EXCHANGE STABILIZATION FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Current Month and Fiscal Year Periods Ending March 31, 2022

1. Fund Balance with Treasury (FBWT) of $1.1 billion will be used to fund adjustments to subsidy costs and repay borrowing from Treasury for loans and investments provided under the Coronavirus Aid, Relief, and Economic Security Act (CARES Act).

2. The Special Drawing Rights Act of 1968 authorizes the United States to purchase and hold Special Drawing Rights (SDRs) through the Exchange Stabilization Fund (ESF). In March 2022, Treasury, through the ESF, purchased SDR 239 million from Honduras and SDR 300 million from Egypt in exchange for approximately $746 million. As of March 31, 2022, U.S. SDR Holdings had increased to SDR 118 billion.

3. As of March 31, 2022, three of Treasury's initial six economic recovery programs with the Federal Reserve Banks of New York and Boston remain. On November 17, 2021, Treasury and the applicable Federal Reserve Banks amended and restated the limited liability company (LLC) agreements governing Treasury's investments in each of the Municipal Liquidity Facility (MLF), the Main Street Lending Program (MSLP), and the Term Asset-Backed Securities Loan Facility (TALF) to, among other things, provide for regular distributions to Treasury of the amounts by which Treasury's investment in each of TALF and MLF exceeds the facility's portfolio value, or the amount by which Treasury's investment in MSLP exceeds the original price paid for the loan participations held in the facility. There were no distributions from Treasury's investment in MLF, MSLP or TALF during the month of March in accordance with the terms of the amended and restated LLC agreements listed above. The Money Market Mutual Fund Liquidity Facility (MMLF), the Commercial Paper Funding Facility (CPFF) and the Corporate Credit Facilities (CCF) programs have been terminated and unwound in accordance with their terms. The remaining investments are reported at cost.

4. The ESF has made economic recovery program loans using CARES Act appropriated funds and borrowings. Treasury's authority to disburse loans for these programs has expired. There were no principal collections during the month of March 2022. Loan receivables are reported at cost.

5. The ESF carries several long-term instruments in its portfolio. Some of these instruments may have been purchased at a premium and others may have been purchased at a discount. These instruments are reported at cost. Cost is reflected as a face amount paid for the instrument plus any unamortized premium paid and less any unaccreted discount received. Premiums (that are amortized) and discounts (that accrete) are allocated to expense (amortization expense) and revenue, respectively, over the life of the instrument.

6. Debt represents borrowings from Treasury through the Bureau of Fiscal Service (BFS) that were used, along with the appropriated fund balance, to fund the economic recovery program investments and loans authorized under the CARES Act. Collections from investments and cash collected from loan repayments are used to repay debt. There were no loan repayments during the month of March 2022. The balances at the end of March are $4.1 billion for the MLF, $1.3 billion for the TALF, $12.6 billion for the MSLP, $277 million for Passenger Air Carriers, $18 million for Cargo Air Carriers, and $462 million for National Security and Defense Business (NSD).

7. The ESF has an exchange stabilization agreement with Mexico for $9 billion; this agreement was renewed in November 2021 for an additional year. No drawings are outstanding under this agreement.

8. Treasury has fulfilled its commitments with respect to loans and investments made pursuant to the CARES Act. (See also footnotes 3&4.)

9. Foreign currency denominated assets and liabilities are revalued daily -- and reported monthly -- to reflect fluctuations in market exchange rates. These fluctuations in market exchange rates are reported in the Statement of Income as "Net gain (loss) on valuation." This gain or loss is unrealized to the Exchange Stabilization Fund until such time as the Fund sells the currency.

10. Up to $100 million of the funds appropriated by the CARES Act to the ESF is authorized to make payments for administrative expenses incurred in connection with loans, loan guarantees, and other investments authorized under the CARES Act.
