Dear Trustees and Secretary of the Treasury:

ACTUARIAL CERTIFICATION FOR THE 2014 PLAN YEAR

Attached is the actuarial certification of the status of the Ironworkers Local Union No. 16 Pension Fund under IRC Section 432 for the Plan Year beginning January 1, 2014 and ending December 31, 2014 ("2014 Plan Year"). This certification is intended to comply with the requirements of IRC Section 432(b)(3) and proposed regulation §1.432(b)-1(d).

Plan Status

The Plan is in critical status (i.e., it is in the Red Zone) for the 2014 Plan Year for purposes of Section 305 of ERISA and Section 432 of the Internal Revenue Code. Details of the certification tests are shown on the enclosed exhibits.

The Plan was first certified to be in critical status for the 2012 Plan Year. In April 2012, the Trustees adopted a rehabilitation plan aimed at restoring the financial health of the Plan. The rehabilitation plan included schedules that increased employer contributions and reduced benefits. The Plan’s rehabilitation period began on January 1, 2013 and is scheduled to end on December 31, 2022.

In September 2013, the Trustees amended the rehabilitation plan to further reduce benefits and increase employer contributions. With the 2013 amendments to the Plan’s rehabilitation plan, and taking into account future employer contribution increases that have not yet been agreed to by the bargaining parties, the Plan is projected to emerge from critical status by December 31, 2022 and is, currently making scheduled progress in meeting the requirements of its 2013 rehabilitation plan.

Because the Plan is in critical status, the Trustees must notify participants and beneficiaries, bargaining parties, PBGC, and the Secretary of Labor of the Plan’s status within 30 days of the date of this certification.

Funded Percentage

The funded percentage is measured by the actuarial value of assets divided by the present value of accrued benefits (determined using funding assumptions). The funded percentage as of January 1, 2014 for certification purposes is 61.4% (≈$80,362,000 ÷ $130,828,400).

Projection of Credit Balance

The Funding Standard Account Credit Balance is a measure of compliance with ERISA’s minimum funding standards. If contributions exceed the minimum required, the credit balance will tend to grow. The credit balance will be reduced when contributions are less than the minimum required (before taking into account the credit balance offset).

In connection with the Plan’s then-endangered status, the Trustees applied for and received an automatic 5-year extension of amortization periods pursuant to Section 431(d) of the Internal Revenue Code effective January 1, 2010.

The enclosed exhibits show that a funding deficiency (negative credit balance) is projected to occur on December 31, 2017 (without regard to the 5-year extension of amortization periods and any contribution increases that have not been agreed to by the bargaining parties).

Assumptions

The Plan’s assets, liabilities and funding standard account credit balance were projected forward from the January 1, 2013 valuation for certification purposes based on the following:

- January 1, 2014 market value of assets of approximately $88,029,000 from unaudited financial information provided by the investment manager and the fund administrator.

- 2013 Plan Year contributions of approximately $3.8 million, from unaudited contribution hours information provided by the fund administrator.

- All Plan assumptions were met during the projection period. In particular, we have assumed that Plan assets will earn 7.00% per year (net of investment expenses) on a market value basis beginning January 1, 2014.

- Current differences between the market value of assets and the actuarial value of assets are phased in during the projection period in accordance with the regular operation of the asset valuation method.

- No changes in employer contribution rates from those in effect as of April 1, 2013 ($8.70 per hour).
March 28, 2014

The McKeough Company

* The active population as a whole will have similar demographic characteristics from year to year and the active plan participant count is assumed to remain level.

We relied on information from the Trustees regarding the projection of industry activity and have assumed that contributions will be made on 465,000 hours of covered employment each year beginning January 1, 2014.

This certification is for the 2014 Plan Year only. Actual valuation results will differ from projected valuation results to the extent that future experience deviates from the above assumptions.

In my opinion, the projections are based on reasonable actuarial estimates, assumptions and methods that, other than the projected industry activity supplied by the Trustees, offer my best estimate of anticipated experience under the Plan.

Sincerely,

[Redacted by the U.S. Department of the Treasury]

James J. McKeough, F.S.A.

