## GENERAL OVERVIEW

### **Executive Summary**

Due to the COVID-19 public health emergency, the Westmoreland County Board of Commissioners have methodically allocated millions of dollars in federal, state, and local assistance to small businesses, municipal governments, fire departments, and nonprofits within the county to mitigate the spread of COVID-19 and assist those who were negatively impacted by the pandemic.

The American Rescue Plan Act allocated a total of \$105.3 million in State and Local Fiscal Recovery Funds (SLFRF) to Westmoreland County. In May 2021, Westmoreland County received the first half of these funds in the amount of \$52.6 million with the second half received in July 2022. The Westmoreland County Board of Commissioners have judiciously reviewed the Interim Final Rule and have focused the last several months on methodically developing a spending plan for these funds. Several meetings were held to determine the greatest need for these funds, and those meetings will continue to take place until all SLFRF are allocated appropriately.

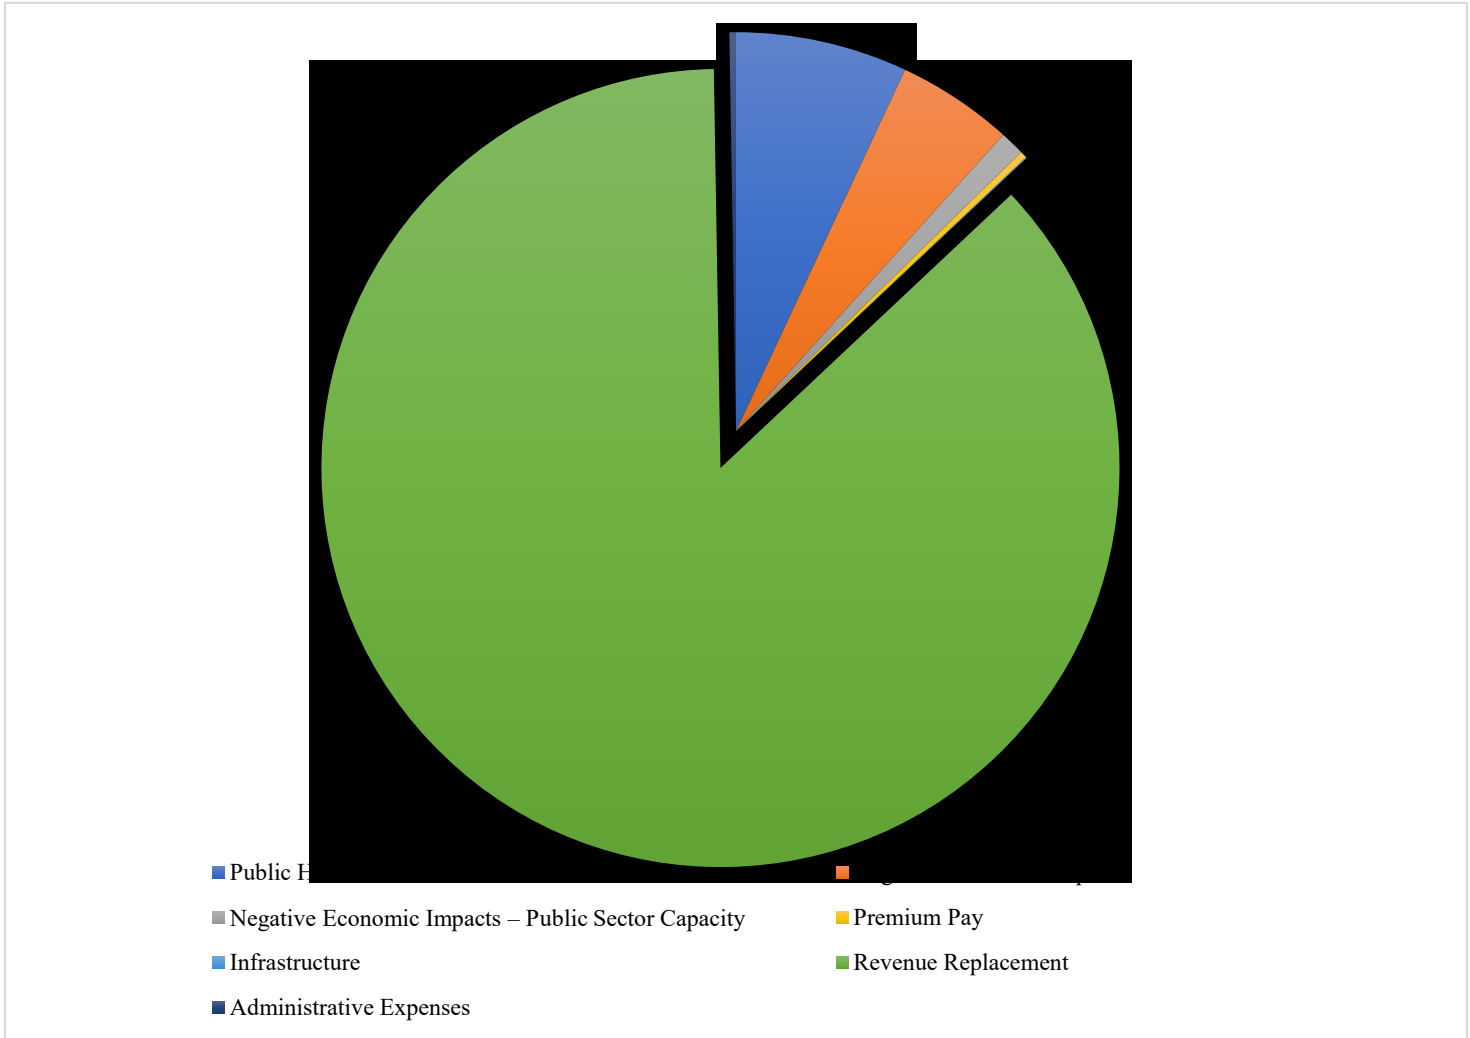

Through June 30, 2024, Westmoreland County has obligated over \$93 million and expended \$43.5 million of the SLFR funds. This includes, but is not limited to, a food insecurity program, a human services grant program, a vacant and abandoned building demolition and rehabilitation program, cyber security software, public safety communication equipment and administrative costs. More information on projects can be found beginning on page 15 of this report under the Project Inventory section.

