**TERRORISM RISK INSURANCE PROGRAM 2023 DATA CALL: CAPTIVE INSURERS
 REINSURANCE (NATIONWIDE)**

Using the following defined terrorism event, calculate and report the total projected loss under property, workers' compensation, and liability policies containing terrorism risk insurance subject to TRIP issued by the Group or Company, and then within that figure report the following:

- (1) the deductible or retention obligations of insureds under triggered policies for the insurer group (or single company that is not part of a group);
- (2) the projected amount of net loss the insurer group (or single company that is not part of a group) will sustain within its TRIP deductible, net of policyholder obligations or private reinsurance;
- (3) any private reinsurance recovery available to the group or company within the TRIP deductible;
- (4) the amount of the group or company's claim under TRIP;
- (5) the amount of the group or company's continuing net co-pay obligation under TRIP; and
- (6) any private reinsurance recovery available to the group or company within the Co-Pay Layer.

27 On September 3, 2022 (a Saturday), at 9:00 p.m. (Pacific Time), a 5 to 6 ton truck bomb is detonated in downtown Las Vegas, Nevada, on West Flamingo Road between Las Vegas Boulevard and U.S. 15 (Las Vegas Freeway). The precise GPS coordinates are 36° 06' 53.6" N, 115° 10' 34.5" W. Assume that the loss resulting from the explosion is characterized by the estimates below (however, if your group or company typically utilizes different damage assumptions for an explosion of this magnitude, please use those alternative assumptions). In addition, for purposes of estimating any workers' compensation impacts, do not modify your estimates based upon any projections or assumptions as to a reduced number of employees in the affected area based upon the impacts of the COVID-19 pandemic. Rather, assume the area contains the number of employees (consistent with the estimates provided below) that would be expected to be in the area without accounting for any potential reductions on account of COVID-19.

- Zone 1 (less than 100 meters from site): Collapse and fire following, 100% property damage, 10% fire loss
- Zone 2 (100-200 meters from site): Massive structural damage to surrounding properties, 50% property damage, 5% fire loss
- Zone 3 (200-400 meters from site): Heavy debris damage to surrounding properties, 25% property damage, 2.5% fire loss
- Zone 4 (400-500 meters from site): Light debris damage to surrounding properties, 10% property damage, 1% fire loss

Radius of potential damage: Up to 1600 meters. Between 500-1600 meters you may assume 1% property damage and 0% fire loss.

- Worker Injuries: 1,500 blue/white collar deaths in total and 3,000 injuries in total. The following further assumptions can be applied as to the level of injuries incurred among workers: 20 percent permanent total disability; 30 percent permanent partial disability; and 50 percent temporary disability.

30	Total Projected Loss	\$ -
31	Deductible/Retention of Insureds under Policies issued by Group or Company	
32	Net Loss to Group or Company within TRIP Deductible	
33	Private Reinsurance Recovery within Deductible Layer	
34	Claim under TRIP	
35	Net Loss to Group or Company within Co-Pay Layer	
36	Private Reinsurance Recovery within Co-Pay Layer
