Treasury approves Hawaii’s plan to invest $109.7 million of CPF funding in broadband infrastructure projects that will provide high-quality internet to locations that lack access to adequate service.

Hawaii’s Capital Projects Fund Program Overview

- **Program Summary**: $109.7 million for Broadband Infrastructure (100% of program allocation)

- **Program Description**: Hawaii will implement two broadband infrastructure programs that aim to provide reliable internet access to households across the state. Hawaii will invest $101.7 million of their CPF award to the Hawaii Subsea Middle Mile Program - a program designed to address the critical middle mile subsea cable infrastructure needed to ensure the islands of Hawaii have reliable, high speed internet access. Hawaii will additionally invest $8 million towards the Hawaii Public Housing Authority (HPHA) Connections Program to upgrade HPHA facilities to provide residents with access to affordable, high-speed internet.
  - Both programs are designed to support internet service with speeds of 100/100 Mbps symmetrical or better to households and businesses upon project completion.
  - Internet service providers utilizing investments funded by CPF will be required to participate in the FCC’s Affordable Connectivity Program (ACP) – a $30 per month subsidy for low-income families.

- **Key State Contact**: The University of Hawaii through a subgrant administered by the Hawaii Department of Budget and Finance
