Average Consumer Outstanding Balance (Thousands \$) 59,801

Average Consumer Outstanding Balance Key

Includes loans for personal, family, and household uses including residential mortgages, home equity loans and lines of credit, auto, boat, lot, and other consumer loans.

Average Consumer Outstanding Balance Comment

Consumer Loans were flat through much of the first part of the year, showed an improvement in the summer particularly in boat loans (seasonal) and in Home Equity Lines of Credit, but are settling down as we move into the Fall season. Home Equity lines of credit have become more popular because of rate advantages over the firxed rate Home Equity loans.

Average Commercial Outstanding Balance (Thousands\$) 105,294

Average Commercial Outstanding Balance Key

Includes loans for commercial and industrial purposes to sole proprietorships, partnerships, and corporations, and other business enterprises, whether secured or unsecured, single-payment or installment. Also includes construction and land loans for commercial and residential development by builders and developers.

Average Commercial Outstanding Balance Comment

Commercial demand has been weak throughout most of the first half, with very little construction activity. However, there is some commercial real estate activity and commercial non real estate, and, with the recently approved Kensington Mine, we expect some expansion in the Juneau economy in the short term.

Total Outstanding Balance Comment

As noted above, the opening of the mine will bring some much-needed growth into the Juneau economy, but tourism is still a concern, with 2009 off somewhat from 2008, especially in destination travellers (non-cruise ship). Mortgage activity was brisk, through the second quarter, but has abated somewhat, and the bank is still selling almost all of its mortgages. There was one purchased participation (for \$500,000) in the Fairbanks AK market in August (a commercial construction loan).

A. - Loans in this classification include home equity, installment, and residential mortgage loans. With mortgage rates declining and refinancing applications rising, balance sheet outstandings are declining as customers select secondary market mortgage products. In the first 8 months of 2009, \$2.9 billion of secondary market loans were closed. B. - The make up of commercial loans presented are approximately as follows: commercial, financial, and agricultural 40%, commercial real estate 41%, and real estate construction 19%. Real estate related loans are not attractive in this market.

General Market Commentary

The market is very soft in relation to loan demand by qualified borrowers. In light of this, officer call goals have doubled but to date the pipeline remains flat.

Mortgage activity to be sold into the secondary market has slowed. Builder activity also has slowed in our area. We saw very little financing activity on Cash for Clunkers as this market is dominated by Credit Unions because of their pricing advantage.

Commercial borrowers are continuing to struggle. Growth is coming from movement of accounts to the bank from other banks. Very little financing is going to finance growth. Contractors have seen very little work because of stimulus in our area.

Farmers National Bank is a \$476 Million community bank with 13 branches located throughout western Pennsylvania, north of Pittsburgh. Effective August 31, 2009, Farmers National Bank acquired assets of National City Bank's Titusville, PA office. Our markets are largely rural and small communities. Our local economies tend to lag the national trends to some extent and our housing markets, while certainly impacted by the current recession, do not generally experience the large swings in property values some of the more metropolitan areas have seen. Our product mix is traditional, with conventional residential mortgage and home equity lending, commercial mortgages that are concentrated primarily in residential investment properties, and commercial loans generally for working capital lines of credit or equipment purchases. We

have held to our core business principles and prudent credit practices, avoiding speculative lending and the pursuit of growth at the expense of credit quality. We are experiencing some slowing of loan growth in 2009 as local consumers and businesses are typically more conservative in terms of their appetite for debt. 2 2 ② Prarmers National Bank is a \$367 Million community bank with 12 branches located throughout western Pennsylvania, north of Pittsburgh. General Market Commentary

