Treasury will pay particular attention to the extent of the Participant's engagement with populations that are the subject of statutory targeting requirements.

Yes

What additional data would be helpful to the Participant as it seeks to assess homeowner needs over time?

Monthly data from loan servicers regarding loan delinquency.

Program Design

What are the Program Design Elements Through Which the Participant Will Deliver HAF Assistance to Eligible Homeowners?

A program design element is a specific activity or program, which is consistent with a qualified expense category, under which a Participant will disburse HAF funds in accordance with the HAF Plan. Please note that multiple program design elements may fit under a single qualified expense category; for example, a mortgage assistance program that has different terms for federally backed mortgages and manufactured-home mortgages may constitute two separate program design elements, for which case the Participant provides a separate term sheet or other description for each program design element.

HAF participants must have at least one program design element intended to reduce mortgage delinquency among targeted populations. Treasury encourages HAF participants to consider program design elements that address homeownership preservation for targeted populations in areas where there is a sustained trend of increasing property taxes or utility costs, including for households that do not have mortgages.

Please identify each qualified expense category in which the Participant will offer a program design element by checking the boxes below.

- mortgage payment assistance
- mortgage principal reduction, including with respect to a second mortgage provided by a nonprofit or government entity
- payment assistance for homeowner's utilities, including electric, gas, home energy, and water
- payment assistance for homeowner's insurance, flood insurance, and mortgage insurance
- payment assistance for delinquent property taxes to prevent homeowner tax foreclosures
- payment assistance for down payment assistance loans provided by nonprofit or government entities
- financial assistance to allow a homeowner to reinstate a mortgage or to pay other housing-related costs related to a period of forbearance, delinquency, or default
- facilitating mortgage interest rate reductions
- payment assistance for homeowner's internet service, including broadband internet access service, as defined in 47 CFR 8.1(b)
- payment assistance for homeowner's association fees or liens, condominium association fees, or common charges
- measures to prevent homeowner displacement, such as home repairs to maintain the habitability of a home or assistance to enable households to receive clear title to their properties

For each program design element that the Participant will offer, the Participant is required to upload a term sheet or other description, that, at a minimum, provides the following information regarding that program design element. Term sheets for all of Participant’s HAF programs may be uploaded together as one document.

A HAF participant may elect to revise its HAF Plan over time to add or subtract program design elements. Does the Participant anticipate adding additional program design elements to this HAF Plan within one year of this submission?

No

Treasury has provided sample term sheets to assist HAF participants in developing their HAF plans. Participants may use these sample term sheets, in whole or in part, as part of their submission. To the extent the Participant intends to structure the program differently with respect to significant program terms described in the Sample Term Sheets, Treasury will, in the course of its review of the HAF Plan, request a justification for how the alternate approach will further the objectives of the HAF, including targeting and prioritization requirements. In the chart below, the HAF Participant may provide a justification for significant deviations from the terms described in the sample term sheets upon initial submittal. (optional for initial submission)

Documentation of Homeowner Income

Homeowners are eligible to receive amounts allocated to a HAF participant under the HAF only if they have incomes equal to or less than 150% of the area median income or 100% of the median income for the United States, whichever is greater. In addition, not less than 60% of amounts made available to each HAF participant must be used for qualified expenses that assist homeowners having incomes equal to or less than 100% of the area median income or equal to or less than 100% of the median income for the United States, whichever is greater. The HAF guidance describes permissible ways for HAF participants to determine homeowner income.

Under the HAF guidance, one permissible approach for determining income is for (1) the household to provide a written attestation as to household income and (2) the HAF participant to use a reasonable fact-specific proxy for household income, such as reliance on data regarding average incomes in the household’s geographic area. Will the Participant allow income to be determined in this way?

Yes

If yes, please describe the fact-specific proxy or proxies to be used for the income determination.

SDHDA will allow self written attestation but will not allow the fact-specific proxy.

Under the HAF guidance, HAF participants may provide waivers or exceptions to this documentation requirement as reasonably necessary to accommodate extenuating circumstances, such as disabilities, practical challenges related to the pandemic, or a lack of technological access by homeowners; in these cases, the HAF participant is still responsible for making the required determination regarding household income and documenting that determination. Will the Participant allow applicants to request such waivers or exceptions?

Yes

Eligible Mortgage Types

Please indicate which of the following mortgage types are eligible to be assisted under one or more of the Participant’s program design elements.

- First Mortgages
- Reverse Mortgages (Home Equity Conversion Mortgages, Single-Purposes Reverse Mortgages, or Proprietary Reverse Mortgages)
- Contracts for Deed or Land Contract (if it is a credit transaction secured by a consensual security interest in a dwelling)
- Second Mortgages
- Loans Secured by Manufactured Housing (secured by real estate or dwelling)

If the Participant excludes any of the forgoing mortgage types from one or more program design elements, explain the exclusion.

Due to the structure of reverse mortgages it is difficult to determine the extent of financial hardship. SDHDA will provide assistance to homeowners of reverse mortgages, if they are in need of assistance for delinquent taxes and other mortgage related fees.

How Will the Participant Target HAF Resources Consistent with Statutory Requirements?

The Participant must describe how it will target HAF resources in accordance with the HAF guidance. Targeting strategies are affirmative efforts to inform, encourage the participation of, and facilitate access to resources for targeted households, including by offering multiple intake formats, engaging with nonprofit organizations (e.g., housing counselors or legal services organizations) to provide additional pathways into the program, and providing community outreach, partnerships with housing counseling agencies or legal aid organizations, or other educational services that are aligned with the HAF participant’s program design, in a manner that is culturally and linguistically relevant to the targeted communities.

Defining Socially Disadvantaged Individual

Socially disadvantaged individuals is defined on page 10 and 11 within the HAF Administration Plan.
