Schedule MB, line 4c - Documentation Regarding Progress Under Funding Improvement or Rehabilitation Plan
The Plan has made the scheduled progress as outlined in the 2008 rehabilitation plan as of July 1, 2015. This is based on the data, plan provisions, assumptions and methods as described in the attached PPA certification dated September 28, 2015.

This rehabilitation plan includes the use of the "exhaustion of all reasonable measures" clause at IRC 432(e)(3)(A)(ii). Without any guidance, scheduled progress under this clause is interpreted to mean continuing to use all reasonable measures to forestall insolvency. Scheduled progress was satisfied because consideration that all reasonable measures continue to be employed was undertaken in the past year.

Schedule MB, line 4f – Assumptions Used to Project Plan Year in which Insolvency is Expected
The projected insolvency is in the plan year beginning July 1, 2027. The assumptions used to project insolvency are the same as those used in the attached PPA certification dated September 28, 2015.

Re: 2014 Actuarial Certification Under the Pension Protection Act

Dear Trustee:

The following information is intended to comply with the annual certification requirements of IRC section 432, with respect to the funded status of the International Association of Machinists Motor City Pension Fund.

Identifying Information

Plan Name: International Association of Machinists Motor City Pension Fund
EIN/Plan #: 38-6237143/001
Plan year of Certification: year beginning July 1, 2014
Plan Sponsor: Board of Trustees of I. A. of M. Motor City Pension Fund
Sponsor Address: 700 Tower Drive, Suite 300, Troy, Michigan 48098-2835
Sponsor Telephone: (248) 813-9800
Enrolled Actuary Name: Paul Bullock
Enrollment Number: [Redacted] by the U.S.
Actuary Address: 11590 N. Meridian St., Suite 610, Carmel, IN 46032
Actuary Telephone: (317) 580-8652

Certification of Plan Status

I certify that the above-named Plan is in Critical status as of July 1, 2014. This is based on a projected funding deficiency within the current or next 9 plan years. The first projected funding deficiency occurs at the end of the 2014-15 plan year.

Certification of Scheduled Progress

I certify that the above-named Plan has made the scheduled progress as outlined in the 2008 rehabilitation plan as of July 1, 2014. Projections indicate that the Plan is not projected to emerge from Critical at the end of the rehabilitation plan period as specified in the 2008 rehabilitation plan. This rehabilitation plan, however, includes the use of the “exhaustion of all reasonable measures” clause at IRC 432(e)(3)(A)(ii). Therefore, we interpret scheduled progress for this Plan to mean continuing to use all reasonable measures to forestall insolvency and such consideration was made in the past year.

These certifications are intended to be in good faith compliance with the necessary disclosures for certification and represent my best estimate of the Plan’s funded position.
Basis for Result

The certifications utilize the assumptions, methods, plan provisions and demographic data as disclosed in the July 1, 2013 actuarial valuation report with the following exceptions:

- Based on the June 30, 2014 unaudited financial statements provided by the plan administrator, the asset return for the 2013-14 plan year is assumed to be 17.38%. We also updated the contributions, benefit payments, and expenses for the 2013-14 plan year based on these financial statements.

- We have added the anticipated withdrawal liability payments from Bill Wink Chevrolet beginning July 1, 2014 of $13,477 per quarter for 64 quarters.

- We have added the anticipated withdrawal liability payments from Edward C. Levy Company beginning July 1, 2014 of $84,226 for 44 quarters, then a $54,600 final payment.

- We have added the anticipated withdrawal liability payments from Superior Materials beginning July 1, 2014 of $30,081 for 23 quarters, then $19,868 for 1 quarter, then $14,652 for 3 quarters then a $13,475 final payment.

- We have added the anticipated withdrawal liability payments from Doan Construction beginning July 1, 2014 of $4,250 for 76 quarters, then a $2,263 final payment.

- Consistent with our projections of future industry activity, 8,946 weeks were assumed for the plan year beginning in 2014, and for each plan year thereafter. For the 2013-14 plan year, our projections used 8,946 weeks as well.

