HARDEST HIT FUND

Fourth Quarter 2014 Performance Summary
HARDEST HIT FUND QUARTERLY PERFORMANCE SUMMARY

Background and Glossary of Terms

- The Hardest Hit Fund (HHF) provides $7.6 billion to 18 states and the District of Columbia to assist struggling homeowners through locally tailored programs administered by each respective housing finance agency (HFA) in order to help prevent foreclosures and stabilize housing markets. These areas were designated “hardest hit” because they experienced steep home price declines and/or severe unemployment in the economic downturn.

- HFAs report program performance on a quarterly basis. This Quarterly Performance Summary is intended to serve as an additional resource for Hardest Hit Fund program information, performance data, and key economic and loan performance indicators. For more detailed information, including any reporting corrections or revisions that occurred subsequent to the quarter end, please see the official quarterly report posted on each HFA’s website accessible on the “State-by-State Information” page found here: www.treasury.gov/HHF.
