BALLOT OVERVIEW

You were previously sent a notice informing you that a portion of the pension benefits owed to you by the Bricklayers & Allied Craftsmen Local 7 Pension Fund (Pension Plan) could be reduced under a federal law called the Multiemployer Pension Reform Act (MPRA), which was passed by Congress in 2014. On May 29, 2020, the Pension Plan's Board of Trustees (Trustees) submitted an application, on behalf of the Pension Plan, proposing a benefit reduction under MPRA. According to the Trustees, unless the proposed benefit reduction is permitted to take effect, the Pension Plan will become insolvent and run out of money to pay benefits by the end of the Plan Year that begins May 1, 2022.

The Trustees were notified recently that the proposed benefit reduction meets MPRA's requirements and was approved by the Secretary of the Treasury in consultation with the Pension Benefit Guaranty Corporation (PBGC) and the Department of Labor. Under MPRA, eligible participants and beneficiaries must now vote whether to approve or to reject the proposed benefit reduction. **Unless a majority of eligible participants and beneficiaries votes to reject the proposed benefit reduction, the proposed benefit reduction will be permitted to take effect on October 1, 2020.** If a majority of eligible participants and beneficiaries votes to reject the proposed benefit reduction, the benefit reduction will not be permitted to take effect.

In the box on the next page, you can see how the proposed benefit reduction will change your monthly pension benefit. ***If the amounts you see after "Current Monthly Benefit" and "Estimated Monthly Benefit If Proposed Benefit Reduction Takes Effect" are the same, then none of your benefits will be reduced.***

MPRA sets specific rules for how votes are counted. If you choose not to vote, or if your vote to reject the proposed benefit reduction is not received before the voting period closes at 11:59 AM ET on September 15, 2020, you will be treated as though you voted to approve the proposed benefit reduction. In other words, unless you vote by the close of the voting period, you will be counted as voting in favor of reducing benefits *regardless of whether you support or oppose the proposed benefit reduction.*

Please read the enclosed package carefully. It includes important information about the proposed benefit reduction and the voting instructions. You may vote only once, using one of three methods: by mail, by phone, or on the Internet.

HOW YOUR MONTHLY BENEFIT COULD CHANGE

Name:

Current Monthly Benefit:¹

Estimated Monthly Benefit If Proposed Benefit Reduction Takes Effect:²

Estimated PBGC Guaranteed Benefit:³

The estimates above are based on the following information from the Pension Plan's records.

Your current credited service under the Pension Plan:

Your age as of October 31, 2020:

Your benefits based on disability:

¹ If you are retired and have begun receiving pension benefits from the Pension Plan, your "Current Monthly Benefit" is the amount you are now receiving each month from the Pension Plan. If you are not retired and have not yet begun receiving your pension benefits, your Current Monthly Benefit reflects the monthly benefit you have earned or are estimated to earn through October 1, 2020, payable in the form of a single life annuity, beginning at Normal Retirement Age. If you are not currently retired, and you choose a joint-and-survivor form of benefit when you apply to begin receiving your pension benefits, the monthly benefit you actually receive from the Pension Plan could be less than the Current Monthly Benefit amount, because the pension benefits you earned from the Pension Plan would be payable over the joint lives of you and your spouse.

² Your "Estimated Monthly Benefit If Proposed Benefit Reduction Takes Effect" is the amount you can expect to receive from the Pension Plan each month if the proposed benefit reduction takes effect. If you are not retired and have not yet begun receiving your pension benefits from the Pension Plan, your Estimated Monthly Benefit If Proposed Benefit Reduction Takes Effect is based on the same assumptions as described in footnote 1 for the amount of your Current Monthly Benefit.

³ If you are retired and have begun receiving benefits from the Pension Plan, your "Estimated PBGC Guaranteed Benefit" is the amount you would receive each month if the Pension Plan becomes insolvent and does not have enough money to pay benefits (which is estimated to occur in 2022). If you are not retired and have not yet begun receiving your pension benefits, your Estimated PBGC Guaranteed Benefit reflects the guaranteed benefit you would receive based on the monthly benefit you have earned, or are estimated to earn, through October 1, 2020. This estimate is based on the same assumptions as described in footnote 1 for the amount of your Current Monthly Benefit. If your benefit from the Pension Plan is subject to a qualified domestic relations order, special rules may apply.

VOTING INSTRUCTIONS

****Not casting a vote is treated the same as voting to approve the proposed benefit reduction.****
