- (b) Performance of work under this contract must be subject to the technical direction of the COTR identified above, or a representative designated in writing. The term "technical direction" includes, without limitation, direction to the contractor that directs or redirects the labor effort, shifts the work between work areas or locations, fills in details and otherwise serves to ensure that tasks outlined in the work statement are accomplished satisfactorily.
- (c) Technical direction must be within the scope of the specification(s)/work statement. The COTR does not have authority to issue technical direction that:
 - (1) constitutes a change of assignment or additional work outside the specification(s)/work statement;
 - (2) constitutes a change as defined in the clause entitled "Changes";
 - (3) in any manner causes an increase or decrease in the contract price, or the time required for contract performance;
 - (4) changes any of the terms, conditions, or specification(s)/work statement of the contract;

If, in the opinion of the contractor, any direction of the COTR, or his/her designee, falls within the limitations in (c), above, the contractor shall immediately notify the contracting officer no later than the beginning of the next Government work day.
- (f) Failure of the contractor and the contracting officer to agree that technical direction is within the scope of the contract shall be subject to the terms of the clause entitled "Disputes."

G.5 ORDERING PROCEDURES

Work will commence under this contract only through the issuance of firm fixed price, labor hour, or time and materials task orders by the Contracting Officer. Subject to the exceptions set forth at FAR 16.505(b)(2), task orders over \$3,000.00 will be issued in compliance with the Fair Opportunity Procedures in FAR 16.505(b)(1), and in accordance with the procedures outlined in this section.

Small businesses awarded under this Contract will be considered as part of the fair opportunity process as required by the Small Business Act and FAR Subpart 19.5. As two or more small businesses have received base contract awards, the "rule of two" shall apply. This rule will govern whether task order requirements are set-aside for small businesses. A task order will be set-aside for small business if the Contracting Officer (CO) determines that there is a reasonable expectation that (1) offers to perform a specific task order will be received from two or more small businesses that demonstrate sufficient expertise to successfully perform the work required and do not appear, based on proposals received in response to this RFP or other information received from the contractor, to have a conflict of interest, and (2) award will be made at a fair market price. The CO will utilize all available information in making the set-aside determination, including the proposals submitted by small businesses in response to this RFP. Should the CO determine that further information is necessary, capability statements may be requested from small businesses who hold contracts.

Performance under task orders shall commence only after receipt of an executed task order via facsimile, mail, e-mail, or by verbal direction from the Contracting Officer. If verbal direction is given, written confirmation will be provided within five working days of the verbal order. The Government shall not be obligated to reimburse the Contractor for work performed, items delivered, or any costs incurred, nor shall the Contractor be obligated to perform, deliver, or otherwise incur costs except as authorized by duly executed task orders. The following ordering process will be used to issue task orders:

- For all task orders with an estimated value of over \$3,000.00, the CO will apply the "rule of two" and determine whether the task order should be set aside for small business.
- The CO, in consultation with technical evaluator(s), will review the contract technical proposals that were submitted in response to this RFP and any subsequent information submitted from contractors and identify the firms that have expertise in the area(s) relevant to the task order requirement.
- The CO, in consultation with Conflicts of Interest evaluator(s), will review all available conflict of interest information concerning the identified firms and will eliminate those that have conflicts that would prevent or significantly hinder task order performance. The CO may at any time request from a contractor information concerning conflicts of interest, regardless of whether an RFQ has been or will be issued for a specific requirement.
- The CO will calculate an evaluated price for each of the remaining firms by applying the each contractor's established labor rates to the estimated hours required for the task order.
- Depending on the nature and urgency of the task order requirement, the CO may:
 1. negotiate a task order with the identified firm with the lowest evaluated price, or
 2. issue an Request for Quotation (RFQ) or Request for Task Order Proposal (RTOP), including a Scope of Work detailing specific requirements or a Performance Work Statement that will specify requirements in terms of performance objectives, to two or more identified firms with the lowest evaluated prices, seeking additional technical information and any proposed price discounts as well as specifying any additional evaluation criteria.

