

Capital Projects Fund Award Fact Sheet

Idaho

Treasury approves Idaho's plan to invest \$120 million of CPF funding in broadband infrastructure projects that will provide high-quality internet to locations that lack access to adequate service.

Idaho's Capital Projects Fund Program Overview

- **Program Summary:** \$120 million for Broadband Infrastructure (93% of CPF allocation)
- **Locations to Be Served:** 35,000 (estimated)
- **Program Description:** The Idaho Broadband Advisory Board (IBAB) Broadband Infrastructure Grant – CPF (BIG-CPF) is a competitive grant program designed to build reliable broadband infrastructure to areas lacking access to internet with speeds of at least 100/20 Mbps. Building off previous CARES Act investments in broadband, Idaho will prioritize fiber investments aiming to connect the greatest number of households to high-speed internet.
 - The program is designed to provide internet service with speeds of 100/100 Mbps upon project completion.
 - Each of the internet service providers funded by the program will participate in the FCC's [Affordable Connectivity Program \(ACP\)](#) – a \$30 per month subsidy for low-income families.
- **Key State Contact:** The Idaho Department of Commerce (IDOC)

As reported by Idaho, estimates show that investments made using the Capital Projects Fund will serve ~23% of locations still lacking high-speed internet access in the state.