Attachment C to the 2014 Schedule MB of Form 5500

Schedule MB, Line 4c – Documentation Regarding Progress Under Funding Improvement or Rehabilitation Plan

The Plan was first certified to be in critical status for the 2012 Plan Year. In April 2012, the Trustees adopted a rehabilitation plan aimed at restoring the financial health of the Plan. The rehabilitation plan included schedules that increased employer contributions and reduced benefits. The Plan’s rehabilitation period began on January 1, 2013 and is scheduled to end on December 31, 2022.

In September 2013 and March 2014, the Trustees amended the rehabilitation plan to further reduce benefits and increase employer contributions. However, hours of covered employment have continued to deteriorate during 2014 and after careful consideration, the board of trustees determined to also lower the future outlook regarding hours of covered employment.

Based on the assumption of reduced future hours of covered employment and other assumptions, as specified in the actuarial certification filed in 2015 (the Plan Year in which this 2014 Schedule MB is filed), the Plan was certified to be in critical and declining status. The plan was projected to become insolvent in 19 years, during the 2034 calendar year.

In September 2015, the Trustees reviewed the rehabilitation plan and determined that based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Fund would never emerge from Critical Status. This determination also reflected Trustees’ view of the economic conditions of the building and construction industry covered by the Fund. The Trustees amended the rehabilitation plan to reflect the objective of forestalling insolvency and to explore whether the suspension of benefits for certain participants, as allowed for under the Multiemployer Pension Reform Act of 2014, could enable the pension fund to potentially avoid future insolvency. During this review and update of the rehabilitation plan, the Trustees determined that the Plan was meeting its goal to forestall insolvency and that the Trustees have taken all reasonable steps to forestall insolvency.

Attachment D to 2014 Schedule MB of Form 5500

Schedule MB, lines 5l and 5m – Change in Funding Method

The valuation software for the plan has changed since the previous valuation. The criteria for automatic approval of this method change under Revenue Procedure 2000-40 were met and are outlined below:

a. The underlying method is unchanged and is consistent with the information contained in the prior actuarial valuation report and prior Schedule MB of Form 5500.

b. The net charge to the funding standard account for the prior year determined using the new software does not differ from the net charge to the funding standard account determined using the old software (all other factors being held constant) by more than 2%.

c. The new valuation software system is designed to produce results that are no less accurate than the results produced by the prior valuation software.

d. A change in valuation software requiring approval was not made for the prior plan year.

Because all criteria above were met and since there were no assumption changes reflected in this year's valuation, the effect of the change in method is treated as an actuarial gain/(loss) in accordance with the Revenue Procedure.

Attachment E to 2014 Schedule MB of Form 5500

Schedule MB, line 6 – Statement of Actuarial Assumptions/Methods

Actuarial Cost Method

The Actuarial Cost Method for determining the Actuarial Accrued Liability and Normal Cost is the Unit Credit Cost Method and is the same method used in the prior valuation.

Asset Valuation Method

The Actuarial Value of Assets (AVA) is determined using an adjusted market value. Under this method, a preliminary AVA is determined as the market value of assets on the valuation date less a decreasing fraction (4/5, 3/5, 2/5, 1/5) of the gain or loss in each of the preceding four years. The gain or loss for a given year is the difference between the actual investment return (on a market-to-market basis) and the assumed investment return based on the market value of assets at the beginning of the year and actual cash flow. The AVA is then the preliminary AVA subject to a minimum and maximum value equal to 20% below and 20% above market value, respectively.

Actuarial Assumptions

None of the Plan’s amortization bases are operating under an extension of time under Section 412(e) of the Code (as in effect prior to 2008).

During 2010, the Plan Sponsor applied for a 5-year extension of all amortization charge bases in effect as of January 1, 2010. The Commissioner granted automatic approval of this extension pursuant to Section 431(d) of the Code.

The minimum required contribution for the 2014 Plan Year, after reflecting the credit balance, was $0 with the amortization extension, and would have been $0 without regard to the amortization extension.

IRONWORKERS LOCAL UNION NO. 16 PENSION FUND

REHABILITATION PLAN

Revised Effective June 1, 2014

Introduction

The Pension Protection Act of 2006 ("PPA") requires the Trustees of a multiemployer pension plan that has been certified by the plan’s actuary as being in critical status to develop a Rehabilitation Plan.