- The contractor shall be solely responsible for any bid and proposal costs incurred in performance of the contract.
- The Contracting Officer, in conjunction with Contracting Officer's Technical Representative (COTRs) and Technical Points of Contact (TPOCs), will evaluate task order proposals in accordance with the evaluation criteria stated in the task order request. The evaluation criteria will typically include:
 1. Technical and Management approach;
 2. Key Personnel
 3. Past Performance to include quality, schedule, cost control, personnel management, and business relations; and,
 4. Price
- Specific criteria shall be identified in the request for proposals for each task order.
- After the review of proposals, negotiations may be held. Otherwise, the Government may accept an initial proposal by issuance of the task order. Due to the nature of the requirements, submission of task order proposals may be required within (2) two business days. Submission requirements shall be detailed within the task order request.

This ordering process is designed to provide Treasury with the ability to issue task orders to the most highly qualified firms with the highest possible efficiency, while complying with small business requirements and fair opportunity procedures. The CO will make use of the information submitted in response to this RFP, information learned throughout life of the contract, and information submitted to the CO by contractors. The CO may, in the CO's sole discretion, request additional information from contractors or issue an RFQ as discussed above. Contractors are encouraged to regularly provide updated information about their capabilities, conflicts of interest, and discounts offered (if the firm desires to further discount their rates from what is in their contract) in order to maximize Treasury's consideration of such firms.

Nothing in these ordering procedures shall limit the ability of Treasury to issue task orders directly to a firm should one of the statutory exceptions to the fair opportunity process apply. These exceptions can be found in FAR 16.505(b)(2).

In accordance with 41 U.S.C. § 253j and FAR 16.505(b)(5), Treasury has designated the following "Task and Delivery Order Ombudsman" to review any concerns or complaints raised by contractors about the fair opportunity process under this procurement:

Except as permitted by the contract, the Contractor agrees that it, its employees, its subcontractors, and its subcontractors' employees ("Contractor") will not disclose to any third party, or otherwise use, any information

it obtains or prepares in the course of performance of the contract or task order for any purpose other than to perform work under the contract without first receiving written permission from the Contracting Officer. The Contractor shall secure information received from or prepared or gathered for the Treasury Department (Treasury) under this contract in a secure location with access limited to only those personnel with a “need to know.” Notwithstanding any other language contained herein, the Contractor shall comply with 31 C.F.R. § 31.217, including the requirement that the Contractor obtain a certification from each “management official” and “key individual” performing work under the contract or task order, as those terms are defined in 31 C.F.R. § 31.201, stating that he or she will comply with the requirements of section 31.217(b). Labor rates billed by a contractor under this contract may not exceed those set forth in its Labor Rate Table.

H.7 CONFLICTS OF INTEREST

1. The Treasury HAS NOT WAIVED any potential conflicts of interest as defined by the Federal Acquisition Regulation (FAR) or 31 C.F.R. Part 31. Further, the Contractor agrees that its relationship with the Treasury will be governed by the FAR, 31 C.F.R. Part 31, and this contract. The Contractor agrees to negotiate in good faith concerning the inclusion of any different or additional conflict of interest policies and procedures that may be issued by the Treasury pursuant to Section 108(b) of the Emergency Economic Stabilization Act of 2008.

2. Prior to work being performed under any new task order, the Contractor shall prepare a detailed written explanation of all actual conflicts, potential conflicts, or matters that may present the appearance of a conflict under the FAR or 31 C.F.R. Part 31, and shall provide a detailed written plan explaining any and all steps the Contractor will undertake to avoid or mitigate such conflicts. The Contractor's disclosure submission shall include but is not limited to the information specified in 31 C.F.R. § 31.211(b)(1) – (b)(6), and shall include at a minimum the following:

- a) The Contractor and any proposed or actual subcontractor's or consultant's relationship to any related entities as such term is defined in 31 C.F.R. § 31.201;

3. Failure to make full and timely disclosure of actual or potential conflicts of interest, or matters that may present the appearance of a conflict, as well as failure to comply with 31 C.F.R. Part 31 or Treasury conflicts of interest policies and procedures are extremely serious matters. 4. It is solely within the discretion of the Treasury to determine whether or not a conflict of interest exists and whether any mitigation plan submitted by the Contractor avoids or mitigates a conflict. Even the appearance of a conflict may result in the denial of a waiver or other appropriate actions. In the event that matters are transferred to another contractor or entity pursuant to the corrective actions listed above, the Contractor is expected to follow Treasury policies and procedures and to cooperate fully in the orderly transfer of such matters.

