Total Net Cost (Income) of Operations		\$ 294,607,720.77	\$ (3,213,086,976.31)

See accompanying notes to financial statements.

EXCHANGE STABILIZATION FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Current Month and Fiscal Year Periods Ending August 31, 2023

Note: Starting October 2022, the ESF changed its Monthly financial statements to better align with the presentation of its annually audited financial statements. In addition to the change in format, assets that were previously presented at cost are now presented at fair value.

1.) Fund Balance with Treasury (FBWT) of \$2.2 billion will be used to fund adjustments to subsidy costs and repay borrowing from Treasury for loans and investments made under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Treasury received \$4 million primarily due to previously accrued interest collections on various program loans resulting in an increase in the ESF's FBWT during August 2023 (See footnote 4). Also, in accordance with the CARES Act, any excess amounts from the final distributions from our loans and investments after repayment of appropriations and borrowings will be deposited into the Federal Old-Age and Survivors Insurance Trust Fund (OASI) established under the Social Security Act.

2.) Foreign Currency and Foreign Currency Denominated Assets (FCDAs) represent deposits and investments in foreign government securities denominated in both euro and yen, that have original maturities of three months or less. Some of these instruments may have been purchased at a premium and others may have been purchased at a discount. Premiums (that are amortized) and discounts (that accrete) are allocated to expense (amortization expense) and revenue, respectively, over the life of the instrument. Other Investments are FCDAs that have maturities of greater than three months. Foreign Currency and FCDAs and Other Investments are reported at fair value. Valuation adjustment(s) are recorded as gains or losses on the statement of net cost on a monthly basis. See Table #1 for a breakdown by currency.

3.) The Special Drawing Rights Act of 1968 authorizes the United States to purchase and hold Special Drawing Rights (SDRs) through the ESF. In August 2023, Treasury, through the ESF, purchased SDR 610 million from the Bank of International Settlements (BIS) and SDR 375 million from Uzbekistan in exchange for approximately \$1.3 billion. As of August 31, 2023, U.S. SDR Holdings were SDR 123 billion.

4.) The ESF has made economic recovery program loans using CARES Act appropriated funds and borrowings. Treasury's authority to disburse loans for these programs has expired. During August 2023 outstanding loans decreased by \$4 million primarily as a result of accrued interest collections on various program loans. Loan receivables are reported as the net present value of the estimated future cash flows which is updated annually.

5.) As of August 31, 2023, three of Treasury's initial six economic recovery programs with the Federal Reserve Banks of New York and Boston remain. On November 17, 2021, Treasury and the applicable Federal Reserve Banks amended and restated the limited liability company (LLC) agreements governing Treasury's investments in each of the Municipal Liquidity Facility (MLF), the Main Street Lending Program (MSLP), and the Term Asset-Backed Securities Loan Facility (TALF) to, among other things, provide for regular distributions to Treasury of the amounts by which Treasury's investment in each of TALF and MLF exceeds the facility's portfolio value, or the amount by which Treasury's investment in MSLP exceeds the original price paid for the loan participations held in the facility. There were no collections from Treasury's investment in MLF, MSLP or TALF during the month of August 2023. The Money Market Mutual Fund Liquidity Facility (MMLF), the Commercial Paper Funding Facility (CPFF) and the Corporate Credit Facilities (CCF) programs have been terminated and unwound in accordance with their terms. The remaining investments are reported at fair value which is updated annually. Treasury has fulfilled its funding commitments with respect to investments made pursuant to the CARES Act.

6.) Debt represents borrowings from Treasury through the Bureau of Fiscal Service (BFS) that were used, along with the appropriated fund balance, to fund the economic recovery program investments and loans authorized under the CARES Act. Collections from investments and cash collected from loan repayments are primarily used to repay debt. There were no debt repayments during the month of August 2023. The balances at the end of August 2023 are \$3.0 billion for the MLF, \$1.1 billion for the TALF, \$11.9 billion for the MSLP, \$215 million for Passenger Air Carriers, \$19 million for Cargo Air Carriers, and \$650 million for National Security and Defense Business (NSD).

7.) The ESF has an exchange stabilization agreement with Mexico for \$9 billion; this agreement was renewed in November 2022 for an additional year. No drawings are outstanding under this agreement.

8.) Foreign currency denominated assets and liabilities are revalued daily -- and reported monthly -- to reflect fluctuations in market exchange rates. These fluctuations in market exchange rates are reported in the Statement of Net Cost as either Losses or Gains on "Currency Valuation and Other." This gain or loss is unrealized to the Exchange Stabilization Fund until such time as the Fund sells the currency.

9.) Up to \$100 million of the funds appropriated by the CARES Act to the ESF is authorized to make payments for administrative expenses incurred in connection with loans, loan guarantees, and other investments authorized under the CARES Act.

10.): The reduction in the Costs of Investments and Credit Program Receivables of \$780 million reflects the revaluation of the assets approved in the President's Budget.
