The Actuarial Assumptions and Methods (line 6)
Attached is a summary of the actuarial assumptions and methods used to perform the most recent valuation. The actuarial assumptions and methods used in this valuation differ from those used in the prior valuation in the following respects:

➢ The retirement assumption was changed from:

Participants with 20 years of Credited Service as of April 1, 2009 are assumed to retire 3.25 years following 25 years of Credited Service for those credits accrued through March 31, 2005. The remaining credits accrued after April 1, 2005 are assumed to be payable at age 55.

Participants with fewer than 20 years of Credited Service as of April 1, 2009 are assumed to retire upon age 65 and 5 Years of Participation.

If the participant had at least 20 years of Credited Service as of April 1, 2009, there is a one-time additional retirement incidence of 60% when the participant reaches age 55 and at least 25 years of Credited Service. This additional incidence applies immediately for participants who are already age 55 with 25 years of Credited Service.

The future service assumption was reduced from 5,910 months per year to 4,997 months, due to an employer withdrawal.

➢ Interest Rate was changed from 6.75% to 6.50%.

Actuary’s Statement of Reliance
In completing this Schedule MB, the enrolled actuary has relied upon the correctness of the financial information presented in the pension fund audit and upon the accuracy and completeness of participant census data provided by the Plan administration.
Zone Certification
As of April 1, 2016

Initial Critical Zone Certification: April 1, 2008
Initial Critical and Declining Zone Certification: April 1, 2015

Based on the following actuarial measures, the Plan is classified as “Critical and Declining Status” (a Red Zone category) as per the Multiemployer Pension Reform Act of 2014 (MEPRA).

- The Plan meets the criteria for Critical Status, and
- The Plan is projected to become insolvent in the current or next 19 years and
- The Plan’s ratio of inactive to active participants is in excess of 2 to 1.

After considering and rejecting as unreasonable various scenarios intended to meet the benchmarks of the Pension Protection Act, the Trustees selected a Rehabilitation Plan intended to comply with the provisions of IRC §432(e)(3)(A)(ii). Based upon the provisions of IRC §432(e)(3)(A)(ii), the Plan is making required progress in its Rehabilitation Plan.

This certification was prepared on behalf of the Teamsters Local 805 Pension Plan based on employee data, asset statements and plan documents provided by the Plan Sponsor or its representatives. We relied upon the data as submitted, without formal audit. However, the data was tested for reasonableness, and we have no reason to believe that any other information which would have had a material effect on the results of this valuation was overlooked.

Therefore, to the best of our knowledge and belief, the information presented in this certification is complete and accurate, and each assumption used represents our best estimate of anticipated experience under the Plan.
The actuarial assumptions used are those used in the March 31, 2015 actuarial valuation.

The Local 805 Pension and Retirement Plan (the “Plan”) was determined by the Plan’s actuary to be in critical status as of April 1, 2008. As of January 27, 2009, a Rehabilitation Plan was adopted to meet funding progress benchmark required by §432 of the code. The Rehabilitation Plan included benefit reductions and contribution rate increases which, at the time, were enough for the Plan to forestall insolvency until the Plan Year ending 3/31/2022.

Since then, the plan sponsor determined that based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the plan cannot reasonably be expected to emerge from critical status by the end of the Rehabilitation Period and that the Rehabilitation Plan can only be expected to forestall insolvency, as required by IRC §432(e)(3)(A)(ii). Since the Rehabilitation Plan is forestalling insolvency, we have certified the Plan is meeting its scheduled progress as required by IRC §432(b)(3)(A)(ii).
Summary of Assumptions

These are the assumptions used for the ongoing valuation calculations, unless otherwise noted.

Interest Rate 6.50% per annum

The long-term funding rate assumption is based upon expected returns for the asset classes selected under the Plan’s investment policy. The expected asset returns were generated using a building block approach that includes inflation expectation and anticipated risk premiums for each asset class.

To better reflect expected plan experience, the following assumptions have been changed:

Participants with 20 years of Credited Service as of April 1, 2009 are assumed to retire 3.25 years following 25 years of Credited Service for those credits accrued through March 31, 2005. The remaining credits accrued after April 1, 2005 are assumed to be payable at age 55.

Participants with fewer than 20 years of Credited Service as of April 1, 2009 are assumed to retire upon age 65 and 5 Years of Participation.