## Uses of Funds

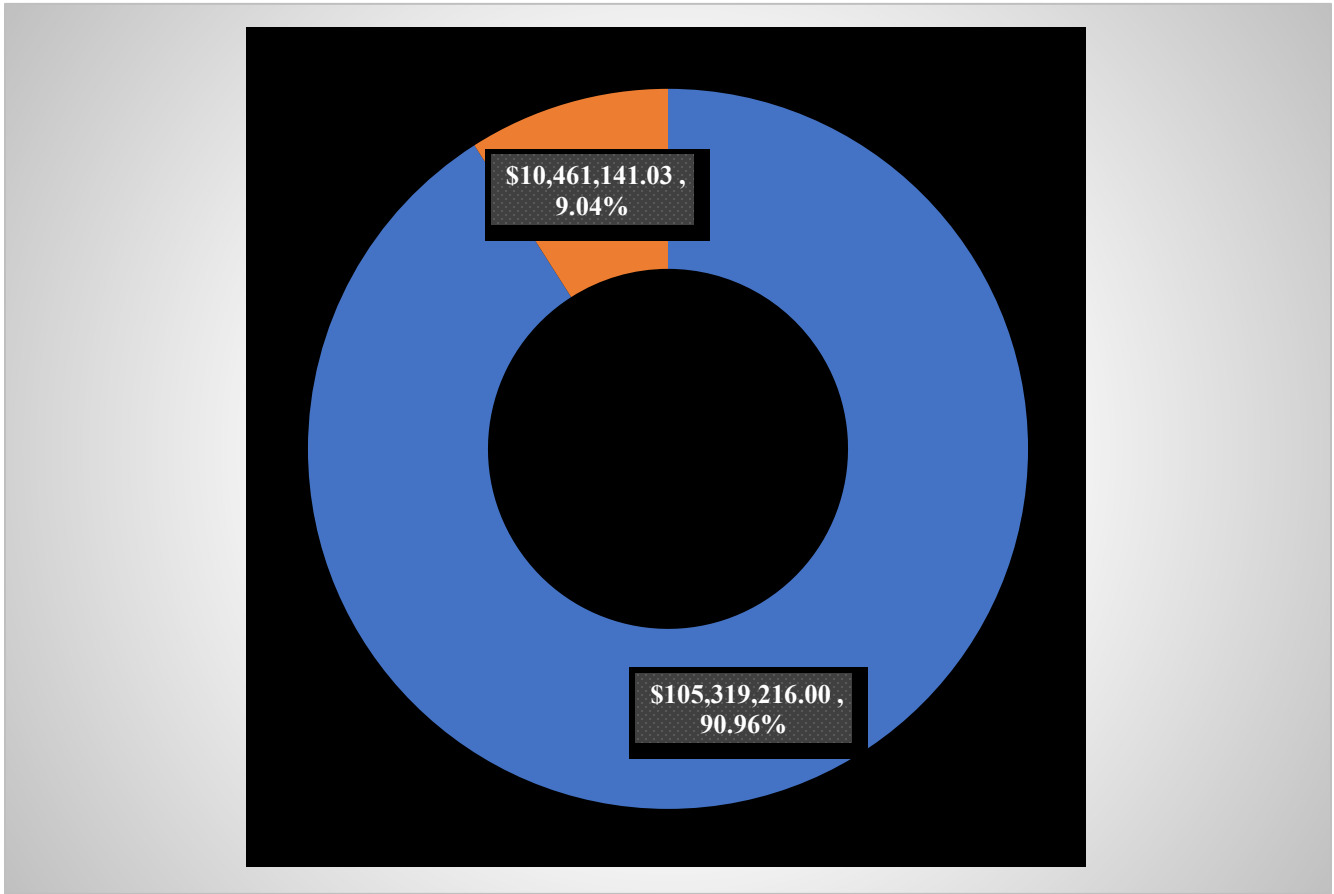

As indicated in the executive summary, from the time of award to June 30, 2024, \$94,858,074.97 of SLFR funds have been obligated. A breakdown by expenditure category is as follows:

<b>Expense Category</b>	<b>Expense Category</b>	<b>Total Aggregate Obligations</b>	<b>Total Aggregate Expenditures</b>
EC1	Public Health	\$6,603,973.97	\$6,015,244.83
EC2	Negative Economic Impacts	\$4,471,500.00	\$1,219,793.38
EC3	Negative Economic Impacts – Public Sector Capacity	\$949,000.00	\$474,500.00
EC4	Premium Pay	\$257,780.32	\$257,780.32
EC5	Infrastructure	\$39,150.00	\$39,150.00
EC6	Revenue Replacement	\$82,284,887.18	\$35,296,639.26
EC7	Administrative Expenses	\$251,783.50	\$251,783.50
	<b>TOTAL</b>	<b>\$94,858,074.97</b>	<b>\$43,554,891.29</b>

### Total Aggregate Obligations by Expense Category

As of June 30, 2024, \$10,461,141.03 in SLFR Funds remain unobligated.

The following is a list of eligible uses either in progress or under deliberation by the Board of Commissioners.

**Public Health – EC1:**

An undetermined portion of the SLFRF will be allocated towards public health and COVID-19 pandemic response, including public safety communication equipment, personal protective equipment, and other public health expenses.

## **Negative Economic Impacts – EC 2:**

Westmoreland County is home to many high-performing provider agencies working tirelessly to meet the needs of the county’s most vulnerable citizens. To meet the increasing demand for human services, the County Commissioners will consider increasing provider capacity to ensure they are fully equipped to meet the evolving complex needs of a growing number of vulnerable people. Those citizens, small businesses, and non-profits of the county who have experienced negative economic impact are in need of assistance in recovering from the COVID-19 pandemic. The effect of a shrinking budget is further exacerbated by the impact of the COVID-19 pandemic on service providers. An average of 87 percent of nonprofits experienced negative financial impact in contrast while 36 percent reported an increase in demand for services (The Pittsburgh Foundation; United Way of Southwestern Pennsylvania).<sup>2</sup> A Negative Economic Impacts program currently under way is the Food Insecurity Program with the Westmoreland County Foodbank.