5. In addition to complying with 31 C.F.R. Part 31 and any other applicable restrictions, the Contractor will: (1) not advise or provide services to any parties other than the United States in any matter that is the subject of a task order during the term of this contract, other than as permitted in the Contractor's Conflict of Interest Mitigation Plan, which is incorporated by reference herein; (2) have all staff assigned to work under this contract receive conflicts and confidentiality training in consultation with the OFS Compliance office. Individuals assigned to work under this during the term of this contract shall not provide any services related to the Troubled Asset Relief Program (TARP) to any party during the time the individual is performing work for Treasury.

6. No later than 10 business days after the effective date of this contract, or any new task order under this contract or any revision to this contract's anticipated work or any task order's statement of work, the Contractor shall (i) obtain and review the submissions required by 31 C.F.R. § 31.212 for personal conflicts of interest, and (ii) certify in writing to the Treasury that all such individuals have no personal conflicts of interest, or are subject to a mitigation plan or waiver approved by the Treasury. Contractor agrees not to permit any such individual to perform work under this contract or any task order with respect to any institution or related entities of such institution with which such individual has disclosed a personal conflict of interest pursuant to 31 C.F.R. § 31.212, absent obtaining the Treasury's prior consent. In making this determination, the Contractor may rely on the information obtained pursuant to 31 C.F.R. § 31.212(b), unless the Contractor knows or should have known that the information provided is false or inaccurate.

7. Before the Contractor accepts a contract, task order, or a modification to this contract, the Contractor shall certify to the following:

- a. The Contractor is aware of the prohibitions or paragraph (a) of 31 C.F.R. § 31.216 and, to the best of its knowledge after making reasonable inquiry, the retained entity has no information concerning a violation or possible violation of paragraph (a) of 31 C.F.R. § 31.216; and

- b. Each officer, employee, and representative of the Contractor who participated personally and substantially in preparing a bid, offer, proposal, or request for modification of this contract after the date hereof has certified that he or she:
 - 1) Is familiar with and will comply with the requirements of paragraph (a) of 31 C.F.R. § 31.216; and
 - 2) Has no information of any violations or possible violations of paragraph (a) of 31 C.F.R. § 31.216, and will report immediately to the Contractor any subsequently gained information concerning a violation or possible violation of paragraph (a) of 31 C.F.R. § 31.216.
- 8. Before the Contractor accepts a task order, the Contractor shall use Attachment J- 4 to certify that all organizational and personal conflicts of interest remain adequately mitigated.
- 9. The Contractor shall include this clause in all subcontracts, consultant agreements, and lower tier subcontractors unless a waiver is requested from, and granted by, the CO.
- 10. If the Treasury issues additional regulations or guidelines on conflicts of interest under the TARP – including the Final Rule on TARP Conflicts of Interest contemplated by the Interim COI Rule – the Contractor and the Treasury will negotiate in good faith to include appropriate provisions in Contractor’s Amended COI Mitigation Plan to address those additional regulations or guidelines.

H.8 PUBLIC-RELEASE CONTRACT VERSION REQUIREMENT

The contractor agrees to submit, within ten business (10) days from the date the contract is awarded (exclusive of Saturdays, Sundays, and federal holidays), a .pdf file of the fully executed contract or task order with all proposed necessary redactions, including redactions of any trade secrets or any commercial or financial information that it believes to be privileged or confidential business information, for the purpose of public disclosure at the sole discretion of the United States Department of the Treasury (Treasury). The contractor agrees to provide a detailed written statement specifying the basis for each of its proposed redactions, including the applicable exemption under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, and, in the case of FOIA Exemption 4, 5 U.S.C. § 552(b)(4), shall demonstrate why the information is considered to be a trade secret or commercial or financial information that is privileged or confidential. Information provided by the contractor in response to this contract requirement may itself be subject to disclosure under the FOIA.

The Treasury will carefully consider all of the contractor's proposed redactions and associated grounds for nondisclosure prior to making a final determination as to what information in the fully executed contract may be properly withheld.

I, [Name of Authorized Official], am a duly authorized official of [Name of Contractor] ("Contractor"), and I certify that the information provided by the Contractor to the Treasury on [Date] regarding organizational conflicts of interest in accordance with 31 C.F.R. §31.211 is complete and accurate in all material respects. In accordance with 31 C.F.R. § 31.211, prior to the award of a relevant contract the Contractor is required to provide Treasury with sufficient information to evaluate any organizational conflicts of interests, which information shall include:

1. The Contractor's, any proposed subcontractor's or consultant's' relationship to any related entities as such term is defined in 31 CFR § 31.201;