If the participant had at least 20 years of Credited Service as of April 1, 2009, there is a one-time additional retirement incidence of 60% when the participant reaches age 55 and at least 25 years of Credited Service. This additional incidence applies immediately for participants who are already age 55 with 25 years of Credited Service.

The future service assumption was reduced from 5,910 months per year to 4,997 months, due to an employer withdrawal.

The assumed interest rate was changed from 6.75% per year to 6.50%

1. Introduction

The Local 805 Pension and Retirement Fund (the “Plan”) has been determined by the Plan’s actuary to be in “Critical and Declining” status as of April 1, 2016.

In accordance with Internal Revenue Code (“Code”) §432, the Board of Trustees of the Local 805 Pension and Retirement Fund (the “Plan Sponsor”) hereby updates the Rehabilitation Plan (“RP”) effective November 30, 2016. The original RP was effective February 24, 2009, and was updated effective April 1, 2014.

The Rehabilitation Period (as defined in IRC §432) for the Plan shall be the 13-year period beginning April 1, 2011 and ending March 31, 2024. If the Plan emerges from critical status before the end of such 13-year period, the Rehabilitation Period shall end with the Plan Year preceding the Plan Year for which the Plan’s actuary certifies that the Plan is no longer in critical status.

2. Operation of Rehabilitation Plan
   
a. Adopting a Schedule

Typically, with respect to each Collective Bargaining Agreement (“CBA”) that was in effect on the adoption date and after the bargaining parties received a copy of the RP, the bargaining parties shall agree to adopt one of the schedules provided (the “Schedule”). If the bargaining parties fail to adopt a Schedule, then the Plan Sponsor shall implement the Default Schedule, and such Default Schedule shall take effect on the date which is 180 days after the date on which the CBA expires.

b. Duration of Schedules

Once a Schedule described above takes effect, it shall remain in effect for the duration of the CBA and relied upon by the bargaining parties. When a CBA comes up for negotiation, it is negotiated pursuant to the most recent update of this RP and the schedules contained therein.
c. Updates to Rehabilitation Plan and Schedules

The Plan Sponsor shall annually update the RP. The annual update shall reflect updated projections of assets, liabilities and funding standard account credit balances provided by the Plan’s actuaries, as well as a projection by the Plan’s actuary as to whether or not the Plan is projected to emerge from critical status by the end of the Rehabilitation Period. The updated RP shall include such additional actions, including the update of Contribution and Benefit Schedules, as the Plan Sponsor deems may reasonably be expected to enable the Plan to emerge from critical status in accordance with the RP by the end of the Rehabilitation Period.

d. Employer Surcharge

Pursuant to the Pension Protection Act ("PPA"), a surcharge is imposed on all contributing employers until they adopt a contribution schedule that contains terms consistent with a Schedule under the RP. The amount of the surcharge for the 2008 Plan Year (i.e., the Plan's "initial critical year") is 5% of the contribution otherwise required under the applicable CBA (or other agreement pursuant to which the employer contributes). For subsequent years in which the plan is in critical status, the surcharge is 10% of the contribution otherwise required. The surcharges go into effect 30 days after the employer has been notified by the plan sponsor that the plan is in critical status and the surcharge is in effect. Surcharges are due and payable on the same schedule as the contributions on which the surcharges are based. The surcharge will terminate following the adoption by the bargaining parties of a Schedule under the RP.

e. Reasonable Measures and Considerations

After a review of its RP, a Plan Sponsor may determine that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Plan cannot reasonably be expected to emerge from critical status by the end of the Rehabilitation Period. If the Plan Sponsor makes that determination, it may update the RP to a schedule or schedules which consists of reasonable measures to enable the Plan to emerge from critical status at a later time or to forestall possible insolvency. Such a set of schedules is also referred to as a “reasonable measures plan”.
1) Update as of April 1, 2014

The RP was updated as of April 1, 2014, to be a reasonable measures plan. The reasons behind this determination were based on a number of considerations and factors analyzed by the Board of Trustees, including but not limited to, the following factors:

