

Capital Projects Fund Award Fact Sheet

California

Treasury approves California's plan to invest \$540.2 million of CPF funding in broadband infrastructure projects that will provide high-quality internet to locations that lack access to adequate service.

California Capital Projects Fund Program Overview

- **Program Summary:** \$540.2 million for Broadband Infrastructure (100% of CPF allocation)
- **Locations to Be Served:** 127,000 (estimated)
- **Program Description:** California's Last Mile Broadband Expansion grant program is a new competitive grant program designed to provide internet access to areas of the state lacking access to reliable broadband speeds of 25/3 Mbps.
 - The program is designed to provide internet service with speeds of 100/100 Mbps upon project completion.
 - Each of the internet service providers funded by the program will participate in the FCC's [Affordable Connectivity Program \(ACP\)](#) – a \$30 per month subsidy for low-income families.
- **Key State Contact:** The California Public Utilities Commission (CPUC)

As reported by California, estimates show that investments made using the Capital Projects Fund will serve ~16% of locations still lacking high-speed internet access in the state.