1 Westmoreland County 2018 Comprehensive Plan: Reimagining Our Westmoreland

2. 2021 Human Services Study: Improving Human Services in Westmoreland County, The Hill Group

Housing and shelter services for individuals who are, or are at risk of becoming, homeless seem to be acutely low, possibly with fewer emergency beds and transitional housing options than any other county of our size and scope (The Pittsburgh Foundation). Officials from United Way of Southwestern Pennsylvania’s 2-1-1 service noted that up to two-thirds of the 1,300 calls received by staff in January 2021 were related to housing or rental assistance. This conflict in increasing demand and inadequate levels of service as indicated by a provider survey, which was conducted in 2020, presents significant issues to the County’s ability in being able to meet resident needs.<sup>2</sup> Funds from the American Rescue Plan Act’s Emergency Rental Assistance Program (ERAP) are currently being used to address this growing concern.

### **Project: Food Insecurity Program**

The Westmoreland County Foodbank works diligently to support Westmoreland County families and individuals so that they do not need to make the difficult decision as to whether they must sacrifice food over other pressing needs. However, the onset of the COVID-19 pandemic in Southwestern Pennsylvania increased the demand for food from the Food Bank exponentially. \$4,471,500 of ARPA State and Local Fiscal Recovery Funds have been obligated to the Food Bank to address identified needs such as technology improvement to improve access and to better serve consumers in need, expansion of the Food Bank’s current location to include a volunteer center and updated cooler, programmatic funding to End Hunger in Westmoreland County such as a Farmer’s Truck to distribute fresh produce in areas of need throughout the County and support for the Summer Food Services Program (SFSP), which provides meals where free and reduced lunches leave off at the school year’s end. Through June 30, 2024, the Food Bank has spent \$992,613.45 of funds and used these funds towards items including the following:

<b>Program Description</b>	<b>Amount Spent</b>
Technology/Website/Volunteer Software	\$ 11,308.92
Inventory System	\$ 3,126.00
Social Media	\$ 16,500.00
Feasibility Study	\$ 50,000.00
Expansion Warehouse & Volunteer Center	\$ 26,580.00
Development Assessment	\$ 7,500.00
Data Specialist	\$ 39,439.35
Farmer's Truck/Mobile Market	\$ 120,965.45
Summer Food Service	\$ 60,000.00
Fill a Glass with Hope	\$ 260,000.00
Boxes	\$ 154,894.73
Marketing	\$ 92,299.00
Tractor	\$ 150,000.00
<b>Total</b>	<b>\$ 992,613.45</b>

**Public Health – Negative Economic Impact: Public Sector Capacity - EC 3:**

Another area that the Westmoreland County Commissioners will take into consideration is the negative economic impacts to the public sector capacity.

In October 2022, the Board of Commissioners approved an agreement in the amount of \$949,000 with the Westmoreland County Forum for Workforce Development (The Forum), a standing sub-committee of the Economic Growth Connection (EGC) of Westmoreland, for a Workforce Development program.

**Project: Workforce Development**

Through this program, the ECG aims to develop and execute a comprehensive workforce development plan for the county, aimed at engaging our future workforce, helping to steer them towards careers that will positively impact Westmoreland County.

Regional Pathway System (\$250,000) - The Forum for Workforce development will create a regional pathway system to provide clarity and equity of experience to the students, parents and educators of Westmoreland County including Business & Finance, Information Technology, Engineering & Production, Health Sciences, and Construction.

Internships - An Internship Is defined as any official or formal program, or period, in which a beginner acquires practical experience in an occupation, profession or pursuit. The internship program proposed to remedy the lack of local manufacturing/industrial internships in the region include:

- Create Internship Coordinator position to lead all aspects of growing and supporting all Internship-related processes with regional High Schools, Career and Technology Centers and Post-Secondary institutions.
- Create an internship model based on criteria gathered from established school guidelines and proven best practices based off, already established/successful, internship programs with local businesses.
- The Forum for Workforce Development has the infrastructure to be a primary resource for internship communications between affiliated businesses and schools via the Careerhub and will offer these services for businesses to advertise all open/available positions and students to use as a search element.
- To get the word out about the Importance and successes of Internships we plan to advertise to local businesses the Importance of Internships via marketing collateral and provide guidance through meetings and other means of communication.

