STATEMENT OF WORK

Data and Document Management Consulting Services

1.0 Background

In 2009, The United States Department of Treasury (Treasury) decided to incorporate Microsoft collaboration, document management, workflow and reporting tools into its core application architecture to provide a number of technical capabilities that are important to the work of the Department. Key Treasury needs include:

- The ability to develop, track, control, store and search the store of documents that are developed in the course of business. Examples include legal document production, correspondence, contracts, audit and oversight responses.
- The need to create and track various workflows managed by the business. Examples include managing FOIA requests; correspondence tracking; audit/oversight assignment and tracking; and various compliance activities.
- Ability to report business data, render data graphically and provide professional quality reporting packages. Examples include the Management Information report and Chief Investment Office presentations.
- Ability to create electronic team rooms and workrooms to support collaboration and the efficient management of a number of project-like initiatives.
- Ability to store and manage structured data, like trading activity, pricing, and master lists.

In response to these needs, Treasury procured the Microsoft tools - SharePoint, Performance Point, K2/Blackpearl, and SQL server. The Department has identified a requirement for Microsoft-based data and document management consulting services in order to maximize its return on investment through the creative use of these tools. Within Treasury, there is a significant amount of document production requiring sophisticated storage and retrieval functions (e.g. collaboration, document management, workflow, reporting and analytics) to manage the volume of electronic files. Specifically, there is an extensive legal function which must manage its document creation and filing processes. Lastly, Treasury has significant and complex reporting and workflow requirements in order to support its noteworthy mission, and there is a need to integrate documents with its structured data and general data warehouse initiatives.

2.0 Objective and Scope

The objective of this Blanket Purchase Agreement (BPA) is to acquire consulting services to assist Treasury in developing its data and applications architecture and to execute and/or create applications to support its missions. Required capabilities include:

- SharePoint (MOSS7) - based application development
- Integration of SharePoint with other tools such as SQL Server, Performance Point, K2/Blackpearl
- Document management projects with a focus on those executed in a Microsoft environment
- Integration of structured and unstructured data in data warehouse applications
- Development of work-flow based applications
- Experience with legal department/legal matter/legal document management/FOIA
- Data Architecture-oriented projects
- Project management and consulting capabilities
- SharePoint governance and operations
- General web portal development.

The contracted services shall include: strategy, governance, architecture, design, build, configuration and operations of SharePoint and other integrated tools-based-applications (e.g. PerformancePoint, K2 Technologies, SQL Server, etc.).

3.0 Tasks

Treasury may issue orders under this BPA in the following categories:

- 3.1 **Information Technology Planning and Strategy Services** – the Contractor shall provide comprehensive IT planning, strategy and governance for the Treasury’s Chief Technology Office. The services shall include an assessment of the Treasury data and document production environment (hardware and software), the development of practical enterprise architecture artifacts, as well as, governance policies and procedures.

- 3.3 **Information Technology Operational Support Services** – The Contractor shall provide on-site and/or off-site management and operational support of Treasury operational

applications and other IT requests. The services shall include tier-2 and tier-3 application support, infrastructure support and call center processes and metrics.

The Contractor shall develop a Program Management Plan that will provide a breakdown of work within tasks, key personnel, work assignments, time allocations, and delivery schedule. This document shall be updated annually and will be required in the Base Year of the lifecycle of this contract and in accordance with Treasury policy. In addition, the Contractor shall develop a Task Order Project Plan for each task order that will, at a minimum:

- Define specific major activities to be performed
- Establish a work schedule for the major activities
- Define work products that will be produced, and
- Establish milestones for formal deliverables.

The contractor shall apply the generally accepted project management practices from the Program Management Institute (PMI) to Treasury efforts, including: scope management, schedule management, staffing management, change management, financial management, communications management, risk management, quality management and procurement management.

Once the Task Order Project Plan is agreed to by both the Contractor and the Contracting Officer technical representative (COTR), changes to the Project Plan can only be made after coordination and joint agreement between the Contractor and the COTR.

