**TERRORISM RISK INSURANCE PROGRAM 2025 DATA CALL: CAPTIVE INSURERS
 REINSURANCE (NATIONWIDE)**

Using the following defined terrorism event, calculate and report the total projected loss under property, workers' compensation, and liability policies containing terrorism risk insurance subject to TRIP issued by the Group or Company, and then within that figure report the following:

- (1) the deductible or retention obligations of insureds under triggered policies for the insurer group (or single company that is not part of a group);
- (2) the projected amount of net loss the insurer group (or single company that is not part of a group) will sustain within its TRIP deductible, net of policyholder obligations or private reinsurance;
- (3) any private reinsurance recovery available to the group or company within the TRIP deductible;
- (4) the amount of the group or company's claim under TRIP;
- (5) the amount of the group or company's continuing net co-pay obligation under TRIP; and
- (6) any private reinsurance recovery available to the group or company within the Co-Pay Layer.

On September 11, 2024 (a Wednesday), at 10:00 a.m. (Eastern Time), the 23rd anniversary of the 9/11 attacks, 10-ton truck bombs are detonated simultaneously on both the Bayonne and Goethals Bridges, completely blocking access to Newark Bay and the Port of Newark for Atlantic shipping. The precise GPS coordinates for the blast at Bayonne Bridge is 40.6422° N, 74.1422° W, and for the blast at Goethals Bridge is 40.636 N. 74.197 W. These coordinates represent the centermost point of the main span of each bridge.

27 The blast on the Bayonne Bridge occurs midspan causing its complete collapse and blocking the Kill Van Kull between Staten Island, New York, and Bayonne, New Jersey. The bridge collapse blocks oceanic access through the Kill Van Kull for twelve weeks.

The blast on the Goethals Bridge also occurs midspan causing the collapse of the Northeastern span of the bridge on top of a cargo ship passing underneath at the time, completely blocking the Kill Arthur between Elizabeth, New Jersey and Staten Island, New York. The bridge collapse blocks oceanic access through the Kill Arthur for twelve weeks.

This terrorist attack will cause major disruption to the operation of the Port of Newark and to business activity between New Jersey and Staten Island. Physical property damage can be expected to radiate from each blast site up to 1100 meters, although the percentage of losses will drop significantly (to 5% and then lower) 400 meters from the blast sites. For business interruption purposes, assume that potential impacts reduce to 5% at 1200 meters from the blast sites, and reduce to zero at 1900 meters from the blast sites. Respondents should also focus on potential insured contingent business interruption losses associated with the effective closure of the Port of Newark for twelve weeks and consider losses arising to policyholders which have such coverage that might rely upon the Port. Other factors to consider include inland marine losses, ocean marine losses, supply chain disruption including delays associated with rerouting ships to other ports, additional transport time and fuel costs for trucking cargo, loss of revenue by businesses reliant on port operations, loss of income by private parking and toll operators, and lost wages for longshoremen and other workers who rely on the port for their jobs. For the purposes of calculating possible workers' compensation losses assume fatalities drop below 5% between 200 and 250 meters, below 1% between 250 and 300 meters, and do not take place at all 500 meters and more away from the blast site. You can assume disability claims as well (partial and permanent) further away from the blast site, consistent with how you would normally project such losses.

30	Total Projected Loss	\$	-
31	Deductible/Retention of Insureds under Policies issued by Group or Company		
32	Net Loss to Group or Company within TRIP Deductible		
33	Private Reinsurance Recovery within Deductible Layer		
34	Claim under TRIP		
35	Net Loss to Group or Company within Co-Pay Layer		
36	Private Reinsurance Recovery within Co-Pay Layer