On March 16, 2012, the Ironworkers Local Union No. 16 Pension Fund ("Fund" or “Plan”) was certified by its Actuary to be in Critical Status for the Plan Year beginning January 1, 2012, pursuant to Internal Revenue Code ("IRC") Section 432(b)(3)(A) and ERISA Section 305(b)(3)(A). On March 29, 2013, the Plan was certified to be in Critical Status for the Plan Year beginning January 1, 2013. On March 28, 2014 the Plan was once again certified by the Fund Actuary as being in Critical Status for the Plan Year beginning January 1, 2014. Notice of the Fund’s status was provided to the bargaining parties, employers, participants and beneficiaries, Pension Benefit Guaranty Corporation and the Secretary of Labor on or about April 28, 2014 pursuant to IRC Section 432(b)(3)(D) and ERISA Section 305(b)(3)(D).

Rehabilitation Plan

A Rehabilitation Plan must prescribe actions, including recommended actions to be taken by the bargaining parties that are expected to enable a plan to meet stated annual standards and emerge from critical status by the end of the Rehabilitation Period, based on reasonably anticipated experience and on reasonable actuarial assumptions.

If it is determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the Rehabilitation Period, the Rehabilitation Plan must contain reasonable measures to emerge from critical status at a later time or to forestall possible insolvency.

In 2012, the Fund, through its plan sponsor – the Board of Trustees - adopted a Rehabilitation Plan ("2012 Rehabilitation Plan") that contained three schedules providing reductions in benefits, increases in contributions or both, that were reasonably expected to enable the Plan to emerge from critical status at the end of the Rehabilitation Period (10-year period beginning on January 1, 2013). The bargaining parties agreed to adopt Schedule 3, the recommended alternative schedule. This document ("2014 Rehabilitation Plan") represents the second revision to this Plan.

Rehabilitation Period

The Rehabilitation Period is the 10-year period beginning January 1, 2013 and ending December 31, 2022.
If the Fund Actuary certifies before the end of this period that the Fund is no longer in critical status before the end of the 10-year Rehabilitation Period, the period shall end with the plan year preceding the plan year for which the certification is made. The Fund Actuary must certify that the Fund is not projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall method but taking into account any extension of amortization periods under IRC Section 431(d).

**Annual Updating of Rehabilitation Plan**

Each year the Fund Actuary will review and certify the status of the Fund under the PPA funding rules and whether the Fund is making the scheduled progress toward the requirement of emerging from critical status by the end of the Rehabilitation Period. If the Board of Trustees determines that it is necessary in light of updated information, they will revise the Rehabilitation Plan and the schedules. Notwithstanding subsequent changes in contribution schedules, a schedule of contribution rates provided by the Board of Trustees and relied upon by the bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

On March 28, 2014, the Fund Actuary certified that the Plan was in Critical Status for the Plan Year beginning January 1, 2014. At their March 20, 2014 meeting, the Board of Trustees determined that, based on current and anticipated economic conditions and industry outlook, the scheduled contribution rates in the 2013 Rehabilitation Plan would no longer be sustainable. Accordingly, the Board of Trustees took action to update the 2013 Rehabilitation Plan as summarized below. The 2014 Rehabilitation Plan was finalized at the June 12, 2014 Board of Trustees meeting.

**Schedules**

The Rehabilitation Plan must contain schedules of plan changes and/or contribution changes that if adopted by the bargaining parties, are projected to enable the Plan to meet certain annual standards and enable the Plan to emerge from critical status in accordance with the Rehabilitation Plan, by the end of the Rehabilitation Period. Pursuant to the IRC Section 432(e), the Rehabilitation Plan must include one or more schedules with revised benefit structures, revised contributions or both which, if adopted, may reasonably be expected to enable the Plan to emerge from critical status in the period of time permitted by law.

In the first year of the Rehabilitation Plan, one schedule must be a “default schedule” that identifies reductions in benefits necessary to achieve the applicable benchmarks reduced to the maximum extent permitted by law, and only includes those contribution increases necessary, after these reductions, to permit the Plan to emerge from critical status on a timely basis. This schedule was eliminated in the 2013 Rehabilitation Plan, and again has not been included in this 2014 Rehabilitation Plan, since the bargaining parties adopted Schedule 3 in 2012.

