Section I. Quarterly Reporting Basics

a) Overview

This document provides information on using Treasury's Portal to submit required Quarterly reports under the Emergency Rental Assistance (ERA1 and ERA2) programs. It is a supplement to the [ERA Reporting Guidance v1.0](#) which contains all relevant information and guidance on reporting requirements.

Please see the ERA Reporting Guidance and Treasury's ERA webpage for detailed guidance on submitting required Monthly reports or other special reports, and the latest guidance and updates on other programmatic and reporting topics.¹

Each ERA Recipient is required to submit quarterly reports with current performance and financial information including background information about the ERA Project that is the subject of the report; participant (household, beneficiary) data; and financial information with details about obligations, expenditures, direct payments, and subawards.

b) What is Covered in this User Guide?

This User Guide contains detailed guidance and instructions for ERA Recipients in using Treasury's Portal for submitting the required ERA quarterly reports. All Recipients must submit the required reports via Treasury's Portal. **No ERA reports should be submitted through the GrantSolutions system, which was used for recipient reporting under the Coronavirus Relief Fund.**

c) Designated Staff for Key Roles in Managing ERA1 and ERA2 Reports

ERA Recipient organizations are required to designate staff or officials for the following three roles in managing reports for each of their ERA1 or ERA2 awards. Recipients must make the required designations prior to accessing Treasury's Portal. Treasury will distribute information about required reporting to the designated individuals via email. The required roles are as follows:

- **Account Administrator** for the ERA1 or ERA2 award has the administrative role of maintaining the names and contact information of the designated individuals for ERA reporting. The Account Administrator is also responsible for working within your organization to determine its designees for the roles of Point of Contact for Reporting

¹ www.treasury.gov/era

and Authorized Representative for Reporting and providing their names and contact information via Treasury's Portal. Finally, the Account Administrator is responsible for making any changes or updates as needed over the award period. We recommend that the Account Administrator identify an individual to serve in his/her place in the event of staff changes.

- **Point of Contact for Reporting** is the primary contact for receiving official Treasury notifications about reporting on the ERA1 or ERA2 award, including alerts about upcoming reporting, requirements, and deadlines. The Point of Contact for Reporting is responsible for completing the ERA1 or ERA2 reports.
- **Authorized Representative for Reporting** is responsible for certifying and submitting official reports on behalf of the ERA1 or ERA2 award recipient. Treasury will accept reports or other official communications only when submitted by the Authorized Representative for Reporting. The Authorized Representative for Reporting is also responsible for communications with Treasury on such matters as extension requests and amendments of previously submitted reports. The official reports may include special reports, monthly reports, quarterly reports, interim reports, and final reports.

An individual may be designated for multiple roles. For example, the individual designated as the Point of Contact for Reporting may also be designated as the Authorized Representative for Reporting. In addition, the Recipient may designate one individual for all three roles.

Treasury distributed email notices to each ERA1 and ERA2 Recipient with guidance on the process for designating individuals for the three roles.

The designated individuals' names and contact information will be pre-populated in the "Recipient Profile" portion of the Recipient's ERA1 or ERA2 quarterly reports, and Recipients will be able to update the information, if necessary.

Each designated individual must register with ID.me for gaining access to Treasury's portal. Please contact EmergencyRentalAssistance@treasury.gov for additional information on procedures for registering with ID.me.

d) **Questions?**

If you have any questions about the ERA program's reporting requirements, please contact us by email via EmergencyRentalAssistance@treasury.gov.

