# WORKING FAMILIES TAX CUTS

## USHERING IN A NEW GOLDEN AGE

## Expanding Educational Freedom for Children and Families

President Trump's Working Families Tax Cuts includes the first national school choice tax credit, **empowering families with access to the education and resources best suited to their children's needs.**

### The Working Families Tax Cuts brings Educational Freedom Nationwide

- 🏆 The WFTC establishes, beginning in 2027, the **Education Freedom Tax Credit** of up to \$1,700 for contributions made to a Scholarship Granting Organization (SGO)
- 🏆 SGOs are nonprofits that use these contributions to provide scholarships to children to attend a school of their choice or to access other education-related necessities
- 🏆 **Most American students** will be eligible to benefit from this transformative incentive so that families can pay for expenses such as **private school tuition, tutoring at public schools, or support services for students with disabilities**
- 🏆 To date, **25 states have already declared their intent to participate in the federal program**; to see which governors have rejected educational freedom and parental choice click [here](#)

### The Education Freedom Tax Credit empowers those in need

- 🏆 Students eligible to enroll in a public elementary or secondary school and from a household with income not greater than **300% of the area's median gross income** will be eligible for a scholarship
- 🏆 The Education Freedom Tax Credit could generate an **additional \$7.5 billion in education funding annually**
- 🏆 **Every \$1 billion** in scholarships could fund tuition at a school of choice **for 77,000 students**
