Summary
The Department of the Treasury’s (Treasury) Strategic Plan guides program and budget decisions for the Departmental Offices (DO). The FY 2019 Budget Request supports DO’s leading role in accomplishing Treasury’s strategic goals and related strategic objectives:
- Boost U.S. Economic Growth
- Promote Financial Stability
- Enhance National Security
- Transform Government-wide Financial Stewardship
- Achieve Operational Excellence

Staffing and Full-Time Equivalent (FTE) Reduction
The Budget re-emphasizes the FTE reductions Treasury committed to in the FY 2018 President’s Budget. DO continues to streamline its workforce by finding more efficient ways to manage its programs and support the Presidential Executive Order for reorganizing the Executive Branch to improve the efficiency, effectiveness, and accountability of federal agencies.

Transfer of Administrative Support Programs to the Treasury Franchise Fund
The Budget proposes to transfer approximately $148,109 million and 165 direct FTE and 42 reimbursable FTE for direct and reimbursable DO administrative services to the Treasury Franchise Fund to consolidate broad-scale administrative functions and capital investment activities into one account and to provide one governance process for reimbursable programs in DO. This transfer supports 22 customers and reimbursable agreements and 14 different programs. Budgetary Resources for DO administrative services would continue to be presented in the DO Salaries and Expenses (SE) account. DO SE will purchase administrative services from the Franchise Fund. Effective in FY 2019 the Fund will reflect the FTE associated with these services.

Financial Literacy
More than 20 agencies administer programs to educate Americans about financial topics – but the effectiveness of these programs is not
known. Under the Treasury Department’s leadership of the Financial Literacy and Education Commission, we will better coordinate financial literacy programs across government to increase effectiveness and reduce fragmentation. Evaluating existing programs will help identify best practices and areas for streamlining. This approach will ensure that federal financial education activities are coordinated around a shared set of government-wide goals, meet federal standards for effectiveness, and leverage best practices.

These savings include potential reductions in advisory services, electronic data and periodical subscriptions, warehouse footprint, janitorial and landscaping services, FOIA assistance, and contractual support related to the American Recovery and Reinvestment Act.

**Streamline Staffing -$14,697,000 / -45 FTE**

To align with the Administration’s goal to rebuild the national defense and invest in the Nation’s most pressing security needs, DO is implementing a staffing streamlining effort to maximize effectiveness and efficiency while ensuring appropriate levels for meeting Treasury’s mission and objectives.

**Transfers +$0 / -165 FTE**

**Centralized Treasury Administrative Services to the Treasury Franchise Fund +$0 / -165 FTE**

DO proposes to move administrative services to the Treasury Franchise Fund in FY 2019 to consolidate broad-scale administrative functions and capital investment activities into one account. It would also provide one governance process for reimbursable programs in DO. The Franchise Fund structure would allow for more effective capital investments over multiple fiscal years and provide stability during a continuing resolution for more efficient contract execution. Customers would benefit from the consolidation of like services, consistent POCs for service providers, less confusion during budget execution, and increased, direct customer involvement through joint governance. Administrative programs would benefit because they would budget for and execute all services in one account and be able to better leverage staff across functions. The move would also streamline cash management because services...
would be paid for in consistent monthly amounts rather than billed in arrears based on actuals.

**Description of Performance**

Variance between estimated and actual receipts (annual forecast) (percent): As part of managing the federal government’s central operating account and cash position, the Office of Fiscal Projections (OFP) forecasts net cash flows (e.g., federal receipts, outlays, and other miscellaneous flows) to ensure that adequate funds are available daily to cover federal payments. To determine its overall effectiveness, one of OFP’s metrics is to measure the variance between actual and projected federal receipts. A lower variance is better. The actual variance for FY 2017 was 4.0 percent, which is significantly lower than the
4.25 percent target. Therefore, OFP achieved the goal. The targets for FY 2018 and FY 2019 are 4.25 percent.

- **Timely Review of CFIUS Cases:** This measure tracks compliance with statutory deadlines for completing national security reviews of transactions notified to the CFIUS to ensure that the CFIUS process is timely and efficient. The target (100 percent) was met in FY 2017. Office of International Affairs’ target for this measure in FY 2018 and FY 2019 is 100 percent.

- **Treasury-wide “Leaders Lead” Index of Federal Employee Viewpoint Survey (FEVS):** Treasury also set the goal to increase the “Leaders Lead” index above FY 2015 results. Treasury’s score for the Leaders Lead Index increased from 54 percent in FY 2015 to 55 percent in FY 2016, and Treasury’s score led the government-wide average by two percentage points. This Index also increased from 55 percent in FY 2016 to 56 percent in FY 2017 and exceeded the government-wide rate by one percent.