4.0 Conflicts Of Interest

- 4.1 The Treasury HAS NOT WAIVED any potential conflicts of interest as defined by the Federal Acquisition Regulation (FAR) or 31 C.F.R. Part 31. Further, the Contractor agrees that its future relationship with the Treasury will be governed by the FAR, 31 C.F.R. Part 31, and this BPA. The Contractor agrees to negotiate in good faith

concerning the inclusion of any different or additional conflict of interest policies and procedures that may be issued by the Treasury pursuant to Section 108(b) of the Emergency Economic Stabilization Act of 2008.

- 4.2 Prior to work being performed under the first task order, the Contractor shall prepare a detailed written explanation of all actual conflicts, potential conflicts, or matters that may present the appearance of a conflict under the FAR or 31 C.F.R. Part 31, and shall provide a detailed written plan explaining any and all steps the Contractor will undertake to avoid or mitigate such conflicts. The Contractor's disclosure submission shall include but is not limited to the information specified in 31 C.F.R. § 31.211(b)(1) – (b)(6), and shall include at a minimum the following:
- The Contractor and any proposed or actual subcontractor's or consultant's relationship to any related entities as such term is defined in 31 C.F.R. § 31.201;

 - A description of all organizational conflicts of interest and potential conflicts of interest;
 - A written detailed plan to mitigate all organizational conflicts of interest, along with supporting documents; and
 - A written detailed plan to mitigate all personal conflicts of interest, along with supporting documents; and
 - A certification that the information provided to the Treasury in response to the above items is complete and accurate in all materials respects. Only after receiving this information will the Treasury determine whether organizational conflicts of interest prevent the Contractor from consulting for the Treasury in the specific matter. The Contractor shall use Attachment 2 of this Contract to comply with this response submission requirement. Within the certification contained in Attachment 2, the statement that the information provided is "complete and accurate in all material respects" means to the best of the Contractor's knowledge at the time of response submission.

- 4.3 Failure to make full and timely disclosure of actual or potential conflicts of interest, or matters that may present the appearance of a conflict, as well as failure to comply with 31 C.F.R. Part 31 or Treasury conflicts of interest policies and procedures are extremely serious matters. Such failures may subject the Contractor to corrective action including but not limited to: (i) refusal to waive a conflict; (ii) termination of this BPA for default; (iii) debarment of the contractor from federal contracting; (iv) referral to the appropriate state licensing authorities; and/or in appropriate cases (v) civil or criminal actions.
- 4.4 It is solely within the discretion of the Treasury to determine whether or not a conflict of interest exists and whether any mitigation plan submitted by the Contractor avoids or mitigates a conflict. Even the appearance of a conflict may result in the denial of a waiver or other appropriate actions. In the event that matters are transferred to another contractor or entity pursuant to the corrective actions listed above, the Contractor is expected to follow Treasury policies and procedures and to cooperate fully in the orderly transfer of such matters.
- 4.5 In addition to complying with 31 C.F.R. Part 31 and any other applicable restrictions, the Contractor will: (1) not advise any parties against the United States in any matter that is the subject of or related to a task order during the term of this BPA and after the end of this BPA; and (2) have all professional staff assigned to work under this BPA receive conflicts training in consultation with the OFS Compliance office. Individuals assigned to work under this BPA shall not provide any services related to the Troubled Asset Relief Program (TARP) to any party during the time the individual is performing work for Treasury.
- 4.6 No later than 10 business days after the effective date of this BPA, or any new task order under this BPA or any revision to this BPA's anticipated work or any task order's statement of work, the Contractor shall (i) obtain and review the submissions required by 31 C.F.R. § 31.212 for personal conflicts of interest, and (ii) certify in writing to the Treasury that all such individuals have no personal conflicts of interest, or are subject to a mitigation plan or waiver approved by the Treasury. The Contractor shall use Attachment 3 of the Contract to comply with this response submission requirement. Contractor agrees not to permit any such individual to perform work under this BPA or task order with respect to any institution or related entities of such institution with which such individual has disclosed a personal conflict of interest pursuant to 31 C.F.R. § 31.212, absent obtaining the Treasury's prior consent. In making this determination, the Contractor may rely on the information obtained pursuant to 31 C.F.R. § 31.212(b),

unless the Contractor knows or should have known that the information provided is false or inaccurate.

