EXCHANGE STABILIZATION FUND  
NOTES TO THE FINANCIAL STATEMENTS  
For the Current Month and Fiscal Year Periods Ending November 30, 2020

1. Section 4027 of H.R. 748, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), enacted on March 27, 2020 as Pub. Law 116-136, appropriated \$500 billion to the Exchange Stabilization Fund (ESF), which the Secretary of the Treasury (Secretary) is authorized to use to make loans, loan guarantees, and other investments. ESF received the full amount of this appropriated balance on March 31, 2020, which is held as Fund Balance with Treasury (FBWT) until disbursed. The CARES Act requires these funds to be managed, for budgetary purposes, in accordance with the Federal Credit Reform Act of 1990, as amended (FCRA). Under FCRA, ESF will use the appropriated \$500 billion to fund the credit subsidy portion of these economic recovery program loans, loan guarantees, and other investments, and the remaining portion of these disbursements will be funded via borrowings from Treasury (refer to Note 5). The credit subsidy cost represents the estimated long-term cost to the federal government of the program, which is calculated on a net present value basis, excluding administrative costs.
2. As of November 30, 2020, Treasury had made investments in six economic recovery programs. Treasury funded, using the CARES Act appropriated funds and borrowings, \$37.5 billion in the CCF, \$37.5 billion in the Main Street Loan Program (MSLP), \$10.0 billion in the Term Assets Lending Facility (TALF), and \$17.5 billion in the Municipal Liquidity Facility (MLF). In addition, Treasury, using funds from the ESF, invested \$10.0 billion into the Commercial Paper Funding Facility (CPFF), and \$1.5 billion into the Money Market Mutual Fund Liquidity Facility (MMLF). These investments are reported at cost. Under the MMLF Credit Support Agreement, the Treasury accrues facility fees from the Federal Reserve Bank of Boston.
3. As of November 30, 2020, using CARES Act appropriated funds and borrowings, Treasury had disbursed \$1.58 billion in economic recovery program loans to Large Passenger Air Carriers, \$260 million to small Passenger Air Carriers, \$42 million to Cargo Air Carriers and \$358 million to businesses critical to maintaining national security (NSD). Loan receivables are reported at cost.
4. The ESF carries several long-term instruments in its portfolio. Some of these instruments may have been purchased at a premium and others may have been purchased at a discount. These instruments are reported at cost. Cost is reflected as a face amount paid for the instrument plus any unamortized premium paid and less any unaccrued discount received. Premiums (that are amortized) and discounts (that accrete) are allocated to expense (amortization expense) and revenue, respectively, over the life of the instrument.
5. Debt represents borrowings from Treasury through the Bureau of Fiscal Service (BFS) that are used, along with the appropriated fund balance (refer to Note 1), to fund the economic recovery program investments authorized under the CARES Act. As of November 30, 2020, Treasury had borrowed \$87.5 billion to finance the following economic recovery programs: \$36.9 billion for the CCF, \$17.7 billion for the MLF, \$10.0 billion for the TALF, \$20.9 billion for the MSLP, \$1.7 billion for Passenger Air Carriers, \$38.0 million for Cargo Air Carriers and \$208 million for the NSD.
6. The ESF has an exchange stabilization agreement with Mexico for \$9 billion; this agreement was modified and renewed in November 2020 for an additional year. No drawings were outstanding under this agreement.
7. As of November 30, 2020, Treasury had signed agreements with the Federal Reserve Bank of New York to provide investments in the CPFF (\$10 billion), CCF (\$75 billion), TALF (\$10 billion) and MLF (\$35 billion). Treasury has also signed agreements with the Federal Reserve Bank of Boston to provide investments in the MMLF (\$10 billion) and the MSLP (\$75 billion). As of September 30, 2020, Treasury had agreed to provide up to \$14.6 billion in loans to Large Passenger Air Carriers and \$0.7 billion under the NSD. Subsequent to September 30, 2020, the maximum amount of borrowings available under the Large Passenger Air Carriers loan agreements was increased by \$6.1 billion, leaving an aggregate total of \$19.2 billion of remaining available borrowings for Large Passenger Air Carriers (following the disbursement of \$1.6 billion). Small Passenger Air Carriers, Cargo Air Carriers, and new NSD participants generally borrowed the full amount available. As of November 30, 2020, Treasury has made initial investments in the CPFF, CCF, MLF, MSLP, TALF and MMLF and made loans to Passenger Air Carriers, Cargo Air Carriers and NSD (refer to Note 2 & 3).
8. Foreign currency denominated assets and liabilities are revalued daily -- and reported monthly -- to reflect fluctuations in market exchange rates. These fluctuations in market exchange rates are reported in the Statement of Income as "Net gain (loss) on valuation." This gain or loss is unrealized to the Exchange Stabilization Fund until such time as the Fund sells the currency.
9. Up to \$100 million of the funds appropriated by the CARES Act to the ESF is authorized to make payments for administrative expenses incurred in connection with loans, loan guarantees, and other investments authorized under the CARES Act.