Average consumer loans decreased \$49.9 million during August 2009 (as compared to July 2009). The decrease was primarily attributable to a decrease in average 1-4 family residential mortgage loans held for portfolio of \$33.9 million resulting from loan prepayments and loan charge-offs, and a decrease in average loans held for sale of \$15.0 million resulting from sales of 1-4 family residential mortgage loans into the

secondary market. First Bank sold \$31.6 million of 1-4 family residential mortgage loans into the secondary market during the month of August 2009. During the eight months ended August 31, 2009, First Bank originated and closed \$419.7 million of 1-4 family residential mortgage loans. In addition, First Bank sold \$388.0 million of 1-4 family residential mortgage loans into the secondary market during the eight months ended August 31, 2009. The average balance of commercial loans decreased \$84.4 million during August 2009 (as compared to July 2009). The primary reason for the decrease in the overall average balance of commercial loans was a decline in the average balance of First Bank's Real Estate Construction and Land Acquisition and Development loan portfolio of \$30.1 million that primarily resulted from loan payments, lack of customer demand and loan charge-offs on nonperforming credit relationships, and a decrease in the average balance of C&I loans of \$44.5 million that primarily resulted from loan payments and charge-offs on nonperforming credit relationships. 2 2 2 2

Balances include commercial loans, commercial real estate loans, multifamily loans and construction loans

Average Commercial Outstanding Balance Comment

Origination of new commercial loans includes \$7.8 million in commercial business loans. In addition, the Bank originated \$3.4 million in commercial loans that are held for sale. Loans held for sale are not included in the reported loan balance. The decline in commercial loans from July to August is primarily related to paydowns of commercial business loans.

There was no significant change from the prior month. The slight decline in total average loans reflects the normal level of monthly pay-downs in our loan portfolio. Locating qualified borrowers during the recession continues to be difficult.

Consumer loans consist of one-to-four family real estate loans, as well as deposit loans, auto loans, credit card loans, and other consumer loans. Month end balances are used. Reported as consolidated as the holding company only has one loan totaling \$687K. Loans are gross of loans in process, unearned discounts/premiums, and the allowance for loans losses.

Average Consumer Outstanding Balance Comment

The \$40 thousand decrease from July to August in consumer loans was primarily due to reductions in single family mortgage loans due to refinancing activity. It should be noted that during 2009, the Bank has sold \$6.1 million in newly originated longer-term single family fixed rate mortgage loans during 2009.

Commercial loans consist of construction loans, multi family loans, non residential loans, and business secured and unsecured loans. Month end balances are used. Reported as consolidated as the holding company only has one loan totaling \$687K. Loans are gross of loans in process, unearned discounts/premiums, and the allowance for loans losses.

Average Commercial Outstanding Balance Comment

The \$400 thousand increase from July to August in commercial loans was primarily due increases in secured commercial loans.

General Market Commentary

There has been no change to the general market conditions since our last report. Unemployment rates are above the national average, personal bankruptcies, in our consumer portfolios, have already exceeded the total number of bankruptcies that we experienced in all of 2008. The purchase housing market is very slow,

and the refinance activity has decreased due to increased interest rates.

Residential real Estate Loans sold to third parties totaled \$549 million in August. Additionally, M&T's run-off Alt-A portfolio declined \$14 million on average in August, and Indirect Automobile loans declined \$2 million on average. Lower Automobile loans reflect a continuation of lower origination volumes from M&T's smaller, in-footprint dealership network.

General Market Commentary

Although our plan for 2009 is to continue increasing lending in the core markets served by M&T, we have seen weakened loan demand in certain business segments during the first eight months of 2009 from both businesses and consumers.

Average Consumer Outstanding Balance Comment

Bank is experiencing an increase demand in residential mortgages primarily in fixed rate mortgages sold to secondary market. Other consumer loans also continue to be flat or declining as consumers consolidate their debts by refinancing. Foreclosures on residential real estate have driven these numbers down to some extent.2

These numbers are actual month end rather than average, because our system does not have a good reporting system for individual loan types. The actual are more accurate than what we could provide if we were to try to report averages.