Section II. Navigation and Logistics

Key terms appear in **bold** and are explained in complete detail in the [Data Dictionary](#).

a) **Login into Landing Page and Portal Navigation**

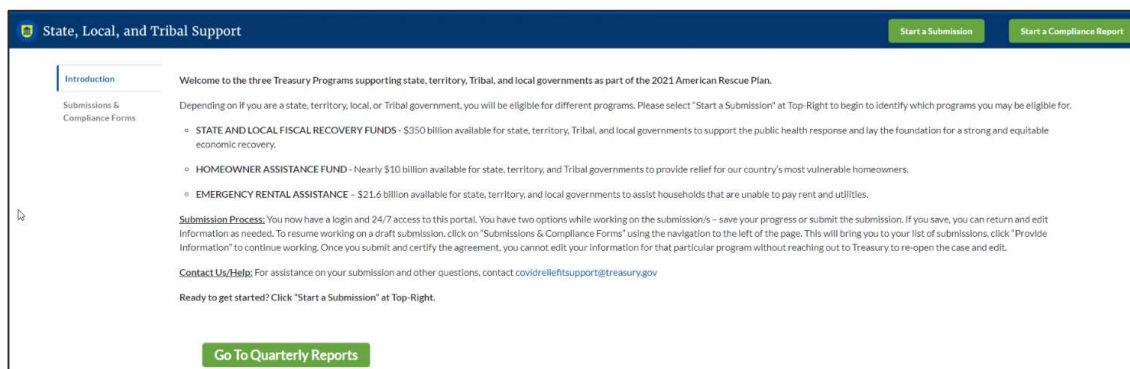

Figure 1 – Landing Page

Click on the *Go to Quarterly Reports* button (see Figure 1) to launch the required reports. Refer to the ERA Reporting Guidance for details about each type of required report for submittal.

Quarterly Report Selection						
No.	Program	Assistance Listing No. / CFDA No.	Report	Report Period	Submission Deadline	Status
1	ERA	2345	Franco Test 2	Quarter 2 2021 (April-June)	12/31/2021	Draft Provide Information

Figure 2 – Quarterly Report Selection

Each listed quarterly report links to the required online forms for the specific report. Each report includes several modules. Selecting a report on the landing page will open the first module. See Figure 2 above for an example Quarterly Report Selection screen.

To begin completing a specific report, click on the link to the given report.

Note: Users will need to submit ERA1 and ERA2 data separately. Always be aware of a given report's association with the ERA1 or ERA2 award

The Navigation Bar (see Figure 3) which appears at the top of Treasury's Portal screens allows you to navigate between modules. Each tab constitutes one module.

Figure 3 – Navigation Bar

b) Helpful Tips/Shortcuts for Submitting Data to the Treasury Portal

Treasury's Portal leads you through a series of online forms that, when completed, will fulfill your quarterly reporting obligations. While navigating through the portal and submitting required information users will have the option of manually entering data directly into the portal or providing information via a bulk upload file that includes all relevant information in a Treasury approved process and format.

The bulk file upload approach is encouraged for users with vast amounts of data to ease the administrative burden and minimize data entry errors. The manual data entry option is available to all users but may be more feasible for smaller programs with fewer data burdens.

1. Bulk Upload File

Recipients can use the bulk upload function for providing required information for seven separate modules listed here:

- Subrecipient Profile
- Subaward Reporting
- Subaward Expenditure Reporting => \$30,000
- Subaward Expenditure Reporting < \$30,000
- Subaward Expenditure Reporting < \$30,000 to Individuals²
- ERA Programmatic Reporting
- Participant Household Payment Data

When using the bulk upload, Recipients must provide the required information in specified formats and use Treasury approved templates for each respective bulk upload. Recipients may download each of the templates separately from within the relevant Portal module.

Recipients that choose to use the bulk upload functionality should navigate to each of the above-listed modules and download each bulk file upload template as an early step in planning for the required quarterly report.

Note that all State, Local and Territorial ERA1 and ERA2 Recipients are required to provide the Participant Household Payment Data File as part of each Quarterly report. All other Bulk Upload files will have manual entry options, while the Participant Household Payment Data File must use the bulk file upload capability.

Please see Appendix A – Bulk Upload Overview for complete guidance on using this important function.

Modules and submodules accepting bulk upload files are clearly marked in Treasury's Portal and identified in later sections of this guide. The template for each upload file is available in the relevant module/submodule for download (see Figure 4).

Figure 4 – Sample Bulk Upload Icon with Template Download Link

When you click the upload button you will be directed to an upload screen (see Figure 5). You can either choose to add files or drag and drop files to initiate the bulk upload.