Westmoreland County Forum for Workforce Development Leadership and Program Development Support Educational Leadership and Innovation Consultants - A group of Nationally Recognized School Leaders will work directly with Westmoreland County Forum for Workforce Development and School District Cabinet-Level leadership in developing Career and Life-Preparing programs. The program involves five distinct phases and an ongoing new leader support system:

Phase One- Input and Analysis (\$40,000)

Phase Two- Leadership Development and Visioning (\$51,000)

Phase Three- Leadership Mentoring (\$90,000)

Phase Four- District-Level Regional Leadership Retreats and Action Planning (\$45,000)

Phase Five- Progress Analysis, Course Adjustment, and Action Planning Summer Retreat (\$45,000)

Miscellaneous Expenses- (\$20,000)

Phase Six: Sustainability (\$105,500 per Year)

As of June 30, 2024, the Economic Growth Connection has received \$474,500 of their \$949,000 obligation and has expended \$494,420 on the Westmoreland Workforce Development Plan and all funds have been obligated. They're expected to receive the remainder of their funds in the third quarter of 2024.

## **Infrastructure – EC 5:**

Westmoreland County Commissioners are considering spending a portion of the SLFRF funds towards regional broadband. A 2018 Comprehensive Plan listed broadband to be a key core objective in Westmoreland County. In this modern age, the internet is an increasingly integral part of nearly every aspect of life<sup>1</sup>, particularly with the rise in remote work, learning, and healthcare. Per the Commonwealth: "High speed internet access is essential to growing our economy, expanding educational opportunities for our children, increasing access to modern healthcare, and improving the safety of our communities. [The goal is to] close the digital divide ensuring every citizen and business has the access it needs to connect to the ever-expanding digital world in which we live and work."

In May 2022, the Board of Commissioners approved a contract with Michael Baker International, Inc. to assist in the targeted expansion, construction, and deployment of broadband infrastructure and service in Westmoreland County. As of June 30, 2024, \$39,150 of SLFRF has been obligated and expensed towards this contract. A total of \$15 million has been set aside in the SLFRF plan towards Broadband expansion in the County. The remainder of these funds, however, are obligated in the Revenue Replacement expense category.

During the summer of 2022, Westmoreland County launched a collaborative research initiative aimed at analyzing the County's current broadband infrastructure to develop a comprehensive approach to aid in planning efforts for connecting residents and businesses with high-speed, affordable internet access. As part of this research, existing infrastructure was inventoried to establish the location of unserved locations and field crews distributed door hangers to homes and businesses inviting them to take part in a broadband survey and speed test.

In the Spring of 2023, Westmoreland County issued a Request for Proposals (RFP) to enter into an Agreement with the County for Early Action Projections for the Expansion of Broadband Utilities and Service. After the completion of Westmoreland Broadband's Data Collection and Feasibility Study, it was determined to move forward in four project areas for early action. The four Early Action areas of Fairfield Township, Derry/Gray Station Road, Derry Township, and Ligonier/Waterford. The purpose of the RFP was to assist in the targeted expansion, construction, and deployment of broadband infrastructure and service to areas of the County that do not have access to the internet, or whose connection is insufficient to carry out everyday tasks. Not only is the County interested in expanding the network to those in need, but it is also looking to address affordability to ensure that access can be achieved at a reasonable cost.

The results of the Data Collection and Feasibility Study completed in January 2023 can be found on the Westmoreland County project website <https://westmorelandbroadband.org/>.

## **Intended Outcomes**

The County recognizes the importance that internet access plays in everyday life and the investment in the infrastructure needed to expand or enhance broadband connectivity in underserved areas. Aggressively expanding and enhancing the County's technology infrastructure will work to close the digital divide.<sup>1</sup>

In 2020, prior to the pandemic effecting Westmoreland County, a regional broadband study was conducted to determine where internet access expansion is necessary, particularly in many rural areas of the County creating a digital divide. The pandemic has made affordable, dependable internet access mission critical to daily life to allow County residents to safely attend school, work, appointments and activities, connect with friends and family, or access information from critical resources from the safety of their own home. The contract with Michael Baker International, Inc. will provide Westmoreland County with solutions to gain efficiencies in broadband program management, planning, mapping, and deployment.

### **Goals**

The strategy to expand broadband services throughout the county, with the largest focus being in rural areas of the county, would be to partner with municipalities, school districts, and other counties to expand broadband infrastructure. As with many other disparities, the pandemic emphasized an already uneven playing field and the goal is to bring those underserved communities up to the same level as those areas with strong connectivity.

