**Preliminary Annual Report on U.S. Holdings of Foreign Securities  
at Year-End 2022**

WASHINGTON – Preliminary data from an annual survey of U.S. portfolio holdings of foreign securities at year-end 2022 were released today and posted on the Treasury website [here](#). The final survey report, which will include additional detail as well as possible revisions to the data, will be released on October 31, 2023.

The survey was undertaken jointly by the U.S. Department of the Treasury, the Federal Reserve Bank of New York, and the Board of Governors of the Federal Reserve System.

A complementary survey measuring foreign holdings of U.S. securities also is conducted annually. Data from the most recent such survey, which reports on securities held on June 30, 2023, are currently being processed. Preliminary results are expected to be reported on February 29, 2024.

Overall Preliminary Results

The survey measured the value of U.S. holdings of foreign securities at year-end 2022 at approximately \$14.0 trillion, with \$10.3 trillion held in foreign equities, \$3.3 trillion held in foreign long-term debt securities (original term-to-maturity in excess of one year), and \$0.4 trillion held in foreign short-term debt securities. The previous such survey, conducted as of year-end 2021, measured the value of U.S. holdings at \$16.3 trillion, with \$12.1 trillion held in foreign equities, \$3.7 trillion held in foreign long-term debt securities, and \$0.6 trillion held in foreign short-term debt securities.