Through the first eight months of 2009, NewBridge Bank has continued to extend credit to facilitate economic activity in support of communities, businesses and consumers in our footprint. As such, the Bank's total 2009 loan origination of \$186.8 million has far surpassed the \$52.4 million of funding received under the Capital Purchase Program. 22As of August 31, 2009, NewBridge Bank ("Bank") held outstanding loans of \$1.52 billion, which is a decrease of \$89.2 million, or 5.6%, from \$1.60 billion at December 31, 2008, and a decrease of \$4.9 million in loans from the prior month. The decrease in outstanding loans from December 2008 is primarily the result of loan payoffs and pay downs of existing loans in the normal course of business. ☑ NewBridge Bank continues to make credit available to consumers and businesses in its market areas. During the month of August 2009, NewBridge Bank originated \$15.6 million in commercial and small business

purpose loans, \$1.9 million in home equity lines of credit, and \$816,000 in consumer installment credit. For the first eight months of 2009, NewBridge Bank originated \$81.6 million in commercial and small business purpose loans, \$23.8 million in home equity lines of credit, and \$8.5 million in consumer installment credit. Depuring the month of August 2009, NewBridge Bank originated \$2.6 million in residential loans to be sold in the secondary market. On a year to date basis, mortgage originations total \$73.0 million. In addition, the Bank has restructured 18 mortgage loans totaling \$3.4 million to lower interest rates and monthly payments. The Bank has launched a new residential mortgage lending program. All residential builders who are customers of NewBridge Bank have been contacted and provided information regarding specialized financing (rate of 4% fixed for 5 years; up to 95% financing; ¼% fee, no private mortgage insurance required) for consumers that are purchasing new construction homes which the builder has financed with NewBridge NewBridge Bank has also taken steps to expand its capacity to partner with the Small Business Administration ("SBA"). The Bank has been recently approved as a SBA Express Lender. In addition, NewBridge Bank has trained lenders in each market to accept loan applications under the SBA's \$35,000 ARC program. 22The Bank has been able to achieve these results although its state and local economies continue to exhibit substantial stress. Specifically, the July 2009 North Carolina unemployment rate of 11.1% exceeds exceed the national unemployment rate of 9.4%. This includes the following: Davidson County 13.5%, Forsyth County 10.0%, Guilford County 11.7%, New Hanover County 9.5%, Pender County 11.6%, and Rockingham County 13.3%. The Bank's primary operating market in Virginia (Rockingham County) is at 5.7%.2

A. Average consumer loans increased \$3.8 million from July to August. 22 Through the eight months ended August 31, 2009, residential mortgage originations (which include \$35.3 million in loans sold to FHLMC and \$3.0 million in loans sold to others) and all other consumer loan originations totaled \$64.6 million and \$23.2 million, respectively. Included in the eight month residential mortgage originations noted above, were 122 "no cash-out" refinances totaling \$21.0 million; the primary purpose of these refinances was to lower customers' payments. The principal and interest payments for these 122 customers in total were reduced by \$475,000 on an annualized basis or approximately \$3,900 per customer. 22B. Average commercial loans decreased \$4.7 million from August to July 2009. This was due to a decrease in commercial real estate loans

of \$371 thousand, commercial loans of \$1.6 million and loans to municipalities of \$4.7 million. 22 For the eight months ended August 31, 2009 commercial originations, including municipal loans, totaled \$109.0 million.

As a bankers' bank, we are focused on providing services to the community banking industry, which in turn provides loans to millions of consumers and small businesses throughout the country. PCBB provides our customer banks with products and services that allow these banks to offer competitive products and services to their end customers that they would otherwise not be able to offer. PCBB provides community banks the ability to make larger loans through its loan participation program, enhance liquidity management through our overnight cash investment and increase borrowing by providing facilities for community banks. PCBB also provides other products and services to support community banking activities. As a result of our focus on the

community banking industry, the TARP capital investment in PCBB has a multiplicative impact in that it facilitates lending activities through hundreds of community banks, indirectly or directly to the community bank's customers, as well. In addition, PCBB extended credit in the form of overnight lending facilities to Community Banks totaling \$378 million during August.

