

## **Transaction Summary**

The U.S. Department of the Treasury agreed to make a loan of up to \$5.477 billion to American Airlines, Inc. (the Company), a wholly owned subsidiary of American Airlines Group, Inc. and one of the largest domestic airlines in the United States. The Company had approximately 157,000 U.S. employees in March 2020 and carried more than 150 million passengers in 2019.

Treasury made the loan pursuant to section 4003(b)(1) the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The loan is secured by the Company's AAdvantage loyalty program. The loan has an interest rate equal to LIBOR plus 3.5% and matures on June 30, 2025. The Company elected to draw \$550 million at loan close and may draw the remaining loan funds in multiple draws through March 26, 2021. The loan proceeds will be used to provide liquidity to continue the Company's operations. The transaction agreement includes covenants by the Company to comply with certain restrictions on employee compensation, stock repurchases, dividends, and reductions in employment levels, as required by the CARES Act. Treasury will receive warrants to purchase common stock equal to 10% of the total loan amount drawn. Treasury expects, subject to certain conditions and satisfactory documentation, to increase the amount of the loan available to the Company to \$7.5 billion.
