## Notes

- All figures are as of prior business day and are subject to adjustment(s)
- <sup>1</sup> This represents the portion of the repayments that were received from refinancing to SBLF. This column is not used to calculate the Oustanding amount.
- <sup>2</sup> Amounts of "Realized Loss", "Gain / Other Income", and "Warrants Sold" reflect net cash receipts.
- <sup>3</sup> For equity programs, all dividend and interest payments are classified in the "Dividends" category. For direct loan programs, all dividend and interest payments are classified in the "Interest" category. These classifications are consistent with the accounting treatment used to produce OFS' financial statements.
- 4 This column represents the sum of repayments plus income/revenue. All returned TARP funds are paid into the general fund of the Treasury for the reduction of the public debt. These amounts do not represent lifetime cost estimates, which OFS provides in separate table.
- <sup>5</sup> Citigroup CPP investment was originally in the form of preferred shares and was converted to common stock in September 2009.
- <sup>6</sup> Gain / Other Income does not include the receivable for up to \$800 million in trust preferred securities from the Federal Deposit Insurance Corporation (FDIC).
- $^{7}\,$  All CDCI collections are grouped in the "Not From Exchanges" row/category.
- 8 The "Bank Program Totals" do not include the disbursements, repayments, or gain on warrants sold for the CPP to CDCI exchanges as they were cashless.
- <sup>9</sup> Allocation of PPIP Equity receipts between repayments and income are subject to reclassification.
- 10 TARP's investment in AIG was originally made in the form of preferred stock, some of which was converted to common stock in the recapitalization in January, 2011. For convenience of the reader, the amount converted into common stock is listed under the "obligated" and "disbursed" columns.
- 11 Treasury has sold a total of 595 million AIG common shares at an average price of \$29.47 per share, consisting of 392,922,121 TARP shares and 202,499,020 non-TARP shares based upon the Treasury's pro-rata holding of those shares. The non-TARP shares are those received from the trust created by the Federal Reserve Bank of New York for the benefit of the Treasury. Receipts for non-TARP common stock totaled \$5,968,645,637 and are not included in TARP collections. The realized loss reflects the price at which TARP sold common shares in AIG and the TARP's cost basis of \$43.53 per common share. However, the Treasury as a whole realized a gain on the sale of AIG shares as the combined basis for those shares is \$28.73.
- 12 Treasury's investment in GM was originally made primarily in the form of loans, some of which were subsequently converted into common and preferred stock. Treasury currently holds only common stock. The realized loss reflects the difference between the price at which Treasury sold common
- 13 Treasury has entered into a letter of credit (L/C) to fund the FHA Short Refinance Program. Pursuant to this L/C, a reserve account has been pre-funded with \$50 million in funds for any future loss claim payments. Treasury will be reimbursed for all unused amounts from this account. As of the date hereof, no disbursements for loss claim payments under the FHA Short Refinance Program have been made.