The 2012 Rehabilitation Plan also contained an alternative schedule providing increases in contributions necessary to achieve the applicable benchmarks, assuming no amendments reducing future benefit accruals under the Plan. This schedule was also eliminated in the 2013 Rehabilitation Plan, and again has not been included in this 2014 Rehabilitation Plan, since the bargaining parties adopted Schedule 3 in 2012.
The 2012 Rehabilitation Plan also included an additional alternative schedule providing for a combination of contribution rates and benefit reductions that could have been adopted by the bargaining parties to achieve the applicable benchmarks. In September 2013, this Schedule 3 was modified by the Board of Trustees as part of the 2013 Rehabilitation Plan and was renamed the “Rehabilitation Schedule.” The Rehabilitation Schedule included changes in adjustable benefits and contribution rates. The bargaining parties adopted a contribution schedule and terms for the successor to their collective bargaining agreement, which expired on March 31, 2013, consistent with the Rehabilitation Schedule. The Board of Trustees modified the 2013 Rehabilitation Plan and its Rehabilitation Schedule on March 20, 2014 and June 12, 2014, adopting additional changes to adjustable benefits and future contribution rates. This revised Rehabilitation Schedule has been provided to the bargaining parties who have adopted the contribution rates set forth in the schedule in their most recent collective bargaining agreement, which is a three-year agreement expiring on March 31, 2017.

**Rules for Operation of the Plan During the Rehabilitation Period**

During the Rehabilitation Period, the Plan may not be amended in any way that: (a) is inconsistent with the Rehabilitation Plan; or (2) increases benefits, including future benefit accruals, unless the Fund Actuary certifies that such increase is paid for out of additional contributions not contemplated by the Rehabilitation Plan, and, after taking into account the benefit increase, the plan still is reasonably expected to emerge from critical status by the end of the rehabilitation period on the schedule contemplated in the Rehabilitation Plan.

**Restrictions on Lump Sum and Similar Benefits**

Once the notice of the Fund Actuary’s certification of critical status is sent, the Plan shall not pay any amount in excess of the monthly amount paid under a single life annuity whose annuity starting date if after the date such notice is sent, except that small amount lump sum payments distributable without the permission of the participant and retroactive annuity starting date payments are permitted.

By motion duly adopted, the Board of Trustees of the Ironworkers Local Union No. 16 Pension Fund on the 12th day of June, 2014, hereby adopts this 2014 Rehabilitation Plan, including the Rehabilitation Schedule attached hereto.

IRONWORKERS LOCAL UNION NO. 16 PENSION FUND

2016 REHABILITATION PLAN

Revised effective January 1, 2016

Introduction

The Pension Protection Act of 2006 (“PPA”) requires the Trustees of a multiemployer pension plan that has been certified by the plan’s actuary as being in critical status to develop a Rehabilitation Plan.

On March 16, 2012, the Ironworkers Local Union No. 16 Pension Fund ("Fund" or “Plan") was certified by its Actuary to be in Critical Status for the Plan Year beginning January 1, 2012, pursuant to Internal Revenue Code (“IRC”) Section 432(b)(3)(A) and ERISA Section 305(b)(3)(A). On March 29, 2013 and March 28, 2014, the Plan was certified to be in Critical Status for the Plan Years beginning January 1, 2013 and January 1, 2014, respectively. On March 30, 2015 and March 18, 2016, the Plan was certified to be in Critical and Declining Status for the Plan Year beginning January 1, 2015 and January 1, 2016, respectively. Notice of the Fund’s status for January 1, 2016 will be provided to the bargaining parties, employers, participants and beneficiaries, Pension Benefit Guaranty Corporation and the Secretary of Labor on or about April 15, 2016 pursuant to IRC Section 432(b)(3)(D) and ERISA Section 305(b)(3)(D).

Rehabilitation Plan

A Rehabilitation Plan must prescribe actions, including recommended actions to be taken by the bargaining parties that are expected to enable a plan to meet stated annual standards and emerge from critical status by the end of the Rehabilitation Period, based on reasonably anticipated experience and on reasonable actuarial assumptions.

If it is determined, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, that the Plan cannot reasonably be expected to emerge from critical status by the end of the Rehabilitation Period, the Rehabilitation Plan must contain reasonable measures to emerge from critical status at a later time or to forestall possible insolvency.