- 4.7 Before the Contractor accepts a contract, task order, or a modification to this BPA, the Contractor shall certify to the following:
- The Contractor is aware of the prohibitions or paragraph (a) of 31 C.F.R. § 31.216 and, to the best of its knowledge after making reasonable inquiry, the retained entity has no information concerning a violation or possible violation of paragraph (a) of 31 C.F.R. § 31.216; and
 - Each officer, employee, and representative of the Contractor who participated personally and substantially in preparing a bid, offer, proposal, or request for modification of this BPA after the date hereof has certified that he or she:
 - a. Is familiar with and will comply with the requirements of paragraph (a) of 31 C.F.R. § 31.216; and
 - b. Has no information of any violations or possible violations of paragraph (a) of 31 C.F.R. § 31.216, and will report immediately to the Contractor any subsequently gained information concerning a violation or possible violation of paragraph (a) of 31 C.F.R. § 31.216.
 - The Contractor shall use Attachment 4 of the BPA to comply with this response submission requirement.
- 4.8 Before the Contractor accepts a task order, the Contractor shall use Attachment 5 to certify that all organizational and personal conflicts of interest remain adequately mitigated.
- 4.9 The Contractor shall include this clause in all subcontracts, consultant agreements, and lower tier subcontractors unless a waiver is requested from, and granted by, the CO.
- 4.10 If the Treasury issues additional regulations or guidelines on conflicts of interest under the TARP – including the Final Rule on TARP Conflicts of Interest contemplated by the Interim COI Rule – the Contractor and the Treasury will negotiate in good faith to include appropriate provisions in Contractor’s Amended COI Mitigation Plan to address those additional regulations or guidelines.

5.0 Task Orders and the Task Order Process

All work to be performed under this BPA will commence with the issuance of task orders within the scope of the BPA. This process will commence with the submission of a request for task order proposal submitted via e-mail to the contractor by the Contracting Officer. The request

will specifically identify the Treasury requirements for the project as contained generally in a statement of objectives or specific requirements outlined in a statement of work, identify the project deadline including a detailed project schedule if one exists, and will state the date on which the Treasury needs to receive a response from the contractor for this requirement. The contractor will submit a response to the Contracting Officer or the cognizant Contract Specialist by the requested due date for a task order proposal. The contractor's response shall include a proposed project plan, narrative describing the approach to meet the statement objectives or statement of work, identify key personnel and any resources to be utilized, identify any conflicts of interest for performing the work, and include a detailed breakdown of pricing consistent with the rates established in Section II of the BPA. Upon submission of a proposal for the requirement by the contractor, the Treasury will evaluate the proposal to ensure that all Treasury requirements have been met. Task orders will be in writing and will be issued by the Contracting Officer to include either a performance-based Statement of Objectives (SOO) describes the Treasury's desired outcome(s) or a Statement of Work that defines Treasury's requirement(s).

If utilizing a Statement of Objectives, performance measurements shall be proposed in direct support of the objectives. The individual task order will specify the compensation for meeting, exceeding or failing to achieve the objective to which the parties have agreed. While it is expected that some task orders may include a performance measurement or metric(s), it is recognized that other tasks may not be appropriate for measurement and include a statement of work.

All deliverables (products) will be identified in individual task orders.

Task orders will either be firm-fixed-price, or labor hour.

Task orders will be competed among all BPA holders, unless an exception applies as per FAR 8.405-6. If conducting task order competitions, competing BPA holders will be asked to identify any conflicts of interest for performing the task order work, any unique qualifications the firm may have to perform the work, and proposed reductions (if any) to the labor rates set forth in their respective BPAs. In some instances, Treasury may require expedited responses from BPA holders so as perform work that is imminently needed. Treasury will award to one or more competing BPA holders based on a best value determination, considering each offeror's conflicts of interest for the work, unique qualifications to perform the work, quality of prior work previously performed under the BPA, and proposed pricing. Technical merit will be considered more important than price. After making a best value determination, Treasury will notify the competing BPA holders of the task order award decision.