- The constraints imposed on the contributing employers to pass price increases on to their customers to cover the increased contributions required by a RP that would allow the Plan to emerge from critical status after a 13-year period. Substantially all of the Plan's contributing employers operate in the cigarette distribution industry. The tobacco industry is regulated and taxed at both the federal and state levels. The regulatory burdens imposed on employers in the industry, together with the tax imposition on cigarette sales, add immeasurably to the contributing employers' costs of doing business in this industry. For example, cigarettes are one of the most heavily taxed consumer products in the United States. The current state excise tax on cigarettes in New York State is $4.35 per pack. The cigarette tax was increased from $2.75 per pack to $4.35 per pack in June 2010 (effective July 1, 2010) and is currently the highest state tax in the nation. New York State law gives New York City the authority to impose an additional tax on cigarettes sold within the city. Currently, New York City's cigarette tax rate is $1.50 per pack, which means that the combined state and local taxes on a pack of cigarettes sold in New York City total $5.85 per pack.

In addition to state and local taxes, there is a $1.01 federal tax on each pack of cigarettes. The federal tax was increased by $0.62 per pack in 2009 to fund an expansion of the State Children's Health Insurance Program. These significant taxes imposed on cigarette sales limit the ability of contributing employers to pass additional increases on to customers. The economic issues being exacerbated by the competition for cigarette sales that are being presented by on-line sales of cigarettes as well as sales of cigarettes on American Indian reservations where lower cost cigarettes can easily be obtained.

- As of April 1, 2013 it was projected that an annual contribution rate increase of 34.85% would be required in order for the Plan to emerge from critical status by the end of the 13-year Rehabilitation Period. The Plan Sponsor believes that the crushing burden of these contribution increases would inevitably lead to the complete and/or partial withdrawal from the Plan of a significant number of contributing employers.

- Significant investment losses were suffered by the Plan during 2008. For the 2008 calendar year, the Plan's total investment losses were -22%. The market value of Plan assets on March 31, 2008 was $102,968,405. The market value of Plan assets as of March 31, 2009 was $70,628,713. This constitutes an almost 31.4% decrease in Plan assets during this period. The market value of Plan assets as of February 28, 2014 stood at $66.5 million. Thus, in nearly 6 years the Plan's assets had not recovered to their level of March 31, 2008. Indeed, assets totaled approximately $36.5 million lower than the period 6 years earlier.

In attempting to develop a viable RP, the Plan Sponsor reviewed various options, including benefit reductions and employer contribution increases. Even if some of the contributing employers could financially withstand the contribution increases required to emerge from critical status within a 13-year Rehabilitation Period, the Plan Sponsor believes that these contributing employers would demand that the Plan Sponsor significantly reduce the current plan of benefits. The Plan Sponsor believes that a RP with benefit reductions and employer contribution increases sufficient to enable the Plan to emerge from critical status by the end of a 13-year Rehabilitation Period could be
expected to result in decertification of the union by bargaining units, withdrawals by a significant number of the Plan's contributing employers and/or increases in employer bankruptcy filings. These outcomes would have a severe detrimental, long-term impact on the Plan.

After consideration of all of the above, the Plan Sponsor chose to offer the Schedules shown in Section 3b as part of its update as of April 1, 2014, deeming them reasonable measures to forestall insolvency.

2) Update as of November 30, 2016

During the current Plan Year, April 1, 2016 through March 31, 2017, the Plan Sponsor has updated the RP. The Plan Sponsor reviewed the former schedules, and determined that additional contribution increases beyond those already bargained and ratified under a CBA were not sustainable and likely to further jeopardize Plan participants by leading to the partial or complete withdrawal of contributing employers. The very real possibility that the Pension Benefit Guaranty Corporation ("PBGC") may be unable to pay guaranteed benefits due to its own insolvency was carefully considered by the Plan Sponsor. To avoid and delay the impending insolvency and dissolution of the Plan, this update to the RP ceases the contribution increases in the Preferred Schedule, as shown in Section 4, in an effort to continue the sustainability of the Plan.

As a result, this update to the RP eliminates the contribution increases in the Preferred Schedule, as shown in Section 4. However, the Plan Sponsor intends to apply for a Plan partition and suspension as permitted by the provisions of the Multiemployer Pension Reform Act ("MPRA"), and subject to the approval of the Plan’s applications for a partition and suspension, it will update the RP to once again provide for the 3% contribution increases that were included in the April 1, 2014 RP update.