In 2012, the Fund, through its plan sponsor – the Board of Trustees - adopted a Rehabilitation Plan ("2012 Rehabilitation Plan") that contained three schedules providing reductions in benefits, increases in contributions or both, that were reasonably expected to enable the Plan to emerge from critical status at the end of the Rehabilitation Period (10-year period beginning on January 1, 2013). The bargaining parties agreed to adopt Schedule 3, the recommended alternative schedule. The Rehabilitation Plan was updated effective September 1, 2013, June 1, 2014, October 1, 2015 and January 1, 2016 to reflect additional reductions in benefits and changes in future contribution rates. This document (“2016 Rehabilitation Plan”) represents the fourth revision to this Plan.
Rehabilitation Period

The Rehabilitation Period is the 10-year period beginning January 1, 2013 and ending December 31, 2022.

If the Fund Actuary certifies before the end of this period that the Fund is no longer in critical status before the end of the 10-year Rehabilitation Period, the period shall end with the plan year preceding the plan year for which the certification is made. The Fund Actuary must certify that the Fund is not projected to have an accumulated funding deficiency for the plan year or any of the 9 succeeding plan years, without regard to the use of the shortfall method but taking into account any extension of amortization periods under IRC Section 431(d).

Annual Updating of Rehabilitation Plan

Each year the Fund Actuary will review and certify the status of the Fund under the PPA funding rules and whether the Fund is making the scheduled progress toward the requirement of emerging from critical status by the end of the Rehabilitation Period. If the Board of Trustees determines that it is necessary in light of updated information, they will revise the Rehabilitation Plan and the schedules. Notwithstanding subsequent changes in contribution schedules, a schedule of contribution rates provided by the Board of Trustees and relied upon by the bargaining parties in negotiating a collective bargaining agreement shall remain in effect for the duration of that collective bargaining agreement.

On March 28, 2014, the Fund Actuary certified that the Plan was in Critical Status for the Plan Year beginning January 1, 2014. At their March 20, 2014 meeting, the Board of Trustees determined that, based on current and anticipated economic conditions and industry outlook, the scheduled contribution rates in the 2013 Rehabilitation Plan would no longer be sustainable. Accordingly, the Board of Trustees took action to update the 2013 Rehabilitation Plan. The 2014 Rehabilitation Plan was finalized at the June 12, 2014 Board of Trustees meeting.

On March 30, 2015, the Fund Actuary certified that the Plan was in Critical and Declining Status for the Plan Year beginning January 1, 2015. At their May 5, 2015 meeting, the Trustees determined that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, it would be unreasonable to conclude that the Fund would emerge from Critical Status. The Trustees reached this conclusion after consulting with the Fund’s Actuary, and taking into account the economic condition of the building and construction industry covered by the Fund. In reaching this conclusion, the Fund’s Trustees considered the near-impossibility of emerging from Critical Status at the end of the 10-year rehabilitation period in view of the significant investment losses suffered by the Fund over the 2008 plan year and compounded by the immense decrease in hours of covered employment. The collapse of the building and construction industry in the Baltimore metropolitan and surrounding areas started with the collapse of the financial markets in 2008 and the industry continued to worsen after that date. The Fund experienced over 60% decline in hours reported to it by its contributing employers from 2008 to 2014. In addition, the magnitude of the employer contribution increases needed to satisfy the requirements for a 10-year rehabilitation plan would almost certainly result in lower negotiated wages for participants and/or decreased employer contributions to other benefit plans covering these participants (such as the plan providing their health benefit coverage). If
participants perceive a significant decrease in value in their total overall compensation—including wages, pension benefits and health benefits—the Fund’s Trustees concluded that they would be likely to look for other work with non-contributing employers or encourage their employers to withdraw from the Fund. Thus, the Fund’s Trustees concluded that a further reduction in benefits would be inconsistent with the goal of presenting a viable plan with ongoing value to active participants. Such action could also lead to increased employer withdrawals or reductions in contributions, as the collective bargaining parties would see less benefit to ongoing participation. Accordingly, the Board of Trustees took action to update the 2014 Rehabilitation Plan to reflect the objective of delaying any plan insolvency so that potential improvements in investment return or other material events, including further applicable legislative reforms, can provide an opportunity for the Fund to survive and continue to provide its promised benefits to its participants. The 2015 Rehabilitation Plan was finalized and approved by the Trustees on September 22, 2015.