### **Revenue Replacement – EC 6**

Revenue replacement, expenditure category 6, is being considered by the Westmoreland County Board of Commissioners to recover lost revenues due to the COVID-19 public health emergency and allocate those funds towards provision of government services. The calculation provided by the Treasury Final Rule will be used to determine the estimated amount of reduction in revenue annually. Using 2019 as the base year for general revenue, revenue loss calculations total a loss of over \$93.8 million.

**Project:** Vacant and Abandoned Building Demolition and Rehabilitation Program

**Funding Amount:** \$10,400,00.00

**Project Overview:** The Redevelopment Authority of the County of Westmoreland and Westmoreland County Land Bank (collectively referred to as RA/LB throughout) will carry out eligible activities related to Vacant and Abandoned Buildings according to the Final Rule on the use of ARPA SLFRF funds. In the case of Westmoreland County, these activities will be conducted within Qualified Census Tracts for 2022 as identified in HUD’s 2021 and 2022 Small DDAs and QCTs map viewer here:

[https://www.huduser.gov/portal/sadda/sadda\\_qct.html?locate=42129800100.](https://www.huduser.gov/portal/sadda/sadda_qct.html?locate=42129800100)

In particular, the following Qualified Census Tracts are organized by municipality:

Arnold City: 42129800100, 42129800300

New Kensington City: 42129800700, 42129800600

Jeannette City: 42129802800 (portion in Jeannette City)

Penn Borough: 42129802800 (portion in Penn Borough)

Monessen City: 42129805200, 42129805400

Greensburg City: 42129804100, 42129804000

Vandergrift Borough: 42129801600

The project will generally follow discrete, yet overlapping phases, depending on the type of activity, whether demolition or rehabilitation.

**Demolition Activities Outputs:** Demolish roughly 320 vacant, abandoned, and blighted buildings out of a potential 511 properties.

**Demolition Activities Outcomes:** Strong relationships between the quality of one's neighborhood built environment have been established through the Center for Disease Control and Prevention's Social Determinants of Health<sup>1</sup>, and research into the effect of vacant lot greening on mental health<sup>2</sup>, and targeted, structural housing repairs on crime<sup>3</sup>. The RA/LB's efforts to remove vacant, abandoned, and dangerous buildings from Qualified Census Tracts will surely improve the quality of the built environment.

**Rehabilitation Activities Output:** Rehabilitate up to six multi-story, mixed-use, buildings to reposition them for private investment.

The RA/LB's efforts to remove vacant, abandoned, and dangerous buildings from Qualified Census Tracts will surely improve the quality of the built environment.

**Rehabilitation Activities Phases:**

Phase I Activity Identification: To date, all seven communities which have Qualified Census Tracts have conducted comprehensive vacant, abandoned, blighted, and/or tax delinquent property inventories. From this list, municipal officials identified larger, multi-story, mixed-use buildings that have value for redevelopment purposes.

Phase II Activity Assessment and Clearance: All potential rehabilitation activities will undergo a multifaceted assessment of a buildings value for reuse, feasibility, financial analysis, market analysis, alternatives analysis, return on investment analysis, and historical/architectural value analysis. Activities which rank highly will be selected to move on to the next phase.

Phase III Activity Acquisition: Properties selected in the previous round will be acquired through various means including:

- donation by owner
  - delinquent property tax sales by the Land Bank
  - market purchase
  - Conservatorship pursuant to Pennsylvania Act of Nov. 26, 2008, P.L. 1672, No. 135
- Phase IV Construction: Construction scopes, timelines, and funding sources will be designed. Bid packages will be developed and awarded to the lowest responsible bidder.
- Phase III Activity Closeout: All bid documents, contracts, photographs, and other documentation will be organized and housed for reporting purposes.

**Progress Report:**

As of June 30, 2024, 206 projects that have not started. There are 41 projects in process. And there are 152 projects that are complete. A total of \$3,185,933.90 has been spent cumulative to date. A total of \$784,662.00 has been committed but not yet expended. The RACW has received \$5.2 million of their \$10.4 million obligation.

