EXCHANGE STABILIZATION FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Current Month and Fiscal Year Periods Ending January 31, 2024

1.) Fund Balance with Treasury (FBWT) of \$743 million will be used to fund adjustments to subsidy costs and repay borrowing from Treasury for loans and investments made under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). Also, in accordance with the CARES Act, any excess amounts from the final distributions from our loans and investments after repayment of appropriations and borrowings will be deposited into the Federal Old-Age and Survivors Insurance Trust Fund (OASI) established under the Social Security Act. In January, Treasury received \$489 million of principal and interest collections from various program loans (See footnote 4) and \$233 million from the distribution of Treasury's share of all remaining interest, less reserves for anticipated expenses, from the Municipal Liquidity Facility (MLF) and Term Asset-Backed Securities Loan Facility (TALF) (See footnote 5). Treasury used FBWT to repay the remaining balance of \$3.1 billion in debt incurred to help finance the investments made in the MLF and TALF. (See footnote 6) Net, ESF's FBWT decreased by \$2.4 billion.

2.) Foreign Currency and Foreign Currency Denominated Assets (FCDAs) represent deposits and investments in foreign government securities denominated in both euro and yen, that have original maturities of three months or less. Some of these instruments may have been purchased at a premium and others may have been purchased at a discount. Premiums (that are amortized) and discounts (that accrete) are allocated to expense (amortization expense) and revenue, respectively, over the life of the instrument. Other Investments are FCDAs that have maturities of greater than three months. Treasury rebalances the portfolio between Foreign Currency and FCDAs and Investments from time-to-time based on its evaluation of its projected liquidity needs and interest revenues. Foreign Currency and FCDAs and Other Investments are reported at fair value. Valuation adjustment(s) are recorded as gains or losses on the statement of net cost on a monthly basis. See Table #1 for a breakdown by currency.

3.) The Special Drawing Rights Act of 1968 authorizes the United States to purchase and hold Special Drawing Rights (SDRs) through the ESF. In January 2023, Treasury, through the ESF, purchased SDR 370 million from Costa Rica in exchange for approximately \$494 million. As of January 31, 2024, U.S. SDR Holdings were SDR 124.5 billion. Changes in both SDR Holdings and SDR Allocations also reflects changes in the foreign exchange rate.

4.) The ESF has made economic recovery program loans using CARES Act appropriated funds and borrowings. Treasury's authority to disburse loans for these programs has expired. During January 2024 outstanding loans decreased by \$489 million primarily as a result of principal and interest collections on various program loans. Loan receivables are reported as the net present value of the estimated future cash flows which is updated annually.

5.) As of January 31, 2024, only one of Treasury's initial six economic recovery programs with the Federal Reserve Banks of New York and Boston remains. On November 17, 2021, Treasury and the applicable Federal Reserve Banks amended and restated the limited liability company (LLC) agreements governing Treasury's investments in each of the Municipal Liquidity Facility (MLF), the Main Street Lending Program (MSLP), and the Term Asset-Backed Securities Loan Facility (TALF) to, among other things, provide for regular distributions to Treasury of the amounts by which Treasury's investment in each of MLF and TALF exceeds the facility's portfolio value, or the amount by which Treasury's investment in MSLP exceeds the original price paid for the loan participations held in the facility. In January 2024 Treasury received distributions of Treasury's share of all remaining interest, less reserves for anticipated expenses, from both MLF (\$192 million) and TALF (\$41 million) in accordance with the terms of the amended and restated LLC agreements (See footnote 1). Treasury expects to receive final LLC profit distributions from both MLF and TALF in subsequent periods. The Money Market Mutual Fund Liquidity Facility (MMLF), the Commercial Paper Funding Facility (CPFF), the MLF, the TALF and the Corporate Credit Facilities (CCF) programs have been terminated and unwound in accordance with their terms. The remaining investment is reported at fair value which is updated annually. Treasury has fulfilled its funding commitments with respect to investments made pursuant to the CARES Act.

6.) Debt represents borrowings from Treasury through the Bureau of Fiscal Service (BFS) that were used, along with the appropriated fund balance, to fund the economic recovery program investments and loans authorized under the CARES Act. Collections from investments and cash collected from loan repayments are primarily used to repay debt. As stated in footnote 1, the ESF used \$3.1 billion of FBWT to completely repay the remaining debt related to MLF and TALF. The remaining balances at the end of January 2024 are \$7.4 billion for the MSLP, \$144 million for Passenger Air Carriers, \$18 million for Cargo Air Carriers, and \$607 million for National Security and Defense Business (NSD).

7.) Other Liabilities: As stated in footnote 1, in accordance with the CARES Act, any excess amounts from the final distributions from our loans and investments after repayment of appropriations and borrowings will be deposited into the Federal Old-Age and Survivors Insurance Trust Fund (OASI) established under the Social Security Act (footnote 5).

8.) The ESF has an exchange stabilization agreement with Mexico for \$9 billion; this agreement was renewed in November 2023 for an additional year. No drawings are outstanding under this agreement.

9.) Foreign currency denominated assets and liabilities are revalued daily -- and reported monthly -- to reflect fluctuations in market exchange rates. These fluctuations in market exchange rates are reported in the Statement of Net Cost as either Losses or Gains on "Currency Valuation and Other." This gain or loss is unrealized to the Exchange Stabilization Fund until such time as the Fund sells the currency.

10.) Up to \$100 million of the funds appropriated by the CARES Act to the ESF is authorized to make payments for administrative expenses incurred in connection with loans, loan guarantees, and other investments authorized under the CARES Act.