² The module listed as, “Subaward Expenditure Reporting < \$30,000 to Individuals” may include expenditures to subrecipients and individuals. Payments to individuals (i.e., households) are not subawards, but for purposes of the ERA reporting, recipients should report on payments to individuals in this module category.

Figure 5 – Demographics Bulk Upload

Treasury’s Portal will reject the file if an incorrect template or file format other than .csv is used for upload (see Figure 4). Treasury’s Portal will display an error message on screen (see Figure 6) if the bulk data upload file contains errors. If you receive an error message, you will need to correct the errors in the bulk upload file and re-submit the corrected version.

Figure 6 – Unsuccessful Bulk Upload

2. Manual Data Entry

Manual data entry requires you to key in information as instructed on the screen. Manual inputs are described in detail below for each section of this user guide.

Note: * indicates a required field. You must enter information into the field before you can save or proceed to the next screen.

Your inputs will be subject to validation by Treasury’s Portal to ascertain that the data provided is consistent with expected format or description (e.g., entering “one hundred” instead of 100). If a given data entry fails a validation rule, the portal will display an error for you to address (see Figure 7).

Figure 7 – Manual Entry Error Example

After Treasury’s Portal validates the data entries for a given module or submodule, you may continue to the next module. The portal will not provide a notice that a field is validated – it provides the error notifications only when the validation fails.

You will not be able to submit manually entered data that does not satisfy the data validation rules.

3. Wrap Text vs Clip Text

Some data entry areas (lists) will have a dropdown menu where you can select from Wrap text or Clip text for easier viewing in Treasury’s Portal (see Figure 8).

Figure 8 – Wrap vs. Clip Text

4. Narrative Boxes

When filling out detailed narratives, you are encouraged to type the responses using a word processing system (such as Microsoft Word) to minimize grammatical errors, track word count, and concisely answer all required narrative details. You can then copy and paste the final narratives directly into the text boxes in Treasury’s Portal.

The text boxes (see Figure 9) can be expanded by clicking and dragging the icon in the bottom-right corner.

Figure 9 – Manual Entry Text Box

Section III. Quarterly Report Selection

The Quarterly Report Selection page lists the active reports that require completion during the current quarter. Treasury’s Portal landing page will list the reports by ERA1 and ERA2 Federal Award Identification number (FAIN) along with status marked “Draft.”

Note: Users will need to submit ERA1 and ERA2 data separately. Always be aware of a given report’s association with ERA1 or ERA2.

- a) To navigate to a specific report, click on *Provide Information* (see Figure 10) to enter data for the specific ERA Award.

Figure 28 – Submission Step Tracker 2

This section is divided into three segments: a) Create Subrecipient, b) Create Subaward and c) Create Expenditures.

a) Create Subrecipient

The Subrecipient Profile submodule documents the information about each Subrecipient that has received federal funding from the subject ERA Project.

The Subrecipient module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see **Appendix A – Bulk Upload Overview**. You can download the bulk file template for use in submitting the required data via bulk upload. When ready to submit the data, use the upload button (see Figure 29).

Figure 29 – Subrecipient Bulk Upload Icon

Note: When using the bulk file upload capability, the Subrecipient bulk upload must be completed prior to beginning the data entry for the subaward module.

If you choose to individually enter records, follow the instructions below.

1. If this is a new Subrecipient record, click *Manually Create* (see Figure 30).

A dialog box titled "Manually Create a Subrecipient" with a close button (X) in the top right corner. The text inside says: "You can either search for an existing Subrecipient through their DUNS number or you can manually create a new Subrecipient below." Below this is a label "Subrecipient DUNS:" followed by a text input field. At the bottom, there are two buttons: "Search for Subrecipient" and "Manually Create".

2. If *Manually Create* is selected, enter the relevant Subrecipient information in each of the required fields (see Figures 31 and 32).

