, Inc. (Ally Financial, formerly GMAC)

Registration statement filed with the SEC for a proposed initial public offering

On March 31, 2011, Ally Financial filed a registration statement with the Securities and Exchange Commission for a proposed initial public offering in which Treasury would sell shares. Treasury noted that it will retain the right, at all times, to decide whether and at what level to participate in any offering.

\$2.7 billion of proceeds from public offering of trust preferred securities<sup>2</sup>

On March 2, 2011, Treasury priced a secondary offering at par for all of its Ally Financial trust preferred securities. Aggregate proceeds from the offering (together with a distribution fee) totaled approximately \$2.7 billion. With the proceeds from this sale, Treasury has received approximately \$4.9 billion in return from Ally Financial to date, including \$2.2 billion in dividends and interest, compared to its \$17.2 billion investment. Treasury now holds \$5.9 billion of convertible preferred stock and 74 percent of the outstanding shares of common stock in Ally Financial.

#### **Motors Liquidation Company (Old GM)**

• The Plan of Liquidation for Motors Liquidation Company (Old GM) became effective.

On March 31, 2011, the Plan of Liquidation for Old GM became effective and Treasury's \$986 million loan to Old GM was converted to an administrative claim. Treasury retained the right to recover additional proceeds; however, any additional recovery is dependent on actual liquidation proceeds and pending litigation.

#### **American International Group**

#### \$6.9 billion repayment by AIG to U.S. taxpayers<sup>3</sup>

• On March 2, 2011, a total of 146.8 billion shares of MetLife common stock were sold for \$6.3 billion of gross proceeds. Additionally, AIG sold equity units in MetLife for \$3.3 billion. AIG used \$6.6 billion of the offering proceeds, as well as \$300 million that was

previously set aside for expenses related to the sale of ALICO to MetLife, to repay the U.S. taxpayers' investment through the redemption of an equal portion of Treasury's preferred equity interests in AIG, which stood at \$18.2 billion.

Most of the proceeds from the equity units were deposited in an indemnity escrow to secure obligations that may be owed to
MetLife, as previously agreed under the terms of the acquisition of the American Life Insurance Company (ALICO) by MetLife.
These proceeds will be released according to agreed-upon minimum holding periods over the next two years and used to pay down
Treasury's preferred equity interests.

#### **Capital Purchase Program (CPP)**

Treasury created the Capital Purchase Program in October 2008 to stabilize the financial system by providing capital to viable banks of all sizes throughout the nation. In March, nine financial institutions repurchased Troubled Asset Relief Program (TARP) Capital Purchase Program (CPP) investments, delivering a total of \$7.58 billion in proceeds for taxpayers. These transactions, along with other repayments, dividends, interest and other income, mean that taxpayers have now recovered more than the approximately \$245 billion in total TARP funds invested in banks through the CPP and other programs. Treasury estimates the bank programs will result in a lifetime positive return for taxpayers of approximately \$20 billion (see Figure 2). The table below shows the cumulative Capital Purchase Program activity since program inception.

- Total warrant proceeds as of March 31, 2011 equal \$7,433,206,477<sup>6</sup>.

#### **Dividends and Interest**

• Cumulative dividends and interest income received from Capital Purchase Program investments is approximately \$10.73 billion. In March, Treasury received dividends and interest income from CPP investments of approximately \$0.09 billion.

#### **Exchanges and Sales**

In limited cases, in order to protect the taxpayers' interest in the value of an investment and to promote the objectives of EESA, Treasury may exchange the CPP preferred stock for other securities or may sell the preferred stock. Treasury evaluates whether to participate in an exchange or sale on the basis of enabling the bank to (i) get new investors to provide additional capital, (ii) conduct a capital restructuring or (iii) strengthen its capital and financial condition. Exchanges made on this basis may be at a rate less than par, and sales by Treasury to a new investor may be made at a discount.

The remaining cash assets are defined as those remaining after paying defined acquisition expenses, debts, liabilities and distributions to other classes of security holders (in amount not to exceed \$3.527 million) in connection with the proposed acquisition. Closing of the sale is subject to certain conditions including completion of the acquisition of FCBCA by CBM. Treasury's original investment in FCBCA was \$10.685 million.

#### **Housing Programs**

#### **HUD Housing Scorecard and Servicer Performance Report**

On April 1, the U.S. Department of Housing and Urban Development (HUD) and Treasury released the Housing Scorecard (www.HUD.gov/scorecard) on the nation's housing market. Each month, the scorecard incorporates key housing market indicators and highlights the impact of housing recovery efforts, including assistance to homeowners through the Federal Housing Administration (FHA) and the Home Affordable Modification Program (HAMP). The scorecard also incorporates the MHA Servicer Performance Report Through February 2011.

Key data presented in the **Housing Scorecard** includes:

- More than 4.4 million modification arrangements were started between April 2009 and the end of February 2011 more than double
  the number of foreclosure completions during that time. These actions included more than 1.5 million HAMP trial modification starts,
  more than 776,000 FHA loss mitigation and early delinquency interventions, and nearly 2.2 million proprietary modifications under
  HOPE Now.
- Mortgage delinquencies continued a downward trend compared with a year ago. Foreclosure activity remained lower in February
  compared to a year ago, which is likely due to a continued review of internal procedures related to foreclosure processing by
  lenders. The decline is likely to be temporary as lenders eventually revise and resubmit foreclosure paperwork in the coming
  months.