**Project: Municipal Water and Sewage Program**

\$10 million in funding was allocated towards a municipal water and sewer program for publicly owned water and sewer systems in Westmoreland County. Critical water and sewer projects were prioritized based on those that have a positive and substantial impact on affordable housing, economic recovery, and public health. Awards for the Municipal Water and Sewage Program were announced at the June 22, 2023 Commissioners’ Public Meeting:

## **Project: NKAMP, LLC.**

An agreement with the New Kensington Advanced Manufacturing Park (NKAMP) was approved on the May 11, 2023 Commissioners' Public Meeting. This agreement, for \$1 million, will invest in the development and modernization of the project to transform a nearly 70-acre property in the Alle-Kiske Valley area to establish a 175,000-square-foot manufacturing operation in the park.

### **Promoting Equitable Outcomes**

Westmoreland County Commissioners recognize the unique identities, backgrounds, and cultures of the residents of the County. Especially in educational institutions, workplaces and the community, there's a desire to embrace diversity and create equity. Through public engagement, efforts will be made to listen to all residents, regardless of race, gender, sexual orientation, etc. equally and equitably. Everyone's voice will be heard with respect.

### **Community Engagement**

The Westmoreland County Board of Commissioners will take feedback received from their constituents under consideration along with the survey on the County's website, which allows stakeholders to prioritize allowable expenditure categories. The online SLFRF survey can be found at <https://www.co.westmoreland.pa.us/ARPAsurvey>. Commissioners also held a public hearing to promote community engagement and input and continue to receive public comment at all Commissioners' Public Meetings, either delivered electronically or in person.

### **Labor Practices**

Workforce practices on any infrastructure (EC 5) projects being pursued will follow the prevailing Pennsylvania Wage Requirements, as determined by the Pennsylvania Secretary of Labor and Industry. At this time, the County does not have projects in this category but will determine workforce practices on infrastructure projects being pursued (EC 5) using strong labor standards to promote effective and efficient delivery of high quality infrastructure projects while also supporting the economic recovery through strong employment opportunities for workers.

Additional labor standards will be implemented at the discretion of the Westmoreland County Board of Commissioners.

### **Use of Evidence**

Evidence-based interventions and/or if projects are being evaluated through rigorous program evaluations that are designed to build evidence are unidentified.

Westmoreland County will utilize evidence-based interventions and program evaluations, where appropriate and required.

## **Performance Report**

Westmoreland County will report both key performance indicators and progress-to-date on chosen indicators on its 2024 Recovery Plan Performance Report. This will include both self-selected and mandatory performance indicators required by Treasury and specific to an expenditure category.

## **Required Performance Indicators and Programmatic Data**

At this time, Westmoreland County does not have any expenditures in categories that require this data, therefore, no data is required to be submitted.

## **Project Inventory**

### **Project Name: Cisco Cybersecurity Part III**

Project Identification Number CFRF1.4 Cisco Refresh P3

Project Expenditure Category 1-Public Health

Project Expenditure Subcategory

1.4-Prevention in Congregate Settings (Nursing Homes, Prisons/Jails, Dense Work Sites, Schools, Child care facilities, etc.)

Adopted Budget \$220,395.00

Total Cumulative Obligations \$220,394.30

Total Cumulative Expenditures \$220,394.30

Project Description: Due to an increased amount of remote work and virtual meetings, cybersecurity concerns are met by putting the Cisco infrastructure into place. This project is to update various Cisco Infrastructure throughout the county to modernize cybersecurity and protect critical infrastructure. We have some equipment that has either gone “end-of-support” or will be in the near future, as outlined below. Once this happens, the vendor (Cisco) no longer provides security updates for the hardware, putting us at a cyber-security risk in continuing to use it.

### **Project Name: Community Foundation Admin**

Project Identification Number CFRF7.1

Project Expenditure Category 7-Administrative

Project Expenditure Subcategory 7.1-Administrative Expenses

Status To Completion Completed 50% or more

Adopted Budget \$90,000.00

Total Cumulative Obligations \$90,000.00

Total Cumulative Expenditures \$90,000.00

Project Description: The Community Foundation of Westmoreland County will manage a \$3,000,000 grant application and review process dedicated to Human Services to enable organizations to apply for funding in the areas of crisis behavioral health and transitional housing, and other human services needs in Westmoreland County.

