*Some recipients were eligible to receive funding under multiple recipient types (e.g. metro city and NEU), and thus, may appear multiple times across tables.

**The \$179,795,867.88 decrease between the original NEU aggregate allocation and the NEU aggregate distribution is attributed to the following:

- NEUs that transferred funds to their respective state as permitted under section 603(c)(4) of the Social Security Act.
- NEU 75 percent budget cap returns as required under section 603(b)(2)(C)(iii) of the Social Security Act.
- NEU unclaimed funds or allocations to NEUs that were otherwise considered non-responsive.
- Return of funds for NEUs that initially accepted an SLFRF award, received funds, and later decided to decline the award.
- Miscellaneous returns for erroneous NEU distributions.

More information about these NEU transaction types can be found on the Treasury webpage here: <https://home.treasury.gov/system/files/136/Treasury-Award-Redirect-Portal-Instructions.pdf>

***NEUs are local governments typically serving populations of less than 50,000. NEUs include cities, villages, towns, townships, or other types of local governments. For NEUs that have a Recipient Name that is exactly the same as another NEU recipient, Treasury has included ZIP codes from the entity's SAM registration and/or mailing address at the end of the Recipient Name to distinguish between entities.

****NEUs received SLFRF payments from their applicable state government. NEUs that did not receive these funds and/or disagree with the allocation amount reported should contact their state point of contact.

*****This is the most recent disbursement data as of 3/1/25. These amounts are subject to change as recipients return unobligated/unexpended funds or elect to return funds voluntarily.
