

Capital Projects Fund Award Fact Sheet

Kansas

Treasury approves Kansas's plan to invest \$83.5 million of CPF funding in broadband infrastructure projects that will provide high-quality internet to locations that lack access to adequate service.

Kansas Capital Projects Fund Program Overview

- **Program Summary:** \$83.5 million for Broadband Infrastructure (58% of CPF allocation)
- **Locations to Be Served:** 21,300 (estimated)
- **Program Description:** Kansas's LINC (Lasting Infrastructure and Network Connectivity) program, a competitive grant program, will build high-speed internet service in areas where there is a demonstrated need. LINC will contribute to bridging the digital divide by providing access to reliable high-speed internet connections. Capital Projects Fund dollars will help build reliable infrastructure that is affordable in the areas the program is designed to serve.
 - LINC is designed to provide internet service with speeds of 100/100 Mbps symmetrical to households and businesses upon project completion.
 - Each of the internet service providers funded by the Kansas Office of Broadband Development's use of CPF will participate in the FCC's [Affordable Connectivity Program \(ACP\)](#) – a \$30 per month subsidy for low-income families.
- **Key State Contact:** Kansas Office of Broadband Development

*As reported by Kansas, estimates show that investments made using the Capital Projects Fund will serve **8% of locations** still lacking high-speed internet access in the state.*