(2) *Data not first produced in the performance of this contract.* The Contractor shall not, without the prior written permission of the Contracting Officer, incorporate in data delivered under this contract any data not first produced in the performance of this contract unless the Contractor—

(i) Identifies the data; and

(ii) Grants to the Government, or acquires on its behalf, a license of the same scope as set forth in paragraph (c)(1) of this clause or, if such data are restricted computer software, the Government shall acquire a copyright license as set forth in paragraph (g)(4) of this clause (if included in this contract) or as otherwise provided in a collateral agreement incorporated in or made part of this contract.

(3) *Removal of copyright notices.* The Government will not remove any authorized copyright notices placed on data pursuant to this paragraph (c), and will include such notices on all reproductions of the data.

(d) *Release, publication, and use of data.* The Contractor shall have the right to use, release to others, reproduce, distribute, or publish any data first produced or specifically used by the Contractor in the performance of this contract, except—

(1) As prohibited by Federal law or regulation (*e.g.*, export control or national security laws or regulations);

(2) As expressly set forth in this contract; or

(3) If the Contractor receives or is given access to data necessary for the performance of this contract that contain restrictive markings, the Contractor shall treat the data in accordance with such markings unless specifically authorized otherwise in writing by the Contracting Officer.

(e) Unauthorized marking of data.

(1) Notwithstanding any other provisions of this contract concerning inspection or acceptance, if any data delivered under this contract are marked with the notices specified in paragraph (g)(3) or (g) (4) if included in this clause, and use of the notices is not authorized by this clause, or if the data bears any other restrictive or limiting markings not authorized by this contract, the Contracting Officer may at any time either return the data to the Contractor, or cancel or ignore the markings. However, pursuant to 41 U.S.C. 253d, the following procedures shall apply prior to canceling or ignoring the markings.

(i) The Contracting Officer will make written inquiry to the Contractor affording the Contractor 60 days from receipt of the inquiry to provide written justification to substantiate the propriety of the markings;

(ii) If the Contractor fails to respond or fails to provide written justification to substantiate the propriety of the markings within the 60-day period (or a longer time approved in writing by the Contracting Officer for good cause shown), the Government shall have the right to cancel or ignore the markings at any time after said period and the data will no longer be made subject to any disclosure prohibitions.

(iii) If the Contractor provides written justification to substantiate the propriety of the markings within the period set in paragraph (e)(1)(i) of this clause, the Contracting Officer will consider such written justification and determine whether or not the markings are to be cancelled or ignored. If the Contracting Officer determines that the markings are authorized, the Contractor will be so notified in writing. If the Contracting Officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, the Contracting Officer will furnish the Contractor a written determination, which determination will become the final agency decision regarding the appropriateness of the markings unless the Contractor files suit in a court of competent jurisdiction within 90 days of receipt of the Contracting Officer's decision. The Government will continue to abide by the markings under this paragraph (e)(1)(iii) until final resolution of the matter either by the Contracting Officer's determination becoming final (in which instance the Government will thereafter have the right to cancel or ignore the markings at any time and the data will no longer be made subject to any disclosure prohibitions), or by final disposition of the matter by court decision if suit is filed.

(2) The time limits in the procedures set forth in paragraph (e)(1) of this clause may be modified in accordance with agency regulations implementing the Freedom of Information Act (5 U.S.C. 552) if necessary to respond to a request thereunder.

(3) Except to the extent the Government's action occurs as the result of final disposition of the matter by a court of competent jurisdiction, the Contractor is not precluded by paragraph (e) of the clause from bringing a claim, in accordance with the Disputes clause of this contract, that

may arise as the result of the Government removing or ignoring authorized markings on data delivered under this contract.

(f) Omitted or incorrect markings.

