GENERAL OVERVIEW

Executive Summary

The Montgomery County Commissioners Court has allocated American Rescue Plan Act (ARPA) – State and Local Fiscal Recovery Funds (SLFRF) since its inception to address the impact and recovery of the COVID-19 pandemic and address opportunities needed to prepare for future such events in alignment with U.S. Treasury Rules. Of the \$117.96 Million received by the County \$33.79 Million has been encumbered or spent with \$84.17 Million left to be allocated to various strategies for recovery.

As of July 27, 2022, \$33.79 million have been spent or encumbered to address the immediate needs of the county to stop the spread of COVID-19 and respond to the needs of the public during the ongoing public health emergency.

As the county continues to recover from the major effects of COVID-19, the virus continues to be persistent and spread throughout the community exists as of the date of this report. As a result, the County Commissioners Court has methodically utilized SLFRF funds to ensure we have adequate resources to address the pandemic for the entirety of the performance period.

Current major challenges is the rapid spread of the Omicron variant and sub variants that are highly infections and transmissible. This requires constant adjustments to the County's response to help limit impact before additional recovery can move forward. As such, the county's plan for utilizing SLFRF funds in on track and on time.

Uses of Funds

Montgomery County's encumbrance of funds has provided direction to County staff on projects that need to be developed and implemented over the American Rescue Plan applicable period. Each category has specific projects to be developed. A general project identification for the allotments already approved by the Commissioners Court are:

Nursing Staff for Hospitals - \$13.0 Million

The Delta Variant began to become the prevalent strain of COVID-19 in Montgomery during the Month of July 2021. As the surge of patients began to hit our county hospitals, the hospitals became stressed with the larger volume of patients. The need for temporary surge staffing was identified and approved by the Commissioners Court. Contracts with a staffing agency have been approved. As of July 2022 \$13 Million has been spent or encumbered on surge staffing at local hospitals. The project ended in December of 2021 and since such time hospital staffing has been adequate to address the number of COVID-19 patients. Currently a surge of cases is underway and the county will continue to monitor and evaluate the need for staffing within our communities hospitals. At this time surge staffing is not expected to be needed, but it could be should a new variant or sub variant emerges and breakthrough cases increase.

Procurement of Medical Supplies and Protective Equipment- \$ 536,111.20

Montgomery County Commissioners Court has authorized the Montgomery County Office of Homeland Security and Emergency Management to procure any necessary medical supplies and protective equipment needed to address the ongoing pandemic throughout the county. MCOHSEM will identify any needs within the county at all of our first responder organizations both internal and external and support local healthcare facilities as needed on an emergency supply basis.

Behavioral Health Initiative- \$8.75 Million

Montgomery County Commissioners Court has made addressing the ongoing behavioral health crisis a top priority. The court has identified providing funding for our county's mental health authority and provider to increase staffing and provide additional treatment capabilities across the broad spectrum of behavioral health care. Additionally, the Court recognized the immediate need for additional crisis intervention officers to be able to respond to 911 calls for mental crisis. Additional Behavioral Health Initiatives are underdevelopment as of the of this report.

Increased support staff for Sanitizing, Vaccine Distribution and Medical Facilities-
\$100,000

Montgomery County Commissioners Court has previously approved the use of overtime for additional custodial personnel to make additional cleaning rounds throughout county buildings during the business day. In addition to keeping, our buildings sanitized while the public are able to access them each operational day, the court has increased the use of traffic control and crowd control measures at our vaccine distribution events and ongoing Monoclonal Antibodies infusion center. These deputies are there to ensure the safety of patients and staff alike, while keeping traffic moving for ease of use.

Emergency Rental Assistance Administrative Cost- \$40,000

Commissioners Court identified an online application portal, which provides applicants easier access to ERA funds and quicker turnaround for application processing.

Revenue Replacement- \$10 Million

Montgomery County Commissioners Court elected to utilize the standard revenue replacement calculation afforded by ARPA Final Rule. To date the majority of these funds have been unspent and a portion of funds spent to date can be found in the Expenditure Table below.

Unallocated and Under Review - \$84.17 Million

In the midst of the Omicron variant it has become increasingly obvious the needs to continually review the use of ARPA – SLFRF to best address COVID-19 will be required. Montgomery County Commissioners Court wishes to ensure the use of these funds maximize the community's needs to mitigate, respond and recover from the COVID-19 pandemic. Future projects and strategies will be identified in the coming months as the community recovers from another surge caused by the Omicron variant and sub variants.

Promoting equitable outcomes

Commissioners Court has identified one major Clean Water and Sewer project that is under development at this time. This project would highly promote equitable outcomes and serve a large low to moderate income subset of the county. This project was recently identified and has not yet been vetted or relayed to the community for engagement at this time.

Community Engagement

Projects requiring Community Engagement are under development.

Labor Practices

Projects for infrastructure will address labor practices in their plans if identified and awarded by Commissioners Court.

Use of Evidence

Projects in categories requiring an evidence based approach will be provided in the project plans during adoption by Commissioners Court.

Table of Expenses by Expenditure Category

Category		Cumulative expenditures to date (\$)	Amount spent since last Recovery Plan
1	Expenditure Category: Public Health	\$15,135,464.65	\$15,135,464.65
1.1	COVID-19 Vaccination		
1.2	COVID-19 Testing	\$36,790.80	\$36,790.80
1.3	COVID-19 Contact Tracing		
1.4	Prevention in Congregate Settings (Nursing Homes, Prisons/Jails, Dense Work Sites, Schools, etc.)		
1.5	Personal Protective Equipment	\$155,520.87	\$155,520.87