The screenshot shows a web form titled "Manually Create a Subrecipient" with a close button in the top right corner. The form contains several input fields and dropdown menus, each preceded by an asterisk indicating it is required. The fields are arranged in two columns. The left column includes: DUNS, TIN, Legal Name, POC Email Address, Address Line 1, Address Line 2, Address Line 3, City, State, and Zip. b) Create Subawards

The Subaward Reporting submodule allows you to enter the required information regarding Subawards for all direct payments, subawards, and contracts made by your organization.

The Subawards module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see **Appendix A – Bulk Upload Overview**. You can download the bulk template using the provided link in Treasury's Portal before using the upload button (see Figure 34).

Note: Subaward bulk upload can only be completed after Subrecipient bulk upload is completed.

If you choose to individually enter records, follow the instructions below.

1. Enter the following fields pertaining to the Subawards: **Subaward Number**, **Subaward Obligation**, **Subaward Date**, **Period of Performance Start**, **Period of Performance End**, **Place of Performance Address**, **City**, **State**, **Zip+4**, **Country**, and **Congressional District** (see Figures 35 and 36).
2. Select the **Subaward Type** from the drop-down picklist. (see Figures 35).

3. After completing the subaward details, associate the Subaward with a specific Subrecipient. Click *Create a Subrecipient* to launch the Subrecipient Profile submodule (see Figure 30).
4. Enter the **Subrecipient DUNS** and select *Search for Subrecipient*. If a Subrecipient record already exists, connect it to your Subaward at this time. You will then be returned to the Subaward screen to finalize the Subaward.
5. Use the open textbox to provide a brief description on the Subaward's underlying eligible use (see Figure 36).
6. Click *Create Subaward* to establish the Subaward record. Repeat Steps 1 through 5 to create additional Subaward records.

c) Create Expenditures

As part of the quarterly reporting requirement, you will need to provide information regarding all expenditures (including subawards) for the current quarter (see Figure 37).

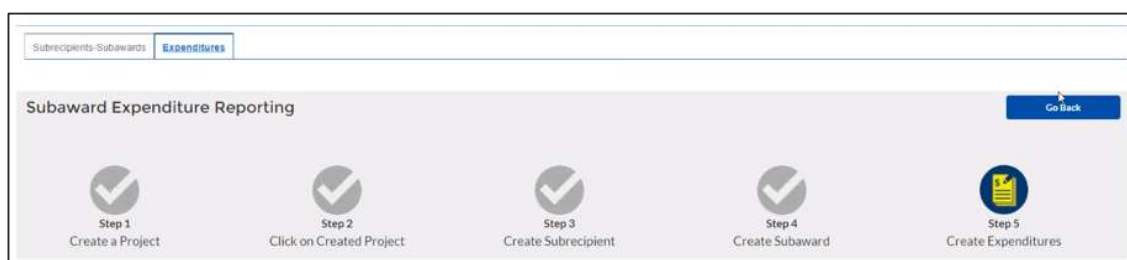

Figure 37 – Expenditures Tab

The expenditures reporting is categorized into three groups: (1) Expenditures greater than or equal to \$30,000, (2) Aggregated Expenditures less than \$30,000 and (3) Aggregated Expenditures to individuals less than \$30,000.

The Expenditures reporting module allows users to enter data manually or leverage the bulk file upload capability. For bulk-upload instructions specific to this submodule, see **Appendix A – Bulk Upload Overview**. Appendix A – Bulk Upload Overview

a) Purpose

The following segment provides overview on the bulk file upload process as well as the submission of the Participant Household Payment Data File. There are seven (7) unique bulk file upload templates as outlined below:

1. Subrecipient Profile
2. Subaward Reporting
3. Subaward Expenditure Reporting => \$30,000
4. Subaward Expenditure Reporting < \$30,000
5. Subaward Expenditure Reporting < \$30,000 to Individuals
6. ERA Programmatic Reporting
7. Participant Household Payment Data File

b) Template Description

Each of the seven files has a specific template that describes how to build the upload file. Each Module in the web application provides a link to download the template. All templates have the same structure as described below:

Row 1: Template Version

Row 2: Template Name

Row 3: Instructions: Brief description of the template constraints.

