

This wage table is published annually and is meant only as a guide. Recent CBAs may not be reflected in this data due to our press deadline. Also, rates for U.S. locals are not always the wage determinations as published biweekly by the U.S. Department of Labor at WDOL.gov. This table is designed to reflect wages by region—as dictated by contract. Wages are in the currency of each nation. For the most current data, please directly contact the local union using the listings in this issue.

Helping Union Families Affected by the Hurricanes

A Message from General President Eric Dean

Dear Brothers and Sisters:

The devastation brought on by the hurricanes and flooding across the regions have left a number of our members and their families without their homes and personal belongings. As a result, we have started receiving requests for disaster relief assistance from the Iron Workers Disaster Relief Fund.

The Iron Workers Disaster Relief Fund was established to provide direct aid, through their local unions, to members and their families affected by these tragedies.

And so, I am calling upon our members to do what ironworkers do best, to continue to look out for each other in every way we can. I trust you will give as generously as you possibly can. Checks should be made payable to the Iron Workers Disaster Relief Fund and mailed to the office of the general treasurer (address below). Donations may also be made by a secure PayPal link available on our website, ironworkers.org, or the IW Mobile app. Thank you in advance for your solidarity.

With best wishes and kind personal regards, I am

Fraternally yours,

Eric Dean
General President, 1051885
