EXCHANGE STABILIZATION FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Current Month and Fiscal Year Periods Ending February 28, 2026

1.) Fund Balance with Treasury (FBWT) of \$200 million will be used to fund adjustments to subsidy costs and to repay borrowings from Treasury needed to finance investments and loans made under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). In accordance with the CARES Act, any excess amounts from the final distributions from our investments and loans after repayment of appropriations and borrowings will be deposited into the Federal Old-Age and Survivors Insurance Trust Fund (OASI) established under the Social Security Act. During February 2026, Treasury received \$5 million of principal and interest collections from various program loans and proceeds from the sale of warrants (See footnote 4) resulting in an increase in FBWT.

2.) Foreign Currency and Foreign Currency Denominated Assets (FCDAs) represent deposits and investments in foreign government securities, denominated in euro and yen, that have original maturities of three months or less. Other Investments are FCDAs that have maturities of greater than three months. Some of these instruments may have been purchased at a premium and others may have been purchased at a discount. Premiums (that are amortized) and discounts (that accrete) are allocated to expense (amortization expense) and revenue, respectively, over the life of the instrument. Treasury rebalances the portfolio between Foreign Currency and FCDAs and Investments from time-to-time based on its evaluation of its projected liquidity needs and interest revenues. During February 2026, Foreign Currency and FCDAs increased by roughly \$6 million primarily due to valuation adjustments resulting from changes in foreign exchange rates, net of coupon interest collections from long-term investments reinvested in FCDAs. Other long-term Investments decreased by roughly \$79 million primarily due to valuation adjustments resulting from changes in foreign exchange rates and fair value. Overall, the net loss on the portfolio for February 2026 was roughly \$97 million (see Table 2). Foreign Currency and FCDAs and Other Investments are reported at fair value. Valuation adjustment(s) are recorded as gains or losses on the statement of net cost on a monthly basis (See Table #1 for a breakdown by currency).

3.) The Special Drawing Rights Act of 1968 authorizes the United States to purchase, sell, and hold Special Drawing Rights (SDRs) through the Exchange Stabilization Fund "ESF". There were no SDR purchases or sales by Treasury during February 2026. As of February 28, 2026, U.S. SDR Holdings were SDR 127 billion. Changes in SDR Holdings reflects changes in the foreign exchange rate, net of interest collections on SDR Holdings and Allocations in the amount of \$115 million, and remuneration received from the United States position in the International Monetary Fund in the amount of \$195 million. Changes in SDR Allocations reflect changes in the foreign exchange rate.

4.) The ESF has made economic recovery program loans using CARES Act appropriated funds and borrowings. Treasury's authority to disburse loans for these programs has expired. During February 2026 outstanding loans decreased by \$5 million as a result of principal and interest collections on loans and proceeds from the sale of warrants (See footnote 1). Loan receivables are reported at the net present value of the estimated future cash flows which is updated annually.

5.) As of February 28, 2026, only one of Treasury's initial six economic recovery programs established under the CARES Act with the Federal Reserve Banks of New York and Boston remains. The Main Street Lending Program (MSLP) provides for regular distributions of the amount by which Treasury's investment in MSLP exceeds the amount needed to support the participation in the remaining loans. There were no collections from Treasury's investment in MSLP during the month of February 2026. The investment in MSLP is reported at fair value which is updated annually. Treasury has fulfilled its funding commitments with respect to investments made pursuant to the CARES Act.

6.) Debt represents borrowings, plus interest, from Treasury through the Bureau of Fiscal Service (BFS) that were used, along with the appropriated fund balance, to fund the economic recovery program investments and loans authorized under the CARES Act. Collections from the investments and loan repayments are primarily used to repay debt. There were no debt repayments during the month of February 2026. The remaining balances at the end of February 2026 are \$1.5 billion for the MSLP, \$26 million for Passenger Air Carriers, \$7 million for Cargo Air Carriers, and \$22 million for National Security Loan Programs.

7.) Other Liabilities: As stated in footnote 1, in accordance with the CARES Act, any excess amounts from the final distributions from our investments and loans after repayment of appropriations and borrowings will be deposited into the Federal Old-Age and Survivors Insurance Trust Fund (OASI) established under the Social Security Act.

8.) The Special Drawing Rights Act of 1968, as amended (the SDR Act, codified at 22 U.S.C. §§ 286n-286r), authorizes the Secretary of the Treasury to issue SDR Certificates (SDRCs) against SDRs held in the ESF to the FRBs in exchange for dollars. Under the SDR Act, SDRCs may remain issued and outstanding only for the purpose of financing SDR acquisitions or for financing exchange stabilization operations.

9.) Treasury has an Exchange Stabilization Agreement (ESA) with Mexico through the ESF for \$9 billion. No drawings are outstanding under this agreement. On October 18, 2025, Treasury, through the ESF, entered into an ESA with the Banco Central de la República Argentina (BCRA) for \$20.0 billion. Pursuant to that ESA, in October 2025, the Treasury and the BCRA executed a swap transaction whereby the BCRA exchanged pesos for \$2.5 billion. In December 2025, BCRA fully repaid the \$2.5 billion and the swap transaction was closed. No drawings are outstanding under this agreement.

10.) Foreign currency denominated assets and Other Investments are revalued daily -- and reported monthly -- to reflect fluctuations in market exchange rates. These fluctuations in market exchange rates are reported in the Statement of Net Cost as either Losses or Gains on "Currency Valuation and Other." This gain or loss is unrealized to the Exchange Stabilization Fund until such time as the Fund sells the asset.

11.) Up to \$100 million of the funds appropriated by the CARES Act to the ESF is authorized to make payments for administrative expenses incurred in connection with loans, loan guarantees, and other investments authorized under the CARES Act.
