EXCHANGE STABILIZATION FUND
REVISED NOTES TO THE FINANCIAL STATEMENTS
As of March 31, 2020

1. Section 4027 of H.R. 748, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), enacted on March 27, 2020 as Pub. Law 116-136, appropriated \$500 billion to the Exchange Stabilization Fund (ESF), which the Secretary of the Treasury (Secretary) is authorized to use to make loans, loan guarantees, and other investments in support of eligible businesses, States, and municipalities and to provide the subsidy amounts necessary for such loans, loan guarantees, and other investments in accordance with the provisions of the Federal Credit Reform Act of 1990 (2 U.S.C. 661 et seq.). This appropriated balance is held as a fund balance with Treasury until disbursed.

2. The Exchange Stabilization Fund (ESF) carries several long-term instruments in its portfolio. Some of these instruments may have been purchased at a premium and others may have been purchased at a discount. These instruments are reported at cost. Cost is reflected as a face amount paid for the instrument plus any unamortized premium paid and less any unaccreted discount received.
Premiums (which are amortized) and discounts (which accrete) are allocated to expense (amortization expense) and revenue, respectively, over the life of the instrument.

3. The ESF has an exchange stabilization agreement with Mexico for \$9,000 million; this agreement was modified and renewed in November 2019 for an additional year. No drawings were outstanding under this agreement.

4. Foreign currency denominated assets and liabilities are revalued daily -- and reported monthly -- to reflect fluctuations in market exchange rates. These fluctuations in market exchange rates are reported in the Statement of Income as "Net gain (loss) on valuation." This gain or loss is unrealized to the Exchange Stabilization Fund until such time as the Fund sells the currency.