Park National Corporation experienced a small decline in the average balance of loans (about \$4.5 million) for the month of August as compared to the month of July. This decrease in loan balances was due to a decrease in residential mortgage loans. Park originates and sells fixed rate mortgage loans to FHLMC. The demand for this product continues to be fairly strong and some of Park's customers are refinancing their adjustable rate mortgage loan into a fixed rate mortgage loan. A year ago, the average balance of loans for the month of August was \$4,411 million compared to average balance in August 2009 of \$4,606 million, an increase of 4.4%.

Average Commercial Outstanding Balance Comment

The Bank continues to actively search for new commercial loan opportunities. Loan demand for CRE and C&I has been soft through the first 6 months of 2009. In addition, the Bank has experienced higher than projected repayments. As a result the overall balance in commercial loans has decreased since the beginning of the year.

General Market Commentary

YTD payoffs and paydowns through August 31 on commercial and consumer loans are running higher than projected. In addition, commercial loan demand has been much softer than anticipated. The Bank currently has approximately \$27 million in cash that it would like to use for new loan originations as quickly as demand will allow in the Bank's market. Our strategic plan is to fully leverage the additional capital from TARP through originations of new commercial and consumer loans in the Bank's market.

Challenging P.R. economy (4-year recession) continues to impact credit appetite, as well as credit quality. Unemployment rose to 16.5% in July, a 34% year over year increase; additional job cuts in public sector have been already announced. Government expects U.S. stimulus funds to top \$5B, to be distributed over next 2 years. Changes in U.S. market conditions have let to several restructuring efforts in Popular which have also contributed to a reduction in our portfolios.

During the past month Metropolitan National Bank has lowered the interest rates for Indirect Consumer Loans by 25 basis points, in an effort to make borrowings more attractive to area consumers seeking vehicle loans. The effort has prevented any material decline of consumer lending; but the overall demand for funds remains substantially less than desired. We are continuing to stress the desire to make consumer loans to our installment lenders and anticipate that as the local economy improves during the next year; so will the demand for loans.

Average Commercial Outstanding Balance Comment

Demand for commercial loans of all types remains weak, even at the very low and attractive interest rated being offered. With commercial real estate demand simply lacking; there is little interest of developers in seeking new financing for new projects. In a similar manner, in apartment lending the low occupancy rates in parts of our market indicate that there is simply no demand for new apartment construction loans at this time. We continue to seek solid credit worthy opportunities to deploy all available loan funds in the commercial area; but it is the lack of demand which is delaying the improvements in our volume which are desired.

Total Outstanding Balance Comment

The volume of total loans has remained largely flat, even while the Bank has pursued all available lending opportunities for credit worthy borrowers. The lack of loan growth is not associated with any internal restraint on lenders; but rather is a clear reflection of the recessionary environment in which the Bank is operating. There are signs of additional activity occuring in the economy, with some rebound in housing activity associated with lower priced homes; so the Bank remains positive that a rebound in the demand for loans will occur during the second half of 2009. The Bank is endeavoring to deploy the TARP funds received in the most productive manner for the community, the government and the Bank. We stress that the funds have not been deployed in any other vehicle than loans; as the investment portfolio for the Bank has declined in absolute size even as deposits have increased. The consumer focus seems to have shifted from consumption to savings and the strength of our retail deposit bases growth is a definite reflections of these changes in consumer attitude. The commercial market is also flat, with an apparent direct relationship to the general level of economic activity.

Consumer lending activities in the residential mortgage area have slowed and are primarily driven by opportunities for customer refinancings, which led to the close of \$20.8 million in residential mortgage loans, all of which were subsequently sold into the secondary market. On a year-to-date basis, \$301 million in residential mortgage loans have been originated with \$276 million sold into the secondary market. This level of activity is 1.7(x) the level in 2008

General Market Commentary

Unemployment has increased dramatically in all markets year-over-year (July 2008 - July 2009). Residential real estate values have declined and are now below levels generally indicated by natural long-term growth rates (1994-2008). Residential sales activity is generally being driven by sales of foreclosed properties within all markets. New foreclosures continue to be high. New commercial loan requests have been minimal. Commercial real estate continues to be under stress in all markets. There is concern that CRE fundamentals occupancy, rental rates, cap rates - will continue to deteriorate throughout 2009 and well into 2010.

