The data is drawn from Form 1095, Exchange Periodic Data (EPD), Form 1040, and other information returns including W-2s. Further detail can be found in Lurie and Pearce (2021). Children are defined as people under age 19 at the end of 2022. Household composition is based on relationships reported on Form 1040. State is based on a taxpayer's address on Form 1040 for 2022 (or their address from information returns for non-filers). Numbers are rounded to the nearest 1,000.