Highlights from the MHA Servicer Performance Report Through February 2011 include:

#### Permanent Modifications

- More than 630,000 homeowners have started permanent modifications, with more than 26,000 new permanent modifications reported in February.
- These homeowners have realized payment relief through active HAMP trial modifications and permanent modifications. For homeowners in permanent modifications, their median first-lien housing expense fell from 45% of their monthly income to 31%.
- Homeowners in permanent modifications realize real savings, with total aggregate reductions in monthly mortgage payments of nearly \$5.4 billion to date.

#### Second Lien and HAFA Program Results

 Nearly 17,000 homeowners in a first-lien HAMP modification have received assistance through the Second Lien Modification Program (2MP). Since homeowners with first lien mortgage modifications under HAMP become automatically eligible when their second lien servicer participates in 2MP, this number will continue to grow.

- More than 10,000 homeowners have reached agreements with their servicer to exit their home gracefully under the Home Affordable Foreclosure Alternatives (HAFA) Program through a short sale or deed-in-lieu of foreclosure transaction.
- Nearly 4,500 homeowners have completed a short sale or deed-in-lieu under HAFA, which provides up to \$3,000 for relocation assistance after a homeowner exits the home.

#### Quarterly Results of Compliance Second-Look Reviews

- In Q3 2010, MHA-Compliance initially disagreed with the servicer's actions 4.2% of the time, above the YTD 2010 average of 3.3%. After follow-up actions from the servicer, 43% of those "Disagrees" were cleared.
- During the same time period, MHA-Compliance was unable to determine whether a servicer acted correctly 15.0% of the time, above the YTD 2010 average of 11.6%. After the servicer provided more information, 50% of those cases were cleared.
- Beginning next month, Treasury will release a new quarterly compliance scorecard for the 10 largest HAMP servicers to increase transparency around program performance. This scorecard will grade these servicers on key performance metrics, and also against their peers.

#### **Hardest Hit Fund**

- Through March 18, Housing Finance Agencies (HFAs) have drawn over \$166 million in total. Approximately 70 percent of all obligated funds are currently intended to assist unemployed borrowers pay or reinstate their mortgages. The remaining funds are currently intended for principal reduction, second lien removal, short sale assistance and other locally-tailored initiatives.
- As of March, Nevada and Tennessee joined Alabama, Arizona, California, Michigan, North Carolina, Ohio, Oregon, Rhode Island and South Carolina in operating HFAs' programs statewide. This month Illinois and Indiana joined Florida, Georgia, Kentucky, Mississippi, New Jersey and Washington DC, in operating pilot programs. All of these pilot programs are expected to be operational statewide by the end of June.

- One immediate impact of these dollars is to fund program expenses related borrower intake and follow-up activities through hundreds of counseling agencies in participating states. Eventually, up to \$350 million could be used for these purposes.
- The five largest servicers (Bank of America, Chase, Citibank, Ally and Wells) have made commitments to the HHF program and all have begun participating: Chase has signed agreements with all 19 HFAs in connection with programs for unemployed borrowers, and Bank of America is developing or already participating in principal reduction pilot programs with Arizona, California and Nevada and has signed agreements with 12 states for unemployment and reinstatement programs. Servicers, with assistance from Treasury, have created a common data file that will assist in the transfer of data between HFAs and servicers.

<sup>\*</sup> Subject to adjustment

<sup>1/</sup> The amortizing principal and interest payments are reported on the monthly Dividends and Interest Report available at www.FinancialStability.gov.

<sup>2/</sup> Investment Amount is stated after giving effect to factor and, if applicable, the purchase of accrued principal and interest.

<sup>3/</sup> If a purchase is listed as TBA, or To-Be-Announced, the underlying loans in the SBA Pool have yet to come to market, and the TBA pricing mechanism, purchase face amount, investment amount and senior security proceeds will be adjusted within the variance permitted under the program terms. If a purchase is listed as PMF, or Prior-Month-Factor, the trade was made prior to the applicable month's factor being published and the SBA 7a security and senior security are priced according to the prior-month's factor. The PMF investment amount and senior security proceeds will be adjusted after publication of the applicable month's factor (on or about the 11th business day of each month).

<sup>4/</sup> In order to satisfy the requirements under Section 113 of the Emergency Economic Stabilization Act of 2008, Treasury will acquire a senior indebtedness instrument (a Senior Security) from the seller of each respective SBA 7a Security. <sup>5/</sup> Disposition Amount is stated after giving effect, if applicable, to sale of accrued principal and interest.

TOTAL \$ 8,117,000,000

<sup>1/</sup> On September 3, 2010, the U.S. Department of the Treasury and Citibank, N.A. entered into a facility purchase agreement (the "L/C Facility Agreement"), which allowed Treasury to demand from Citigroup the issuance of an up to \$8 billion, 10-year letter of credit (the "L/C"). Treasury will increase availability under the L/C incrementally in proportion to the dollar value of mortgages refinanced under the FHA Short Refinance program from time to time during the first 2.5 years. At that time, the amount of the L/C will be capped at the then-current level. Under the terms of the L/C Facility Agreement, Treasury will incur fees for the availability and usage of the L/C up to a maximum amount of \$117 million.