We continue to experience high level of debt reduction by consumers and businesses as the economy continues to slow, resulting in negative net loan growth. We provided 15 new and renewed 4 consumer loans during August totaling \$834,424 and \$338,000, respectively. In addition we funded 61 mortgages that we sold into the secondary market totaling \$10,112,498. During August we extended 30 new facilities and renewed 59 others totaling \$6,241,339 and \$45,743,631, respectively. Our lending staff is actively seeking new loan and deposit relationships in our market area.

So far in 2009, Commercial and Consumer lending have been a challenge for community banks. There have been few opportunities to lend to businesses looking to expand or invest in capital expenditures. Much of the recent commercial demand comes in the form of struggling businesses unable to renew or refinance loans at their current banking institution. On the consumer side, credit unions have a tremendous advantage due to their income tax exemption. Syringa bank has managed to sustain consumer loan totals, which requires generating a fair amount of business to offset principal pay-down, maturity, and refinance activity.

The Company serves its business customers and the communities in its defined market. The Bank's resources are focused on all aspects of banking closely held, small and mid size companies. Given the relatively small number of branches (9), we are not competitive in the mass retail banking market. It is expected that this will continue to negatively impact our ability to fund substantial amounts of new consumer credit. In August 2009, our total consumer loans increased by approximately \$84 million, mainly associated with the purchase of certain mortgage loans which we expect to securitize and sell in next few months.

General Market Commentary

The Company continues to actively originate new loans and develop new customer relationships. During August 2009, total loan production was approximately \$41 million, with \$22 million representing actual loan

fundings and a resulting increase in loan balances outstanding and the remaining \$19 million representing unfunded or unused loan commitments. Year-to-date, total loan production was approximately \$783 million, with \$443 million representing actual loan fundings, and the remaining \$340 million represent unfunded or unused loan commitments. At the same time, the Company continues to strategically reposition its portfolio and reduce the amount of criticized loans. As such, the Company has exited certain customer relationships and has reduced exposures to certain types of business. The Company has also experienced a decline in the usage of available lines of credit and commitments. These portfolio management activities have offset the impact on the Company's loan balances from the new origination activity.

Average Consumer Outstanding Balance Key

Consumer loans include indirect and direct lending, lot loans, home equity lines and loans as well as 1-4 family mortgage loans.

Average Consumer Outstanding Balance Comment

The decline in average consumer loans from July to August was primarily driven by reduction in non-core lot loans and indirect auto loans.

Average Commercial Outstanding Balance (Thousands\$) 7,513,442

Average Commercial Outstanding Balance Key

Commercial loans include real estate construction, acquisition & development, corporate lending (including shared national credit facilities) and C&I lending.

Average Commercial Outstanding Balance Comment

Decline in average commercial loans represents continued strategic reduction of non-core loans through loan sales and through the problem loan resolution process, as well as lower loan originations within the Core portfolio.

General Market Commentary

The South Financial Group, Inc. and its wholly-owned banking subsidiary, Carolina First, has divided its loan portfolio along its primary strategic focus. The designation of "Core" and "Non Core" is meant to distinguish between those lending products for which little or no customer relationship exists and those that fit within the Company's primary strategic focus of relationship banking. The Non Core portfolio includes indirect auto

facility itse	d, for which there is	little or no custom	er relationship oth	er than the cred

We are seeing strengthening home sales in the lower end of the market. Higher-end property activity continues to see fewer offers. Canadian buyers seem to be showing greater interest in the Coachella Valley. The Utah market continues to outperform the Coachella Valley although higher end properties and tract developments continue to show very thin demand. In a bit of a surprise, we have not seen significant overdraft levels at our branches suggesting that problem relationships have been identified. Unemployment in the Coachella Valley remains among the highest regions of the United States while Utah unemployment is at elevated levels but below the national average.