Row 4: Field IDs: Column identifiers

Row 5: Field Label: Brief description of each Field or Column

Row 6: Required or Optional: This field specifies if the field is optional or required. When the column is required, and a recipient does not provide the required data, the system will not accept any record or allow the file to be uploaded.

Row 7: Field Help Text: Provides a description of the column. There are 2 types of fields, 1). an open value either text or numbers and 2). A predefined list of pick list values:

- Open Value: Any text or number. Text for State name or Last Name or a Number that represents amounts. Most text types are free formats, the only expectation is for Dates, each column that represents a date describes the accepted format. For any number field, it is not required to add “,” to represent thousands or it is not required to add “\$” to represent currency. Only add decimal “.” when needed.
- Pick List: A Predefine list of values that is accepted by the system. When the column is a pick list, row 7 provides the list of options that the system accepts. Recipients should “copy and paste” the valid value for each record. If the recipient provides a value that is not in the predefined pick list, the system will not accept the file. Responses should not contain double quotes

Row 8: Data that Recipient submits. Row 8 is where recipients insert specific data to submit. The system accepts 1 or many rows.

The following is special guidance for each row or set of rows:

1. Do not change the content of rows 1 to 7
2. Rows 4 to 7 provide metadata of each data element or column of the information that Recipients will provide.
3. Start adding your data in row 8 column B.

The following is an example of a template:

	A	B	C	D	E	F	G

Figure 61 – Example Bulk Upload Template

The ERA Programmatic Reporting Module has a small modification where recipients can add data from E9 to V25.

c) Bulk Upload Process

The upload process includes the following steps:

1. Identify the reporting module to upload
2. Download the module template from the link provided in the web application section of the module.
3. Open the template in Excel
4. Save the template as CSV and change the name of the file as needed
5. Add your data starting with row 8th of the applicable template
6. When you finish adding your data repeat step 4
7. Upload the new file to the portal. The system will communicate if the upload was successful or failed.
8. Reuse the same file if the upload process fails. Reconcile the issues that the system indicated and repeat step 7 until all issues are corrected.

d) Bulk Upload Creation Steps

The collective bulk file upload process is contingent upon end-users following the below steps to ensure successful submission:

1. Set up a Project Record within the system
2. Load the Subrecipient Profile within the Project Record
3. Load the Subaward Reporting next (file references Sub Recipient and Project Record information)
4. Load the three Expenditures files (files reference Sub Award and Project Record information)
5. Load the ERA Programmatic Reporting File

Note: All information submitted through the bulk upload process must be submitted as a CSV file.

e) **CSV Guidance**

Refer to the following link for descriptions of the CSV format.

https://en.wikipedia.org/wiki/Comma-separated_values

f) **Specific CSV characteristics**

- The date format is: MM/DD/YYYY. Example:
 - a. 06/22/2021
- All currency values are numeric. It is not required to add “,” for thousand or millions.
- Currency values should not contain a “\$” sign. The file will be rejected if a “\$” is included in the data entry.

g) **Upload Template Description**

Each data element and/or column in the CSV files is described below:

- **Index No:** Reference number for the data element. For internal use only
- **Defined term:** Column Short description
- **Definition:** Column long description or definition
- **CSV Column Name:** The column header name that must be used in the CSV file
- **Required:** Indicates if the column is required or not required.
- **List Value:** The content of the column is from a list of predefined values. This is valid for some of the columns. The list is provided for all cases. Most of the cases is N/A which means that the type is either String or Numeric
- **Data type:** Specify the data type of the column. The options are: Numeric, Text, Date and Pick List.
- **Max Length:** Indicates the maximum length in characters that is allowed for each column.

h) **Subrecipient Profile**

This module provides identifying information for each Subrecipient that received federal funding from this program. Where possible, you should provide the Subrecipient's DUNS number to pre-populate several segments of the record. In addition, you will also need to provide information about the Subrecipient's 2 CFR 170.330 Total Compensation in the report, if applicable.