(1) Data delivered to the Government without any restrictive markings shall be deemed to have been furnished with unlimited rights. The Government is not liable for the disclosure, use, or reproduction of such data.

(2) If the unmarked data has not been disclosed without restriction outside the Government, the Contractor may request, within 6 months (or a longer time approved by the Contracting Officer in writing for good cause shown) after delivery of the data, permission to have authorized notices placed on the data at the Contractor's expense. The Contracting Officer may agree to do so if the Contractor—

- (i) Identifies the data to which the omitted notice is to be applied;
- (ii) Demonstrates that the omission of the notice was inadvertent;
- (iii) Establishes that the proposed notice is authorized; and
- (iv) Acknowledges that the Government has no liability for the disclosure, use, or reproduction of any data made prior to the addition of the notice or resulting from the omission of the notice.

(3) If data has been marked with an incorrect notice, the Contracting Officer may—

- (i) Permit correction of the notice at the Contractor's expense if the Contractor identifies the data and demonstrates that the correct notice is authorized; or
- (ii) Correct any incorrect notices.

(g) Protection of limited rights data and restricted computer software.

(1) The Contractor may withhold from delivery qualifying limited rights data or restricted computer software that are not data identified in paragraphs (b)(1)(i), (ii), and (iii) of this clause. As a condition to this withholding, the Contractor shall—

- (i) Identify the data being withheld; and
- (ii) Furnish form, fit, and function data instead.

(2) Limited rights data that are formatted as a computer database for delivery to the Government shall be treated as limited rights data and not restricted computer software.

(3) [Reserved]

(h) *Subcontracting*. The Contractor shall obtain from its subcontractors all data and rights therein necessary to fulfill the Contractor's obligations to the Government under this contract. If a subcontractor refuses to accept terms affording the Government those rights, the Contractor shall promptly notify the Contracting Officer of the refusal and shall not proceed with the subcontract award without authorization in writing from the Contracting Officer.

(i) *Relationship to patents or other rights*. Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government.

14.0 Public-Release BPA Version Requirement

The contractor agrees to submit, within ten business (10) days from the date the BPA, or any BPA call, is awarded (exclusive of Saturdays, Sundays, and federal holidays), a .pdf file of the fully executed BPA or task order with all proposed necessary redactions, including redactions of any trade secrets or any commercial or financial information that it believes to be privileged or confidential business information, for the purpose of public disclosure at the sole discretion of the United States Department of the Treasury (Treasury). Information provided by the contractor in response to this requirement may itself be subject to disclosure under the FOIA.

NON-DISCLOSURE AGREEMENT

Data and Document Management Consulting Services
Conditional Access to Sensitive but Unclassified Information
Non-disclosure Agreement

I, _____, hereby consent to the terms in this Agreement in consideration of my being granted conditional access to certain United States Government documents or material containing sensitive but unclassified information. I understand and agree to the following terms and conditions:

1. By being granted conditional access to sensitive but unclassified information, the United States Government has placed special confidence and trust in me and I am obligated to protect this information from unauthorized disclosure, in accordance with the terms of this Agreement.
2. As used in the Agreement, sensitive but unclassified information is any information the loss, misuse, or unauthorized access to or modification of which could adversely affect the national interest or the conduct of Federal programs, or the privacy to which individuals are entitled under Title 5 USC 522a, but which has not been specifically authorized under criteria established by an Executive Order or an Act of Congress to be kept secret in the interest of national defense or foreign policy.
3. I and my company are being granted conditional access contingent upon my execution of this Agreement for the sole purpose of the Data and Document Management Consulting Services BPA. This approval will permit me and my company conditional access to certain information, (documents, memoranda, reports, testimony, deliberations, etc.) and/or to attend meetings in which such information is discussed or otherwise made available to me. This Agreement will not allow me access to materials which the Treasury Department has predetermined, in its sole discretion, are inappropriate for disclosure pursuant to this Agreement. This may include sensitive but unclassified information provided to the Treasury Department by other agencies of the United States Government.
4. I will never divulge any sensitive but unclassified information that is provided to us pursuant to this Agreement to anyone, unless we have been advised in writing by the Treasury Department that the individual is authorized to receive it. Should we desire to make use of any sensitive but unclassified information, we will do so in accordance with paragraph 6 of this Agreement. I will submit to the Treasury Department for security review, prior to any submissions for publication, any book, article, column or other written work for general publication that is based upon any knowledge obtained during the course of the work performed in Data and Document Management Consulting Services in order for the Treasury Department to ensure that no sensitive but unclassified information is disclosed.
5. I hereby assign to the United States Government all royalties, remunerations, and emoluments that have resulted, will result or may result from any disclosure, publication, or revelation of sensitive but unclassified information not consistent with the terms of this Agreement.
6. If I am permitted, at the sole discretion of the Treasury Department, to review any official documents containing sensitive but unclassified information, such review will be conducted at a secure facility or under circumstances that will maintain the security protection of such materials. I will not be permitted to and will not make any copies of documents or parts of documents to which conditional access is granted to me. Any notes taken