I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. We will have a full update of the Plan’s funded position with the next valuation report.

Sincerely,

Re: 2015 Actuarial Certification Under the Pension Protection Act

Dear Trustees:

The following information is intended to comply with the annual certification requirements of IRC section 432, with respect to the funded status of the International Association of Machinists Motor City Pension Fund.

Identifying Information

Plan Name: International Association of Machinists Motor City Pension Fund
EIN/Plan #: 38-6237143/001
Plan year of Certification: year beginning July 1, 2015
Plan Sponsor: Board of Trustees of I. A. of M. Motor City Pension Fund
Sponsor Address: 700 Tower Drive, Suite 300, Troy, Michigan 48098-2835
Sponsor Telephone: (248) 813-9800
Enrolled Actuary Name: Paul Bullock
Enrollment Number: Redacted by
Actuary Address: 11590 N. Meridian St., Suite 610, Carmel, IN 46032
Actuary Telephone: (317) 580-8652

Certification of Plan Status

I certify that the above-named Plan is in the following status(es) as of July 1, 2015 (all that apply are checked):

Safe--Neither Endangered nor Critical Status
Safe Due to Special Rule
Endangered Status
Seriously Endangered Status
Projected to be in Critical Status within 5 years
Critical Status
Critical and Declining Status X
This certification is based on the following results:

Projected funded ratio as of July 1, 2015: 61.2%

Previously emerged from critical status using IRC Section 432(e)(4)(B)(2) special emergence rule: No

First projected deficiency: June 30, 2016

At least 8 year of benefit payments in plan assets: Yes

Date of projected insolvency: 2027-28 plan year

Ratio of inactive to active participants: 4.47

**Certification of Scheduled Progress**

I certify that the above-named Plan has made the scheduled progress as outlined in the 2008 rehabilitation plan as of July 1, 2015. Projections indicate that the Plan is not projected to emerge from Critical at the end of the rehabilitation plan period as specified in the 2008 rehabilitation plan. This rehabilitation plan, however, includes the use of the “exhaustion of all reasonable measures” clause of IRC 432(e)(3)(A)(ii). Therefore, we interpret scheduled progress for this Plan to mean continuing to use all reasonable measures to forestall insolvency and such consideration was made in the past year.

These certifications are intended to be in good faith compliance with the necessary disclosures for certification and represent my best estimate of the Plan’s funded position.

**Basis for Result**

The certifications utilize the assumptions, methods, plan provisions and demographic data as disclosed in the July 1, 2014 actuarial valuation report with the following exceptions:

- Based on the June 30, 2015 unaudited financial statements provided by the plan administrator, the asset return for the 2014-15 plan year is assumed to be -0.40%. We also updated the contributions, benefit payments, and expenses for the 2014-15 plan year based on these financial statements.

- We have added the anticipated withdrawal liability payments from Bill Wink Chevrolet beginning July 1, 2015 of $13,477 per quarter for 60 quarters.
We have added the anticipated withdrawal liability payments from Edward C. Levy Company beginning July 1, 2015 of $84,226 for 40 quarters, then a $54,600 final payment.

We have added the anticipated withdrawal liability payments from Superior Materials beginning July 1, 2015 of $53,943 for 9 quarters, then $32,590 for 1 quarter, then $30,081 for 8 quarters, then $19,868 for 1 quarter, then $14,652 for 3 quarters, and then a $13,475 final payment.

We have added the anticipated withdrawal liability payments from Doan Construction beginning July 1, 2015 of $4,250 for 72 quarters, then a $2,263 final payment.

We have added the anticipated withdrawal liability payment from Ryder of $6,989,840 payable on July 31, 2015.

Consistent with our projections of future industry activity, 5,826 weeks were assumed for the plan year beginning in 2015, and for each plan year thereafter. For the 2014-15 plan year, our projections used 5,826 weeks as well.

I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. We will have a full update of the Plan’s funded position with the next valuation report.

