

State and Local Fiscal Recovery Funds (SLFRF)

IMPACT STORY TEMPLATE

As recipients roll out their State and Local Fiscal Recovery Funds (SLFRF) projects, Treasury would like to learn about specific projects that recipients consider “impact stories.” These impact stories capture how state and local leaders use one-time, direct emergency funds to make lasting change in their communities. They also highlight how receiving the funds enabled communities to avoid an insuperable crisis, work toward long-term goals while meeting immediate needs, and/or address the needs of underserved people. **These stories may be included in the Treasury SLFRF Anniversary Map, remarks from Treasury officials, the SLFRF Newsletter, and/or other resources that uplift exemplary uses of SLFRF dollars to your recipient peers.**

You may fill out the attached form and return it to SLFRFstories@treasury.gov along with any photo or video supplements you may like to share. Please note that providing details for an impact story is completely optional. Sample questions are provided below to help you craft your narrative, though you may write the story in the manner you choose. If you opt to use this template, all items are not required. Also, this is not considered program reporting data for the purpose of evaluating the SLFRF recipient’s program compliance. While basic details are helpful, please consider submitting additional information to add color to this impact story. When completed, please submit this form with any media (i.e., photos or videos). Prior to using any quote or media, we will let you know and seek your approval for any quote or media that we use. Treasury thanks you for your partnership.