during the course of such access will remain at the Treasury Department, to be placed in secure storage unless it is determined by Treasury officials that the notes contain no sensitive but unclassified information. If I wish to have the notes released to us, Treasury officials will review the notes for the purposes of deleting any sensitive but unclassified information to create a redacted copy of the notes. If I do not wish a review of any notes made, those notes will remain in secure storage at the Treasury Department.

7. If I violate the terms and conditions of this Agreement, we understand that the unauthorized disclosure of sensitive but unclassified information could compromise the security of the Treasury Department.

8. If I violate the terms and conditions of this Agreement, such violation may result in the cancellation of the conditional access to sensitive but unclassified information for me and my company. This may serve as a basis for denying me or the company conditional access to Treasury Department information, both classified and sensitive but unclassified information in the future. If I violate the terms and conditions of this Agreement, the United States may institute a civil action for damages or any other appropriate relief. The willful disclosure of information to which I have agreed herein not to divulge may constitute a criminal offence.

9. Unless and until I am provided a written release by the Treasury Department from this Agreement or any portions of it, all conditions and obligations contained in this Agreement apply both during my period of conditional access, which shall terminate at the conclusion of my work on Data and Document Management Consulting Services, and at all times thereafter.

10. Each provision of this Agreement is severable. If a court should find any provisions of this Agreement unenforceable, all other provisions shall remain in full force and effect.

11. I understand that the United States Government may seek any remedy available to it to enforce this Agreement, including, but not limited to, application for a court order prohibiting disclosure of information in breach of this Agreement.

12. By granting me conditional access to information in this context, the United States Government does not waive any statutory or common law evidentiary privileges or protections that it may assert in any administrative or court proceeding to protect any sensitive but unclassified information to which my company has been given conditional access under the terms of this Agreement.

13. These restrictions are consistent with and do not supersede, conflict with or otherwise alter the employee obligations, rights or liabilities created by Executive Order 12356; Section 7211 of Title 5, United States Code (governing disclosures to Congress); Section 1034 of Title 10, United States Code, as amended by the Military Whistleblower Protection Act (governing disclosure to Congress by members of the military); Section 2302(b)(8) of Title 5, United States Code, as amended by the Whistleblower Protection Act (governing disclosures of illegality, waste, fraud, abuse or public health or safety threats); the Intelligence Identities Protection Act of 1982 (50 USC 421 et seq.) (governing disclosures that could expose confidential Government agents), and the statutes that protect against disclosure that may compromise the national security, including Sections 641, 793, 794, 798, and 952 of Title 18, United States Code, and Section 4(b) of the Subversive Activities Act of 1950 (50 USC Section 783 (b)). The definitions, requirements, obligations, rights, sanctions and liabilities created by said Executive Order and listed statutes are incorporated into this Agreement and are controlling.

14. My execution of this Agreement shall not nullify or effect in any manner any other secrecy or nondisclosure Agreement which I have executed or may execute with the United States Government.

15. I make this Agreement in good faith, without mental reservation or purpose of evasion.