The Board of Trustees agreed on additional reductions in adjustable benefits at their November 20, 2015 meeting. The 2016 Rehabilitation Plan was finalized and approved at the March 15, 2016 Board of Trustees meeting to reflect these reductions. On March 18, 2016, the Fund Actuary certified that the Plan was in Critical and Declining Status for the Plan Year beginning January 1, 2016, despite these reductions in adjustable benefits.

Schedules

The Rehabilitation Plan must contain schedules of plan changes and/or contribution changes that if adopted by the bargaining parties, are projected to enable the Plan to meet certain annual standards and enable the Plan to emerge from critical status in accordance with the Rehabilitation Plan, by the end of the Rehabilitation Period. Pursuant to the IRC Section 432(e), the Rehabilitation Plan must include one or more schedules with revised benefit structures, revised contributions or both which, if adopted, may reasonably be expected to enable the Plan to emerge from critical status in the period of time permitted by law.

In the first year of the Rehabilitation Plan, one schedule must be a “default schedule” that identifies reductions in benefits necessary to achieve the applicable benchmarks reduced to the maximum extent permitted by law, and only includes those contribution increases necessary, after these reductions, to permit the Plan to emerge from critical status on a timely basis. This schedule was eliminated in the 2013 Rehabilitation Plan, and has not been included in any of the subsequent versions of the Rehabilitation Plan, since the bargaining parties adopted Schedule 3 in 2012.

The 2012 Rehabilitation Plan also contained an alternative schedule providing increases in contributions necessary to achieve the applicable benchmarks, assuming no amendments reducing future benefit accruals under the Plan. This schedule was also eliminated in the 2013 Rehabilitation Plan, and again has not been included in either the 2014 or 2015 Rehabilitation Plan, since the bargaining parties adopted Schedule 3 in 2012.

The 2012 Rehabilitation Plan also included an additional alternative schedule providing for a combination of contribution rates and benefit reductions that could have been adopted by the bargaining parties to achieve the applicable benchmarks. In September 2013, this Schedule 3 was modified by the Board of Trustees as part of the 2013 Rehabilitation Plan and was renamed the “Rehabilitation Schedule.” The Rehabilitation Schedule included changes in adjustable
benefits and contribution rates. The bargaining parties adopted a contribution schedule and terms for the successor to their collective bargaining agreement, which expired on March 31, 2013, consistent with the Rehabilitation Schedule. The Board of Trustees modified the 2013 Rehabilitation Plan and its Rehabilitation Schedule on March 20, 2014 and June 12, 2014, adopting additional changes to adjustable benefits and future contribution rates. This Schedule was further modified on September 22, 2015 to eliminate any future increases in contribution rates. This revised Rehabilitation Schedule has been provided to the bargaining parties who have adopted the contribution rates set forth in the schedule in their most recent collective bargaining agreement, which is a three-year agreement expiring on March 31, 2017.

Additional changes to adjustable benefits were added to the Schedule effective January 1, 2016. These changes included elimination of a post-retirement lump sum death benefit and increased reductions for early retirement.

**Rules for Operation of the Plan During the Rehabilitation Period**

During the Rehabilitation Period, the Plan may not be amended in any way that: (a) is inconsistent with the Rehabilitation Plan; or (2) increases benefits, including future benefit accruals, unless the Fund Actuary certifies that such increase is paid for out of additional contributions not contemplated by the Rehabilitation Plan, and, after taking into account the benefit increase, the plan still is reasonably expected to emerge from critical status by the end of the rehabilitation period on the schedule contemplated in the Rehabilitation Plan.

**Restrictions on Lump Sum and Similar Benefits**

Once the notice of the Fund Actuary’s certification of critical status is sent, the Plan shall not pay any amount in excess of the monthly amount paid under a single life annuity whose annuity starting date if after the date such notice is sent, except that small amount lump sum payments distributable without the permission of the participant and retroactive annuity starting date payments are permitted.

By motion duly adopted, the Board of Trustees of the Ironworkers Local Union No. 16 Pension Fund on the 15th day of March, 2016, hereby adopts this 2016 Rehabilitation Plan, including the Rehabilitation Schedule attached hereto."
