*Some recipients were eligible to receive funding under multiple recipient types (e.g. metro city and NEU), and thus, may appear multiple times across tables.

**The \$0.88 increase between the non-UGLG aggregate allocation and the non-UGLG aggregate disbursement is attributed to rounding errors by states when calculating the UGLG distributions based on population share of the non-UGLG county's population using the provided calculation methodology.

***The "Non-UGLG" designation refers to funds that were appropriated to counties that were not units of general local government (or "non-UGLGs"), as described at 42 U.S.C. 803(b)(3)(B)(ii). The statute provided that funds allocated to such entities would instead be paid to the State in which such county is located, and the State would distribute the amount to each unit of general local government within such county based on the statutory formula. Treasury published guidance explaining that eligible recipients of non-UGLG allocations were metropolitan cities and NEUs within the non-UGLG counties. For clarity and to avoid double counting, the data shows non-UGLG allocations and payments separate from the county data. More information about non-UGLG guidance and distributions can be found on the Treasury webpage here:

https://home.treasury.gov/system/files/136/Treasury_CLFRF_NonUGLGGuidance.pdf

****This is the most recent disbursement data as of 3/1/25. These amounts are subject to change as some recipients may elect to withdraw from the program and return funds voluntarily.