Sincerely,

Paul Bullock, ASA, EA, MAAA

Plan History

Origins/Purpose
The International Association of Machinists Motor City Pension Plan was established effective June 1, 1955. Its purpose is to provide retirement income to covered employees. Payments of retirement income under the Plan are made from the International Association of Machinists Motor City Trust Fund. The Pension Plan is administered in accordance with the Taft-Hartley Act by a Board of Trustees.

Employer Contributions
The Pension Plan is financed entirely by contributions from the employers as specified in the Collective Bargaining Agreement. Following is a listing of weekly pension contribution rates by employer.

ACTUARIAL ASSUMPTIONS

The following assumptions are used throughout this report except as specifically noted herein.

Valuation date  | July 1, 2014
--- | ---

**Interest rates**
- **ERISA rate of return used to value liabilities**: 8.00% per year after investment expenses
- **Current liability**: 3.59% (in accordance with Section 431(c)(6) of the Internal Revenue Code) In the opinion of the actuary, this assumption is appropriate for a settlement measurement but is not an appropriate long term interest rate for measuring liabilities under ERISA.

**Operational expenses**: $240,000 per year excluding investment expenses

**Pop-up load**: Liabilities for retirees and disabled participants with joint and survivor option who retired before January 1, 2009 with contributions after May 1, 1998 are loaded 1.5%.

**Mortality**
- **Assumed plan mortality**: RP-2000 Combined Healthy Generational Mortality Table with blue collar adjustment, set forward 2 years for males and females - specimen rates shown below for a participant born in 1970:

Rationale for Selection of Actuarial Assumptions

The non prescribed actuarial assumptions were selected to provide a reasonable long term estimate of developing experience. The assumptions are reviewed annually, including a comparison to actual experience. The following describes our rationale for the selection of each non-prescribed assumption that has a significant effect on the valuation results.

ERISA rate of return used to value liabilities

Future rates of return were modeled based on the Plan’s current investment policy asset allocation and composite, long-term capital market assumptions taken from Horizon Actuarial's 2014 survey of investment consultants.

Based on this analysis, we selected a final assumed rate of 8.00%, which we feel is reasonable. This rate may not be appropriate for other purposes such as settlement of liabilities.

Mortality

The RP 2000 fully generational, combined healthy mortality table was chosen as the base table for this population. Projected mortality improvement was determined using Scale AA. The RP 2000 Disabled Retiree generational mortality table was chosen as the base table for those participants who are disabled.

Based on the industry of plan participants, the blue collar adjustment was applied.

Finally, a 2-year set forward was applied in order to more closely match projected deaths for the coming plan year to extrapolated deaths derived from a study of retiree deaths between 2006 and 2011.

Retirement

Actual rates of retirement by age were last studied for this plan for the period 2011 to 2014. The assumed future rates of retirement were selected based on the results of this study.

Future weeks worked

Based on review of recent plan experience adjusted for anticipated future changes in workforce.

Schedule MB, line 10- Accumulated Funding Deficiency
Pursuant to IRC Section 4971(g)(1), the excise tax related to the accumulated funding deficiency that would otherwise be assessed under IRC Section 4971(a) and/or (b) is not assessed because:

- The Plan is in critical status for the plan year ended June 30, 2015.

- The Plan has not received certifications under IRC Section 432(b)(3)(A)(ii) for 3 consecutive plan years that it is not meeting its requirements under the rehabilitation plan.
Schedule MB, line 11 - Justification for Change in Actuarial Assumptions
The assumptions and methods differ from those used the preceding year in the following respects:

- We updated the assumed contribution rates to those shown in Appendix A.
- We changed assumed retirement rates according to the schedule in Appendix B to represent our best estimate of future retirement patterns based on recent plan experience.
- We changed the current liability interest rate from 3.61% to 3.59%. The new rate is within established statutory guidelines.

Actuary's Statement of Reliance
In completing this Schedule MB, the enrolled actuary has relied upon the correctness of the financial information presented in the pension fund audit and upon the accuracy and completeness of participant census data provided by the plan administrator.
