

Instructions for Terrorism Risk Insurance Program (TRIP) 2024 Data Call Alien Surplus Lines Insurers

Form Overview

This reporting form is for Alien Surplus Lines Insurers that are not affiliated with a group that is otherwise required to complete the reporting template for either Insurer (Non-Small) Groups or Companies, or Small Insurers.

- If the Alien Surplus Lines Insurer is affiliated with a group, the experience of the Alien Surplus Lines insurer should be reported with that group on either the *Insurer (Non-Small) Groups or Companies* or *Small Insurers* template.
- If the Alien Surplus Lines Insurer is not affiliated with a group, it should complete this *Alien Surplus Lines Insurers* template.
- In addition, Federally Approved Insurers [see 31 CFR 50.4(o)(1)(i)(C)] should complete this form, subject to the specific instructions identified herein.

General Guidelines

- All information should be reported on a consolidated insurer group basis, unless reporting for a single insurer.
- When providing premium on a jurisdictional basis, premium should be allocated in the same fashion that it is for state reporting and premium tax purposes. Accordingly, coverage written on a non-admitted, surplus lines basis may be allocated in full to the home state of the policyholder, as defined by the Nonadmitted and Reinsurance Reform Act.
 - **Note:** This allocation method should not be applied on the Geographic Exposures worksheet, which seeks information based upon the location of the exposure, regardless of the manner in which the premium may have been allocated.
- For Federally Approved Insurers that do not report or charge premium in the conventional sense, provide anticipated Total Call figures as issued for the year in question to represent the relative premium for the insurance provided.
- When providing premium on a jurisdictional basis, for premium which is otherwise not allocable to a particular jurisdiction (e.g.: certain Ocean Marine, Inland Marine, and Aviation coverages; or coverages based upon foreign operations with a U.S. nexus), report this premium under "Other/Not Subject to Allocation in a Particular Jurisdiction."
- DEP should be included in this calculation to the extent that commercial property and casualty coverage is issued for losses occurring at the following locations: (1) Within the United States; (2) With respect to an air carrier (as defined in section 40102 of title 49, United States Code), or a United States flag vessel (or a vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States); and (3) At the premises of any U.S. mission.
- TRIP-eligible lines to be included in DEP calculations generally correspond to NAIC lines (as reported on the *NAIC Exhibit of Premiums and Losses*, commonly known as Statutory Page 14). Alien Surplus Lines Insurers completing this form are permitted to report using identified reporting lines that they otherwise typically employ in their operations. The information reported

on this worksheet should only include TRIP-eligible DEP. Any amounts otherwise reported for other purposes by Alien Surplus Lines Insurers in connection with the lines identified on the reporting template that are not within the scope of TRIP-eligible lines as defined by the Program regulations should not be reported here. Specifically:

- “Fire and Other Damage to Property” should not include federal crop insurance or any other type of crop insurance privately issued or reinsured.
- “General Liability” should not include Professional Errors and Omissions Liability Insurance [see 31 CFR 50.4(t)].
- Information is sought concerning policies that will or would have responded to “certified acts of terrorism” during the reporting period. The fact that the policy did not in fact make payments for claims associated with any certified acts of terrorism is not relevant to the obligation to report information.
- Policy count should be calculated based on the number of policies incepting in 2023 (or in effect for the entire year). For reporting other elements apart from DEP, where the reporting of information (e.g., exposures) under policies in effect during 2023 would result in double counting for the year as a whole, utilize a reporting date of December 31, 2023.
- Information subject to reporting under the Standalone Terrorism (Nationwide) Worksheet and Cyber (Nationwide) Worksheet should be considered a subset of an insurer’s TRIP-eligible policies, and should also be reported on additional worksheets, as appropriate.
- All exposure information should be reported gross of any private reinsurance, except where otherwise indicated.
- Questions on the Reinsurance (Nationwide) Worksheet are limited to reinsurance purchased from unaffiliated third-party companies, and do not include reinsurance transactions within a group of affiliated insurers.
- Blacked out cells indicate that no data will be reportable for that particular cell.
- Hypothetical policy situations demonstrating proper data completion are available on the TRIP website (<https://home.treasury.gov/policy-issues/financial-markets-financial-institutions-and-fiscal-service/federal-insurance-office/terrorism-risk-insurance-program/annual-data-collection>).

Note: This Worksheet is set up as a questionnaire, with certain amounts requested, yes or no answers sought, and associated explanation to the extent necessary. As a result, and unlike the other worksheets, the data sought may be more easily obtainable from an individual with knowledge of the reinsurance arrangements of the reporting entity, as distinguished from the mechanism of data queries to existing systems. The questions are limited to reinsurance purchased from unaffiliated third-party companies, and do not include reinsurance transactions within a group of affiliated insurers.