**Project Name: 911 Tower Batteries**

Project Identification Number CFRF1.7 Tower Batteries

Project Expenditure Category 1-Public Health

Project Expenditure Subcategory 1.7-Other COVID-19 Public Health Expenses (including Communications, Enforcement, Isolation/Quarantine)

Status To Completion Completed 50% or more

Adopted Budget \$1,199,211.00

Total Cumulative Obligations \$1,199,211.00

Total Cumulative Expenditures \$991,837.52

Project Description: Replacement of public safety tower site batteries that no longer hold a charge and will cause the tower site to go down in case of a power outage causing safety issues with all first responders who will be unable to communicate.

**Project Name: MDJ Deep Cleaning**

Project Identification Number CFRF1.4 MDJ 10-1-03 Clean

Project Expenditure Category 1-Public Health

Project Expenditure Subcategory 1.4-Prevention in Congregate Settings

Adopted Budget \$7,930.00

Total Cumulative Obligations \$7,930.00

Total Cumulative Expenditures \$7,930.00

Project Description: Deep cleaning and sanitization of public magisterial district justice office due to air test results, which recommended commercial air duct cleaning and deep cleaning and sanitization of the entire building.

**Project Name: HVAC Donahue MDJ 10-1-01**

Project Identification Number CFRF1.4 MDJ 10-1-01

Project Expenditure Category 1-Public Health

Project Expenditure Subcategory 1.4-Prevention in Congregate Settings

Adopted Budget \$9,767.00

Total Cumulative Obligations \$9,767.00

Total Cumulative Expenditures \$9,767.00

Project Description: Installation of Trane 4YCC4048 Air Conditioner at Magisterial District Justice office.

**Project Name: ECG Workforce Development**

Project Identification Number CFRF3.3 EGC

Project Expenditure Category 3-Public Health-Negative Economic Impact: Public Sector Capacity

Project Expenditure Subcategory 3.3-Public Sector Workforce: Other

Adopted Budget \$949,000.00

Total Cumulative Obligations \$949,000.00

Total Cumulative Expenditures \$474,500.00

Project Description: The Economic Growth Connection aims to develop and execute comprehensive Workforce development plan for Westmoreland County, aimed at engaging our future workforce, helping to steer them towards careers that will positively impact Westmoreland County:

- Development of a regional pathways system
- Creating internships for students so they may see firsthand all the county has to offer them through a work-based learning experience
- Consulting with a Consortium of National Superintendents to ensure career education success within the county.

**Project Name: Advizex Technologies, Backup Solution 22**

Project Identification Number CFRF 1.4 Advizex  
Project Expenditure Category 1-Public Health  
Project Expenditure Subcategory 1.4-Prevention in Congregate Settings (Nursing Homes, Prisons/Jails, Dense Work Sites, Schools, Child care facilities, etc.)  
Adopted Budget \$12,693.44  
Total Cumulative Obligations \$12,693.44  
Total Cumulative Expenditures \$12,693.44  
Project Description: Communications hardware for a cohesive backup solution

**Project Name: Broadband Michael Baker**

Project Identification Number CFRF5.21 Broadband MB  
Project Expenditure Category 5-Infrastructure  
Project Expenditure Subcategory 5.21-Broadband: Other projects  
Status To Completion Completed  
Adopted Budget \$40,000.00  
Total Cumulative Obligations \$39,150.00  
Total Cumulative Expenditures \$39,150.00  
Project Description: Michael Baker will assist Westmoreland County in developing two (2) additional Early Action (EA) projects for deployment. GIS analysis of existing data sets, both geographic and socioeconomic, will be reviewed to identify numerous draft EA areas most in need of broadband service. GIS Analysts will select numerous draft areas based on broadband need, and will develop the project area polygons and their address-based locations. Each draft area will be created and scored according to various metrics, altered as needed, then the final two areas will be proposed.

**Project Name: Webex for Jury Services**

Project Identification Number CFRF 1.4 Webex Jury  
Project Expenditure Category 1-Public Health  
Project Expenditure Subcategory 1.4-Prevention in Congregate Settings  
Adopted Budget \$2,250.00  
Total Cumulative Obligations \$2,242.09  
Total Cumulative Expenditures \$2,242.09  
Project Description: Webex is needed in the Jury Service Center so the judge can simulcast with jurors from the courtroom.

**Project Name: Teleosoft**

Project Identification Number CFRF 1.4 Teleosoft  
Project Expenditure Category 1-Public Health
